Price \$600 USD

Product Description – American Government Super Pack

From the fight to abolish slavery in the 1800s to the efforts to stop segregation in the 1900s, this program chronicles the civil rights movement in America. Students will learn about the courageous leaders of the Abolitionist Movement like William Lloyd Garrison and Harriet Tubman who risked their lives to help enslaved people to freedom. The students will come to understand the importance of the Supreme Court decision in the case of Plessy vs. Ferguson and the effects of the "separate but equal" doctrine. Students will learn about the formation of the NAACP and the important court battles over integrating schools.

Children will realize the dangers that many African American children overcame for a better education. Viewers will come to understand how the protests led by civil rights activists such as Martin Luther King and Rosa Parks battled discrimination and helped people throughout the United States gain equal treatment in restaurants, trains and buses. The major events of the civil rights movement will come alive for students. They will learn how people, working together in a non-violent way, can change unfair laws and make America a better place for everyone to live.

Product Description –

Families in The Wild Complete Series

Families in the Wild-Monkeys

Families in the Wild presents programs from award-winning filmmakers who capture the amazing intricacies of wild animal family life. The stories of these animal families are filled with adventure, joy and the constant fear of the 'dangers in the wild'. They are stories that remind us of the incredible wonders of the world and our place in it.

Families in the Wild-Hyenas

Watch Families In the Wild: Hyenas to find out whom. Find out, too, who rules the hyena clan. It s not who you d expect. Hyenas are intelligent animals that are full of surprises. Families In the Wild: Hyenas shares these surprises so that you ll understand these powerful animals.

Families in the Wild-Lions

Families In the Wild: Lions lets you watch from a distance (the same way the cubs do) as Kali kills a wildebeest for her cubs to devour. See how the cubs thank her for this delicious feast! Watching Kali, Tattoo and their cubs is an interesting way to learn about how lions grow up and survive in the wild. After watching Families In the Wild: Lions you'll know why your little kitten likes to pounce so much!

Families in the Wild-Zebras

Journey with Families in the Wild: Zebras as these beautiful animals migrate from Ngorongoro Crater in Tanzania over the Serengeti plains to the Masai Mara Reserve in Kenya. Along the way, the zebras encounter joy as foals are born and fear as lions and crocodiles threaten to attack. As you travel with Root in Families in the Wild: Zebras, you ll root for the young female zebra as she crosses the Mara River and is ambushed by a hungry crocodile. Marvel at the father zebra s dedication to his family. And smile as you watch the newborn foal try his wobbly legs for the first time. As you do, you'll learn all about Grant zebras...one stripe at a time.

Personal Growth & Health Products

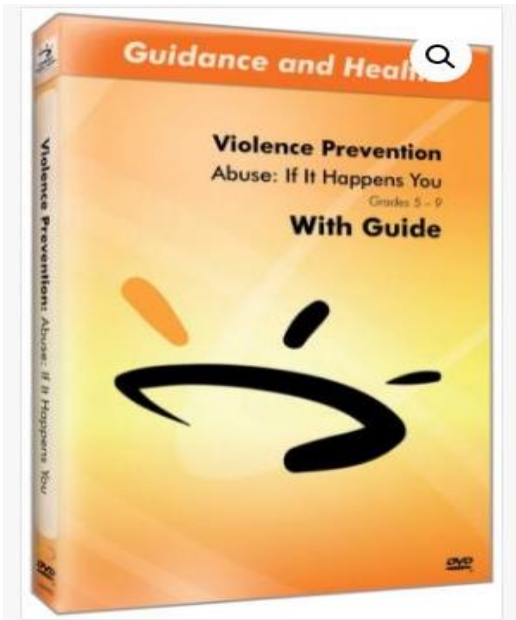

(Age Group - Kindergarten to 5th Grade)

Kindergarten to 5th Grade Education Programs & Price List

Written by award-winning instructors, each program in this series covers Health & Personal Growth well as detailed information about understanding how to take care of yourself and manage your life.

