### TRAVEL ADVICE

Don't forget your 'jabs', visit your GP at least 3 months in advance to gain the best advice for your trip.

### DON'T FORGET

You will be in one of the planets most breath-taking environments, the Amazon. Whilst fishing is the priority, take some time out to capture the incredible 'flora & fauna' of the region. Make sure you have a good camera and plenty of SD storage for your trip.

### YOUR HEALTH & WELFARE

Keeping you safe during your trip is of paramount importance and there are some real fundamentals you should be aware of:

- You may be fishing from a boat for up to 10 hrs a day, often with limited shade, so a high factor sunblock (SPF50) is advisable.
- Don't forget lip protection.
- SPF50 fingerless gloves should also be considered as the backs of your hands will be one of the most exposed parts of your body whilst out fishing. Trip specific advice on clothing and kit will be provided following your booking.
- Keeping hydrated is also imperative so make sure you drink plenty of water when out fishing. Our boats are always provided with good supplies, so take advantage.
- Whilst your trip will be 'hosted' by one of our team, the support and guidance from our Amerindian partners is crucial. Please listen to them, they are there to keep you safe and out of harm's way, as well as help put you on 'the spot' for the fishing.
- If in doubt ASK!!
