### Headlines

So many existing and new client's asking for us to confirm dates, but as you can imagine it's a little difficult currently, what with the rapidly changing worldwide restrictions. What we do know is that we are off to **Brazil** (Headwaters) in a couple of weeks and all is looking good for that with a possible return in early 2021. **Colombia** is also looking positive with places available on the mid-Feb trip and availability for Rio Caño Bocón also in Colombia. We have some tentative dates for **Bolivia**, with two trips around July/August, and Jaguar Camp in **Guyana** is also looking good for March 2021. – Best advice is to keep watching our social media or get yourself onto our mailing list for the latest updates and confirmation of final dates. Thanks, Steve and the **Amazon-Angler.com** Team.