Health & Personal Growth Products

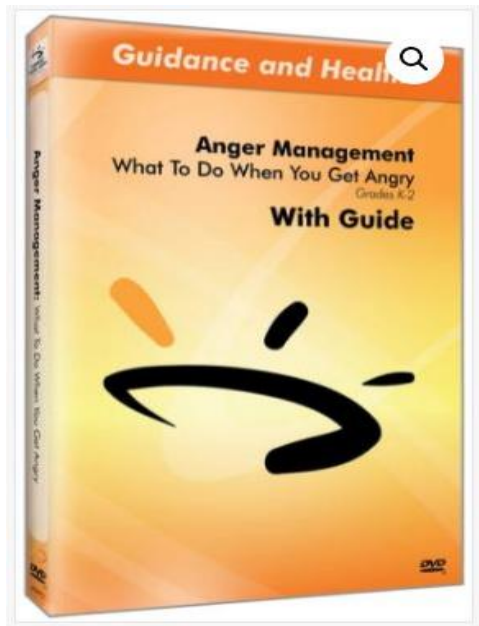

Product Description – Abuse: If it Happens to You

This program is designed to help young teens understand that abuse, of all types, is more common than they think and if it happens to them, they need to tell a trusted adult. It examines the different types of abuse that can occur: physical, emotional, and sexual, and helps young teens understand that the victim is never at fault and did not cause or deserve the abuse. One of the biggest reasons victims don't speak out is because they think no one will believe them. This program assures young people that while this can happen in some cases, the victim must continue to speak out until someone listens and takes what they say seriously. Use this program to educate your students and help them come forward if they have been abused.

Product Description –

Anger Management- What to Do When You Get Angry

This hands-on workshop in anger-management skills helps children get along better with friends, family, and authority figures. Teach students the difference between angry feelings and angry behavior, how to handle anger constructively, and how to deal with angry energy in safe, positive ways. Dramatizes situations close to student experience to demonstrate typical anger triggers and anger styles in children, offers specific techniques for dealing with anger: what triggers your anger; how to put space between your anger and what you do about it; positive self-talk; and how to use the energy of anger for a constructive outcome. Includes 15 reproducible student worksheets on CD.

SKU: 1003980

Price \$200 USD

Product Description –

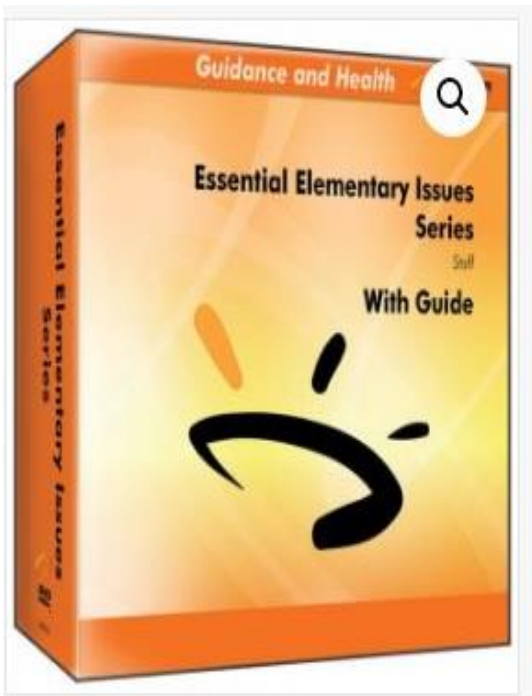

Conflict Resolution- We Can Work it Out

We Can Work It Out! is designed to help teachers introduce students to some simple techniques for resolving conflicts, and to raise awareness among students that they can avoid many situations which could cause them to become involved in conflicts.

The program features a video which presents short, realistic vignettes which depict children in various conflict situations. In each situation, the children learn the importance of verbalizing their feelings and trying to understand the other child's point of view; the result is always a nonviolent resolution of the conflict. Upbeat music accompanies the action, and an on-screen storyteller introduces each section and sums up the main points at the end.

