ABOUT US

Vision Innovators: A Legacy of Experience in Construction

Vision Innovators was established with over 30 years of hands-on experience in the construction industry. Our expertise spans various roles, including sales, project management and planning, as well as job supervision in commercial, multifamily, and residential construction. We are dedicated to delivering professional services alongside quality and affordable products.

Our journey began in 1987 in Chicago and its surrounding areas, initially focusing on the flooring industry. We started with commercial and residential flooring and gradually expanded our offerings to include painting, drywall, carpentry, plumbing, and electrical services.

In 1997, we transitioned our business to the Atlanta market, where multifamily housing has seen significant growth. Recognizing the industry's evolving needs, we adopted the philosophy of "See the need, fill the void." This led us to create a solution to prevent overspray on fire sprinkler heads, doorknobs, and deadbolts during make-ready processes, resulting in the birth of the Multi-cap paint shield. Today, it stands as our top-selling product!

MISSION

A Cost-Effective Solution for Professionals in Property Management

We aim to offer professional contractors, property managers, and owners a solution to a significant financial challenge. A small investment can prevent a ****major expense!****

Understanding the high costs associated with replacing sprinkler heads (which can reach up to \$250 each), we developed an innovative solution: the ****reusable Multi-Cap paint shield****. This versatile shield is designed for fire sprinkler heads and can also cover deadbolts and doorknobs, resulting in substantial savings for property owners and painters alike.

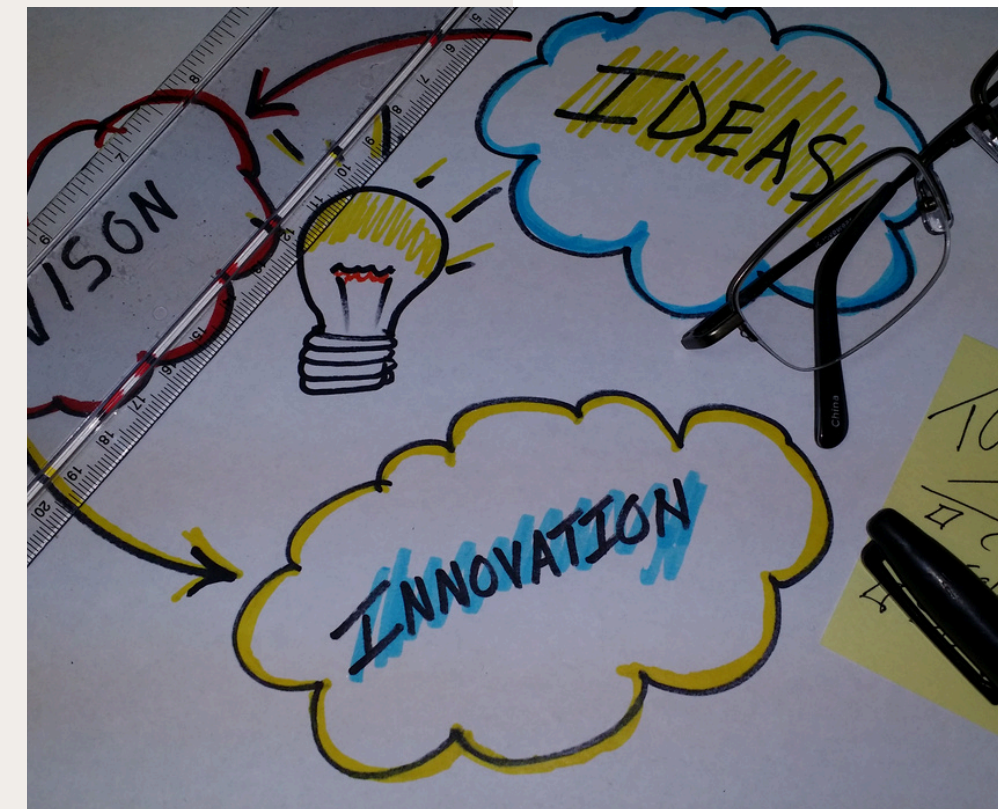

We have since expanded our product line to include:

- ****Paint shield adapter****
- ****Handrail shields****
- ****Baseboard shields****

VISION

Innovative Products

Seeing a vision and creating new Innovative ways is what we're all about. Seeing a need and filling that void, making your life easier and more money in your company's bottom line.

OUR BRAND

Introducing Our Multi-Cap: A Solution to Eliminate RED Flags from Fire Inspectors!

Following the success of the Multi-Cap, we are excited to unveil our line of Pro Paint Shields. This complete collection includes:

- The Multi-Cap
- Baseboards
- Handrails
- Paint Shield Adapter

Stay tuned, as we will soon be adding shields for receptacles and switch plates!

(Sherwin Williams item# 100523190)

Additional Products

**Baseboard Paint
Shield (2 per pack)**

Paint Shield Adapter 1

All products are proudly made and assembled in the U.S.A.

- Say goodbye to repainting baseboards and dealing with overspray on your floors. Our baseboard paint shields will take care of that. Each shield measures 8"×48" and only takes seconds to prepare a room.

Tired of going back to touch up finished ceilings? Our paint shield adapter will solve that problem. It easily adjusts from a 90° angle to any angle you require.
