Our Strengths

- Top Management from Core Industry
- One Decade of Strong Expertise
- Outstanding Scientific Management
- Global Profiles
- Highly Trained Team
- Cross Industry Expertise
- Exceptional Service Quality
- User Friendly Operations
- Networked with 20+ Brands, and Pioneered 200 Customized Solutions
- Exclusive Manufacturing Unit for Control Panels & Special Components
- Highly Competitive Costs

Benefits of Automation through IAS

- Increase in productivity and enhanced output
- Cost savings through minimized labour costs
- Time bound output
- Energy saving through optimized power usage
- Lower breakdown periods
- Assured quality and best product selection through multiple brands
- Lowest product procurement time dealing with multi - brands
- Lowest product/component costs
- Quick service turnaround-Round clock service
- Single partner for projects, services, deliveries, follow ups, support, warranty etc.

MKR Industrial Automation Services

With global industry growing leaps and bounds, automation technologies are in demand as never before considering their manifold advantages and benefits.

Automation of plants, machinery and operations has revolutionized the industry the world over, has accelerated to peaks over the last two decades. As one of our regional industry's strongest player in the sector, MKR Industrial Automation Services (IAS) has demonstrated absolute prowess and has been the ideal partner for our regional industry, having been in operations since 2012

With exceptional domain knowledge, premium skills and mastery experience in Industrial Automation, and catering to a wide range of Industries across India, IAS is now contemplating global frontiers, with opportunities in the Gulf, Europe, South America, Africa and the Far East.

To create and deliver exceptional products and services in every facet of Industrial Automation, using update technologies, hardware and software, and partnering with the most renowned international OEMs, as a multi brand system house, while using globally endorsed best business practices.

Our Mission

To be recognized as Indian industry's foremost multi-brand system house commanding strong global presence.

Vision

Our Philosophy

To offer the very best resources in the global Market, dealing with a wide range of bands, with quality as the Sole cornerstone, and at competitively challenging costs, while ensuring long lasting and foolproof system integrations, across industries and geographies.

Our Expertise

Automation: PLCs, HMIs, SCADA, DCS, Servo systems, AC/DC drives (VFDs), CNC system, PAC, wireless technology modems and modules etc.

Switchgear: AC/DC Motors, Soft starters, ACBs, MCCBs, MCBs, Contactors, Relays, Digital & Analog meters, Push buttons, Indicators or Lamps and intelligence MCC etc.

Control Components: Sensors, Relay Boards, Safety Relays, safety interlocks, Limit switches, Timers, Counters, Terminals, Signal Converters, Digital/Analog Indicators etc.

Instrumentation: Level, Flow, Temperature and Pressure related Transmitters, Sensors, Indicators, Control Valves, Gauges, Meters, and other related equipments and etc.

Our Services

- CNC, PLC, HMI, SCADA, DCS, Servo Systems and AC/DC Drive Programming & Commissioning
- Breakdown support | On Call Site Services
- Retrofitting and up gradations.
- AMC's, (Annual Maintenance & Contract Preventive Maintenance Services
- Site Audits, FAT (Factory Assistants Test) SAT (Site Assistant Test), Onsite/Offsite Training for Clients
- Machine Erection & Commissioning Jobs
- Exclusive Training for Engineering Institutions

Exclusive Manufactured Products

(On fully Automatic CNC Machines)

- MCC panels, PCC panels, PDB's & DB's
- PLC, VFD and other Automation Control
