

Swain Eng and Associates L.L.C. (dba SEA Healthcare) is an Economically Disadvantaged Woman Owned Small Business and Maryland certified Minority Business Enterprise health services research and quality improvement consulting firm that specializes in value-based healthcare transformation.

WHY CHOOSE US?

- PROVEN TRACK RECORD OF DELIVERING HIGH-IMPACT RESEARCH AND QUALITY IMPROVEMENT PROJECTS
- EXPERTISE IN CUTTING-EDGE METHODOLOGIES AND TOOLS FOR HEALTH SERVICES RESEARCH AND QUALITY MEASUREMENT
- COMMITMENT TO PATIENT-CENTERED CARE AND EVIDENCE-BASED PRACTICES
- STRONG PARTNERSHIPS WITH FEDERAL AGENCIES, STATE HIES, MEDICAL SPECIALTY SOCIETIES, AND QUALITY IMPROVEMENT ORGANIZATIONS

CORE COMPETENCIES

Health Services Research

- Comprehensive evaluations of cost-effectiveness and quality for state and national programs
- Advanced survey methodologies, focus groups, and interview assessments for diverse patient populations
- Rigorous systematic reviews and evidence synthesis to support clinical guidelines, quality measures, and policy development

Quality Measure Development and Implementation

- Expertise in developing, testing, and validating eCQMs and dQMs
- Facilitation of stakeholder engagement, public evaluation, and finalization of quality measures.
- Provision of training and curriculum development for eCQM methodologies

Clinical Data Registry Development

- Strategic planning for the creation and maturation of clinical and patient data registries
- Business planning, vendor transition management, and sustainability evaluations
- Data standardization, mapping, interoperability assessments, and advanced analytics

Health IT and Interoperability

- Assessment and transformation of Health IT systems for registries, HIEs, and data warehouses
- Leadership in HL7 FHIR workgroups, including DaVinci, and Gravity projects

Patient Engagement

- Formation and management of stakeholder workgroups to ensure patient-centered quality improvement
- Incorporation of patient perspectives and lived experience into quality measures and improvement tools
- Collaboration with patient researchers, focus groups, and advocacy organizations