Product Description – Social Strategies For Kids

The Social Strategies for Kids Module

The Social Strategies for Kids Module provides educators with all the tools they need to focus on and enhance the emerging social skills in students grades Pre-K through Grade 3.

Many children do not have an available repertoire of social and coping strategies. When faced with an upsetting or vulnerable situation, these students can easily turn to violence, anger or self-harm. Conversely, when students learn and develop positive social and coping skills, we provide them with alternatives that can help turn problem situations into positive outcomes.

5 AWARD-WINNING CHILDREN'S DVDS

This custom-developed content includes 5 entertaining and engaging children's DVD that utilize video modeling, informative narration and a "kid-friendly animation to teach children, grades K-3 important skills necessary for successful social interaction and emotional management. The award-winning DVD titles included in this module are:

- Marvel and Friends: Handling Transitions and Change
- Marvel and Friends: Sharing and Taking Turns
- Get Along Monsters: We All Get Mad Sometimes
- Get Along Monsters: 8 Ways to Handle Anger
- Get Along Monsters: 5 Ways to Work Things Out

COMPREHENSIVE TEACHER'S GUIDE

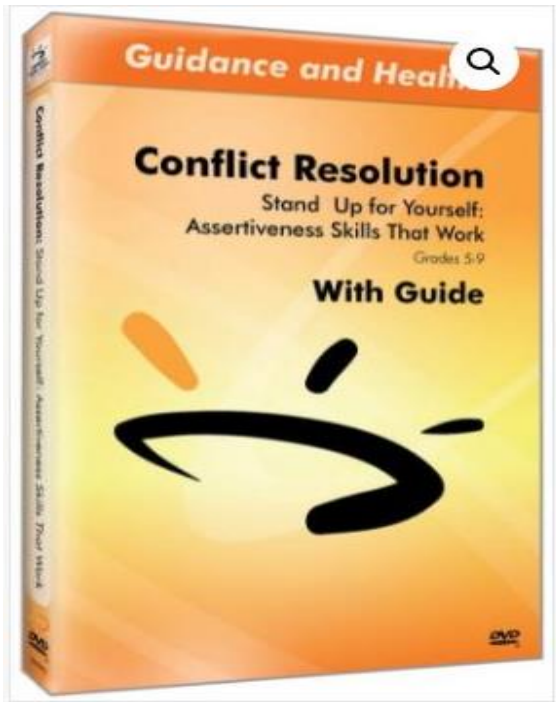

The module features an easy-to-use, all-inclusive teachers guide on CD. The teacher's guide is jam-packed with over 80 pages of:

- Individual and Group Activities
- Print Outs
- Worksheets
- Lesson Plans
- Materials for Further Research

The lesson plans and activities are geared toward elementary children but there are adaptations to some of the lesson plans for older children. Some activities are made to use with groups, and many are made to allow children to explore social concepts on their own. Materials for further research are also presented. They are not necessary to complete the lesson plans but are suggestions for further reading or exploration of a given topic.

Product Description –

Conflict Resolution- Stand Up for Yourself- Assertiveness Skills That Work

This program helps teens see that they don't have to have a good excuse, win an argument, or have anyone's permission to say no to something they don't want to do. It helps teens learn skills that will enable them to act in their own best interest and stand up for themselves. Pablo and Ian are camping out in Ian's back yard. Ian wavers then caves in when Pablo presses him to go down to the lake. In time, Ian discovers that by being firm but friendly, he can stand up for himself and do what he knows is right. Amy finds that when she persists in her desire to participate fully in their school project, Deanna stops bossing her around. Amy learns that standing up for herself also improves her self-esteem. Other vignettes show viewers that they can be successful being assertive without being aggressive.

Product Description – We All Make Mistakes

When children make mistakes, they often feel bad. Distinguishing between silly mistakes, mistakes that take time to fix, and mistakes that can't be fixed, this music-filled program explains that mistakes are a part of life. What counts, it tells kids, is what we do about our mistakes because making mistakes is how we learn. After viewing this program, students will realize that mistakes happen all the time, understand that a mistake can be a learning experience, and learn that through hard work and practice they can fix some mistakes.

