

## PROFESSIONAL GRADE VEHICLE ELECTRONICS

Ultima Technologies offers premium grade vehicle electronics, built to meet the demands of the professional. Ultima Technologies relays are precision engineered and designed to double the OE life cycle.

### Robotic Perfect-Layer Winding On All Coils

For improved efficiency  
and consistency

### Premium Ferrous Core and Armature

For enhanced magnetic  
strength

### Ultra-Premium Internal Contact Material

For better conductivity  
and durability

### Diode-Protected Circuit

Helps prevent voltage flyback

**100% Copper Terminal Core**  
With OE-matching plating

### Features and Benefits

- Designed and tested to double (2x) OE life cycle
- Manufactured on fully automated production lines
- Meets or exceeds original OE design and materials
- Ensures OEM fit, form, and function for seamless installation
- Automated vision inspection and 100% end-of-line testing before shipment
