## PRESS RELEASE

It is lead and established to believe Wikipedia users from what we have seen after receiving a disturbing phone call, allegedly with no honor or integrity deleted the Hip Hop Movement article and the term Six Elements of the Hip Hop Movement off its free encyclopedia. This unjustified act came and comes maliciously approx on the same day after Ron "Bee-Stinger" Savage made an appearance "with prejudice" in a film named "Zulu Nation The First Gay Family Of Hip Hop" speaking upon his past trauma, this interview was filmed years ago and the title of this film project then was called "Trapped In A Culture" and released now in 2021 which Ron "Be-Stinger" Savage or the registered service mark brand Hip Hop Movement had or have any part of the naming of this film to which he has shown disbelief in the disrespectful naming of the film.

Wikipedia in a whole of the removal of this article Hip Hop Movement and Ron "Bee-Stinger" Savage picture and mentioning the coining of the term Six Elements of the Hip Hop Movement which was in the lead article of Hip Hop and listed in the article Hip Hop Music for approx a solid 5 years with the same references, this article removing "on the same day of his part of the film appears on youtube speaking on his sexual abuse that he says happened and stands by is article vandalism and should be held as a hate crime, Wikipedia's alleged unprofessional handling of its users tarnishing of a piece of hip hop history allegedly targeting a sex abuse victim allegedly because of his role of appearing in this film that is based on the alleged individual allegedly responsible for Ronald Savage claims is an outrage and in our opinion doubts any legitimacy input by Wikipedia judgment on its users in this alleged bias act to try to erase Ronald Savage noble legacy involvement in hip hop culture, and a hip hop honorable shocking act of being able to register a piece of the name he coin six elements too as a service mark:

Hip Hop Movement is a historical term in hip hop that was never used in any official capacity as alleged payback for Ronald Savage on his worldwide part of the God Father Of Hip Hop accusations that Ronald Savage says happened at the age of 15 years old.