Product Description –

Real World Science Complete Series

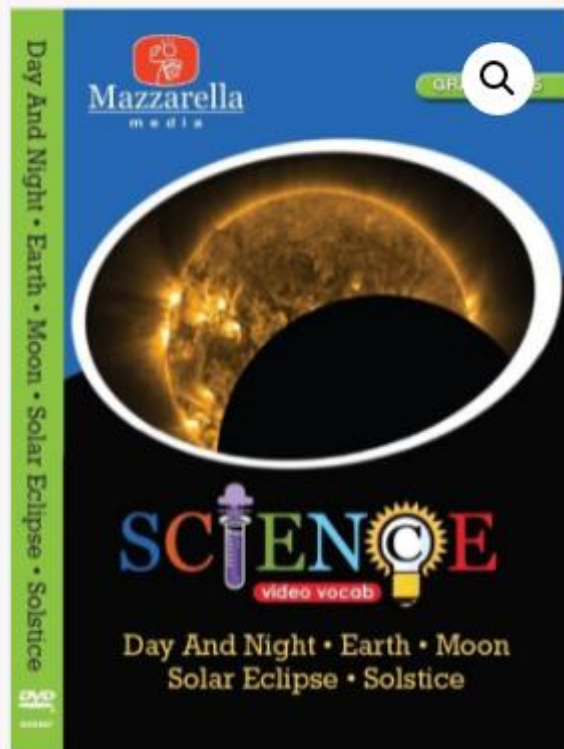

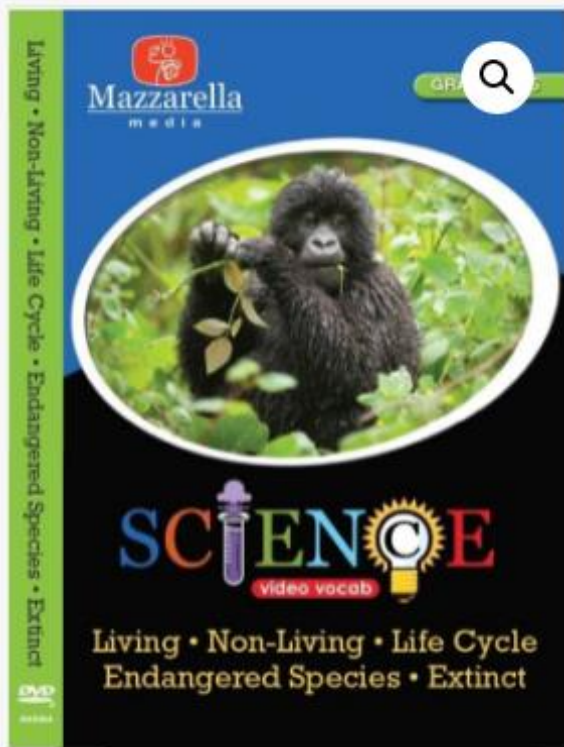

This program begins by explaining how scientists have learned everything they know by studying the earth and life through technology advancements. And so much more

Included in this Series

- The Science of Climate Change
- Weather
- Our Sun
- Climates and Seasons
- Earth's Landforms
- Ecosystems and Biomes
- Electricity
- Forces
- Fossils and Dinosaurs
- Habits
- Magnetism
- Solids, Liquids and Gases
- Our Solar System
- Rocks and Minerals
- Seeds and Plants
- Simple Machines
- Sound
- Trash and the Environment
- Skeletal and Muscular Systems
- All about Vaccines
- Animal Behavior
- Light
- Food Chain
- Circulatory and Respiratory Systems
- Biological Vectors and Infectious Diseases
- The Scientific Method
- Digestive and Excretory Systems
- Brain and Nervous Systems

