

## PARADISE LODGE - PANAMA

Panama offers some of the best all-around salt water fishing on the planet and provides visitors with many species of fish year round.

Paradise Lodge stands truly in a league of its own and sprawls out over twenty five acres, located on high grounds with breath-taking 360° views. If seeing is believing, when you arrive at the lodge (which really should be called a resort), you'll instantly understand why it is called 'Paradise'.

The lodge has eight rooms and will hold 17 people. Many people that have come to fish at the lodge come back with their entire family on vacation for the surroundings alone and forget the fishing!

But if you are here for the fishing, you will be doing it in grand style and comfort with beautiful clean private air-conditioned cottages, large pool, swim-up bar, huge hot tub, SPACIOUS grounds, the list goes on and on...

Fishing is great here year round. The dry season is from December to May, and in May it will start to rain, but mostly in the afternoons. We normally just get a good rain storm and it gets sunny again. September, October and the beginning of November can be a bit more rainy than the other months. In 12 years at the lodge, there has been not been one day loss of fishing due to the weather. Sometimes the offshore fishing can be rough but we can always find good fishing around the islands.

Although many clients bring a few of their own rods and reels and that is fine, they are not needed! There are all the top rods, reels and rigging needed to get the job done. We do understand that many people want to bring their own rods and lures to even do a little bit of experimenting and testing with their equipment. So if you want to put that drag on that new spinning reel to the test – bring it with you and hold on because we aim to put you on the “proving grounds”.

The lodge employs some of the best and most experienced professional captains around who have generations of local fishing experience that will be put to work for you! All of the captains and mates understand that they are fishing and working for you.

We do many types of fishing here, popping, jigging, fishing with live bait, chunk bait, slow troll live bait, troll plastics for Grouper, giant Cubera Snapper, Roosters or Amberjacks ..... The list goes on and on. We have many options with many different species of fish to try for. There are plenty of islands in the area and lots of rock structures to fish and offshore we have the famous Hannibal Bank and Montosa Island to fish for big Marlin, Tuna and Sailfish.

There are currently 6 centre counsel fishing boats, all with new twin Suzuki 175 hp 4 stroke motors, 1 x 31' Contender, 4 x 27' Contenders and 1 x 26' Bluefin. These powerful and safe boats will have you to the fishing areas in no time!

## TRAVEL PLAN AND COSTS:

## Fuel surcharge;

- With the volatile fuel prices lately we have to make our customers aware of our new policy. We base our fuel costs in our packages at \$ 4.00/gal. In the event of an increase in fuel costs over \$ 4.00/gal we will notify you via email two weeks prior to your trip of any additional cost. Our centre console boats use approximately 100 gallons of fuel per day. We are sorry to have to implement this surcharge, but is the only way to keep the lodge running with top quality boats, gear and staff.
