About Us

Skyview Windows Manufacturing Inc (Skyview) is a window and door manufacturing-subsidiary of Skyreach Group Inc. (SGI) – established in 2004 to supply windows, doors and patio doors to serve customers in Canada and USA. SkyView is a one-stop solution for all fenestration products (including windows, patio doors and entry doors) for new construction and renovation sectors.

CUSTOMER FOCUS

We value all of our customers and appreciate the importance of being customer focussed.

CREATIVE

Our product design is created with ease of installation in mind so time can be optimized as well as overall comfort and affordability for the end user.

CERTIFIED QUALITY

Our patio doors are tested and certified by reputable building research authorities in Canada and US. Our suppliers are also carefully chosen and so we are able to have the utmost confidence in our patio door product offering.

Our Mission

To become a trusted supplier of patio doors by being consistent in our product quality, and creative in design and delivery.

Our Vision

To comply with tomorrow's market by offering our customers more today, better certifications and a better product design.

Our Corporate Focus

- Fostering long lasting partnerships
- Overall transparency, ethics and integrity
- Continuous creativity and product innovation
- Unique perspective in selecting supplier expertise
- Sharing ideas and valuing our employees

COLONIAL 1600 SERIES

Window System

The COLONIAL 1600 Series window system is created for renovations and replacement applications that demand the architectural style of wood windows. The Colonial exterior contour design of the frame gives the system a traditional look and feel of an artisan wood window. However, the inert vinyl material provides durability, longevity and virtually maintenance-free attributes. It is a perfect fenestration solution to dress up the front and back views of your home.

CONFIGURATIONS

COLONIAL 1600 SERIES Window System

FEATURES and BENEFITS

- 3-1/4" frame depth - ideal for renovation/replacement applications.
- Exterior contoured frame – architectural style of wood windows.
- 0.075" exterior wall thickness - outstanding strength, rigidity and thermal insulation.
- Designed to accommodate IG units from 7/8" to 1-3/8" thickness – suitable for double-, triple- and quadruple-pane IG units.
- Interior glazing.
- Frame and Sash profiles with multiple internal chambers - exceptional structural, thermal insulation and sound-reduction characteristics.
- Smart internal wall designs for better water drainage – protection against water leak.
- Triple weather seals, including double bulb seals to provide remarkable air- and water-tightness – excellent DP values.
- Designed for a variety of hardware options to provide flexibility to fabricators.
- All hardware screws are mounted through multiple profile walls - additional security and durability.
- Complete accessories and common parts available: brick mould, jamb extension, interior and exterior frame moulding, nailing fin, dry wall return, and many more.
- Available in Picture/Fixed Window, Casement, Awning, Bay Window, Bow Window and Special-Shape Window.
- Well complemented by the Classic 1000 Series and Hopper 4800 Series for complete window configurations, including Hung, Slider and Egress-Hopper Windows.
- Made with 100% Virgin PVC powder compound – formulated to surpass AAMA requirements.
- Available in solid white, beige, and clay.

HOPPER/AWNING 4800 SERIES Window System

The HOPPER/AWNING 4800 Series window system is designed, though not limited to, basement applications. This window system meets the ever-increasing demand for basement window egress requirements. The 4800 Series window system is available for both new construction and replacement/renovation applications. Its flexible design allows for different configurations, including: transom, casement, and high-end awning windows.

HOPPER/AWNING 4800 SERIES Window System

FEATURES and BENEFITS

- Hinged at top or bottom with traditional hopper hinges, or more opening options using friction hinges.
- Designed to eliminate centre hinge bar (awning) to meet egress requirements.
- Array of hinge mounting options.
- 3-1/4" frame depth.
- Integral nailing fin.
- Multi-chambered profile design for better R-value.
- Interior glazing.
- Designed to accommodate dual and triple IG unit from 7/8" to 1-3/8".
- Triple seal compression system for superior air and water tightness.
- High quality and durable gaskets that are engineered to retain their flexibility, and are easy to replace in the event of accidental damage.
- Suitable for basement applications and other regular window applications.
- Complemented by a full range of external and internal accessories.
- Made with 100% Virgin PVC powder compound – formulated to surpass AAMA requirements.

