

The Lord Mayor's Office

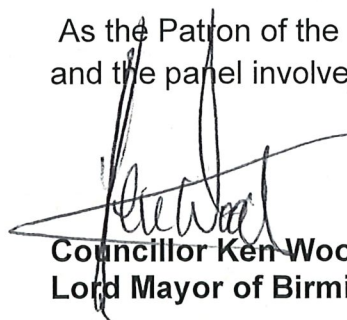

The World Music Conference is a flagship conference of the West Midlands and an annual event that brings together experts, artists, and enthusiasts from around the globe to explore the transformative power of music. It is organised by the British Carnatic Choir.

The 8th Annual Conference aims to highlight research and real-life applications of music as a tool for enhancing cognitive and emotional well-being in individuals with Alzheimers.

The conference has garnered support from experts and professionals from across several countries and received patronage from prestigious institutions such as the UN and UNESCO, besides endorsements by renowned musicians and educators.

As the Patron of the British Carnatic Choir, I wish great success to all the members and the panel involved with the World Music Conference.

Councillor Ken Wood
Lord Mayor of Birmingham