Science Video Vocab- The Complete Series

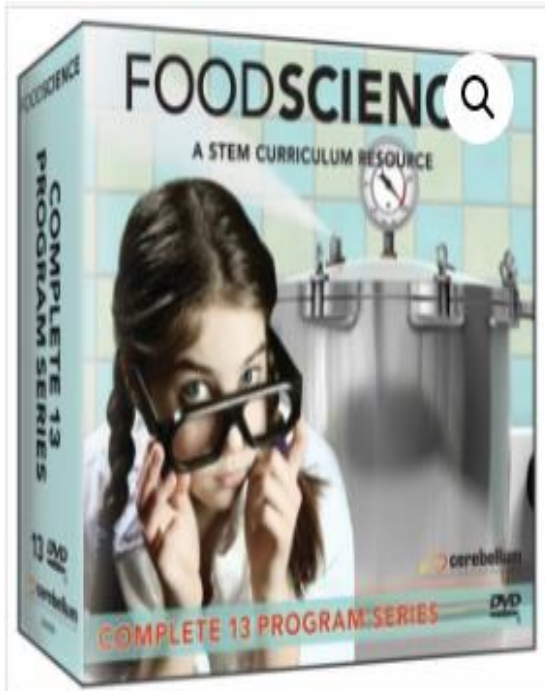

This dynamic, high definition elementary science DVD series defines and helps children explore many science subjects in details. And so much more

Included in this Series

- Living, Non-Living, Life Cycle, Endangered Species, Extinct
- Producer, consumer, Decomposer, Food Chain
- Amphibian, Fish, Reptile
- Energy, Kinetic Energy, Solar Energy, Potential Energy, Sound Energy, Wave
- Life Cycle, Water Cycle, Food Chain
- Omnivore, Herbivore, Carnivore, Food Chain
- Acceleration, Gravity, Force, Inertia, Motion, Position
- Vertebrae, Invertebrate, Mammal, Insect
- Hibernate, Migrate, Adaption, Instinct, Imprint
- Unbalanced Force, Balance, Balanced Force, Gravity, Force
- Asteroid, Comet, Meteor, Moon, Planet, Constellation
- Kingdom Fungi, Monera, Plantae, Protista, Animalia
- Caldera, Ngornogoro Crater, Pangaea, Volcano, Volcanism
- Eclipse, Equinox, Lunar Cycle, Lunar Eclipse, Revolution, Rotation
- Day and Night, Earth and Moon, Solar Eclipse, Solstice
- Mass, Newton, Pull, Push, Load, Friction
- Atmosphere, Precipitation, Weather, Cloud
- Environment, Climate, Soil, Air
- Forest, Grasslands, Marsh, Tropical Rainforest
- Flood, Volcano, Erosion, Landslide, Drought
- Universe, Galaxy, Black Holes, Solar System
- Change of State, Freeze, Liquid, State of Matter
- Fulcrum, Inclined Plane, Pulley, Screw, Simple Machine, Wedge, Wheel, Axle and Level
- Hurricane, Tornado, Tsunami, Greenhouse Effect

Product Description – Food Science

It's in the cereal you have for breakfast, in the pizza you have for lunch, in the soda you have for dinner. "It" is science, of course. Everything you eat is the result of a chemical process, either man-made or initiated by good old Mother Nature. In Food Science, you'll see where it's made, how it's made and what it does when it gets into your body. Award-winning chemist Dr. Joe Schwarcz guides viewers through the history, the culture and the science of the fuel of life. Viewers will gain a new respect for what is on the plate and will allow them to make smarter decisions in their daily diet.

This 13 program series tells the stories and unravels the science behind of our daily bread. The series explains what we're eating, how it's made, and even what effect different combinations of foods will have on our bodies. For example, who knew eating coleslaw and drinking orange juice with a smoke meat sandwich will negate some of the unhealthy properties of the meat? By showing how food is made, and what food is made of, viewers can gain a new respect for what is on the plate and will allow them to make smarter decisions about what include in their daily diet.
