**FOR GRADES 2-8**

Growing capable, confident, and compassionate young people through academics, agriculture, animal care, and real-world learning experiences.

**TUESDAYS & WEDNESDAYS**

**9:30 AM – 1:30 PM**

# OUR WHY

## *Education Should Prepare Children for Life*

Children today spend more time indoors, on screens, and disconnected from meaningful responsibilities than ever before.

While traditional academics remain important, many parents are searching for something more.

They want their children to learn:

- ♥ Responsibility
- ♥ Confidence
- ♥ Work Ethic
- ♥ Leadership
- ♥ Communication
- ♥ Critical Thinking
- ♥ Compassion
- ♥ Practical Life Skills
- ♥ Independence
- ♥ Problem Solving

At The Learning Corral, we believe these qualities are developed through experience—not simply through textbooks.

Our students learn by doing. They care for animals. They work alongside peers. They solve problems. They complete meaningful tasks. They experience the satisfaction that comes from contributing to something larger than themselves.

# WHAT MAKES THE LEARNING CORRAL DIFFERENT?

Many enrichment programs focus only on academics.

At The Learning Corral, we believe education should develop the whole child.

## ACADEMIC GROWTH

Students receive support with:

- Mathematics • Reading • Writing
- Spelling • Grammar • Vocabulary
- Critical Thinking

Students bring the curriculum they are already using at home.

## CHARACTER DEVELOPMENT

We intentionally develop:

- Leadership • Responsibility • Independence
- Problem Solving • Teamwork • Communication
- Initiative • Accountability

## REAL WORLD LEARNING

Every lesson has practical application. Students don't simply read about agriculture, science, and stewardship. They experience it firsthand.

# LEARNING THROUGH EXPERIENCE

## ANIMAL CARE

Students may learn:

- Feeding routines • Water management
- Animal health observation • Grooming
- Safe animal handling • Basic husbandry practices

Animals may include:

- Horses • Chickens • Goats • Cows
- Sheep • Pigs • Other farm animals

## AGRICULTURE & GARDENING

Students may participate in:

- Planting gardens • Harvesting produce
- Soil preparation • Composting
- Irrigation basics • Seasonal crops
- Sustainable practices

## EQUINE EXPERIENCES

Students may explore:

- Horse care • Grooming • Tack identification
- Basic riding • Equine horsemanship
- Riding opportunities

# OUR MISSION & VISION

## *Our Mission*

The Learning Corral at Hayden Acres exists to provide children with hands-on, character-building educational experiences that foster independence, confidence, critical thinking, compassion, and practical life skills.

Through ranch life, animal care, agriculture, academics, and experiential learning, we help children develop the character and abilities needed to thrive both inside and outside the classroom.

## *Our Vision*

To raise a generation of capable, compassionate, hardworking, and self-sufficient young people who understand the value of:

Responsibility

Integrity

Stewardship

Leadership

Community

Service

## *Our Core Values*

### RESPONSIBILITY

Animals, gardens, and projects depend on our care.

### WORK ETHIC

Hard work is rewarding to be proud of.

### COMPASSION

Caring for living things and one another.

### CONFIDENCE

Challenges create strength accomplishments.

### INTEGRITY

Doing the right thing even when no one is watching.

### CURIOSITY

Encourages exploration and lifelong learning.

# A TYPICAL DAY AT THE LEARNING CORRAL