655 SERIES

HIGH THERMAL PERFORMANCE FLUSH GLAZE SYSTEM

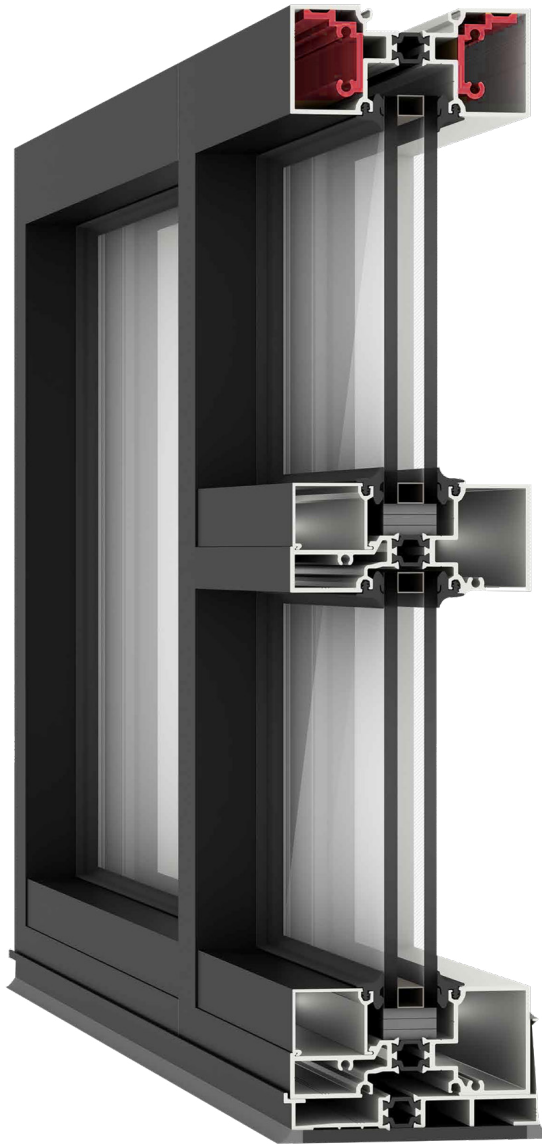

FEATURES

- High performance thermal break
- Integrated drainage
- Exterior glazed
- Accommodates 1", 1/2" & 1/4" glass infill
- 4 1/2"
- 2" system depth
- Dry glazing
- Compatible with a variety of Windspec doors and operable windows
- Available in anodized and painted finishes

PERFORMANCE

- U values as low as 0.30 (1" glazing)
- NAFS: Class CW-PG60
- A440- A3, C5, B7
- I-62 - Double glaze

BENEFITS

The 655 Series enhances the popular flush glazing system by increasing its thermal performance. By utilizing an advanced glass-reinforced nylon thermal break, the 655 Series raises our traditional flush glazing to a new standard. Its simplicity as a stick-build system is easy to assemble and install, allowing for increase job site efficiencies.

630 SERIES

PRE-ASSEMBLED SWING & SLIDE CENTERED GLASS FRAMING SYSTEM

FEATURES

- Interior lush glaze
- Non-thermally broken
- 1 3/4" x 4 1/2" profile
- Exterior or interior glazed
- 6mm, 10mm and 12mm glazing thickness
- Compatible with SkyView swing doors and sliding doors
- Optional Integrated top track

Optional Overlap Drywall Trim Kit

630 integrated with swing door

CROSS COMPATIBLE

ENGINEERED
FOR SUPERIOR
INSTALLATION
EFFICIENCY

630 integrated with slide door

5500

CURTAIN WALL

FEATURES

- 2-1/2" wide profile.
- Flexible PVC thermal break.
- Mullion depths available:
2-7/8", 3-5/8", 4", 5-1/4", 6-5/8", 8"
- Overall system depth is 2" deeper than mullion depths
- Capped glazing and SSG configurations available
- Pressure equalized internal drainage (capped mullions only)
- Multiple anchoring methods

COMPATABILITY

Compatible with all Windspec Swing Doors:

- HTP doors (high thermal performance)
- Standard commercial doors
- Exposed and Flush door adaptors available

Compatible with most Windspec operable windows:

- 535 projecting vents (Awning, Hopper, Casement)
- 575 frameless projecting vents (Awning, Casement)
- 720 side slider
- 740 single and double hung
- 3-1/4" louver system
- 2-1/4" bypass louver system
- **Optional integrated extruded trim system.**

5500 HTP

HIGH THERMAL PERFORMANCE CURTAIN WALL

FEATURES

- 2-1/2" wide profile
- Glass reinforced thermal break allows for exceptionally high thermal performance without affecting the structural integrity of the system.
- Mullion depths available: 2-7/8", 3-5/8", 4", 5-1/4", 6-5/8", 8", 10".
- Overall system depth to be 2-1/4" deeper than mullion depth for double glaze and 3" for triple glazed.
- Capped glazing and SSG configurations available.
- Pressure equalized internal drainage (applies to capped mullions only).
- Multiple anchoring methods available including 'F' and 'T' sleeve anchors.
- Available expansion horizontal mullion for multi-story installation.
- Optional integrated trim system.

BENEFITS

The 5500HTP curtain wall provides exceptional thermal performance that goes beyond current building codes.

As a stick building system, the ease of fabrication and installation make this an ideal choice for both small and large size projects.

COMPATABILITY
