 1. The range is obtained through inspection by China Automotive Research and Development Corporation (Tianjin) Co., Ltd. in accordance with the relevant testing standards of CLTC/WLTC;

 2. The 0-100km/h acceleration time is based on test data from Leapmotor Laboratory for reference. There may be slight differences in road conditions and environments;

 3. The actual range and acceleration ability of vehicles vary due to objective factors such as different environmental temperatures, driving conditions, driving habits and operations, and vehicle conditions;

 4. The charging time is measured by the Leapmotor laboratory under specific conditions according to relevant testing standards. The actual charging time varies due to factors such as charging power, ambient temperature, and vehicle status;

 5. The Leapmotor Pilot intelligent driving assistance system cannot completely replace the driver's control and cannot fully cope with all possible situations such as traffic, weather, and road conditions. The driver must always maintain the necessary duty of care and intervene or take over according to the surrounding environment in a timely manner. In complex traffic situations, adverse weather, special road conditions, etc., it is necessary to carefully choose and use it;

- 6. The optional price for the appearance color of Liuli Cui is 2000 yuan; The full set does not support individual optional items, and the optional price for the optional package is 10000 yuan;
 7. The discharge socket needs to be purchased from Leapmotor Mall;
 8. The organic silicon seat fabric is made by splicing the organic silicon seat fabric and leather material;
 9. The content of this directory is compiled based on the vehicle configuration status information at the time of writing. Due to some objective reasons, such as the continuous changes in laws and regulations, personal differences in understanding of relevant information, and the possibility of untimely updates in the introduction information, there may be certain differences between the physical vehicles and the directory content. The actual sales vehicles of the store should be taken as the basis;
