Tax Filing Tips

- Consider using a credit card for all of your purchases and expenses so that you can have an easy record of your business deductions. However, you should also keep the backup documentation for the purchases.
- You must provide a W-2 or 1099 form to any person you pay more than \$600 to yearly.
- Keeping a mileage log of your business activities is essential.
- Have your taxes prepared early; avoid last minute filing.

BPTS, Inc. strives to make your tax filing experience pleasant and rewarding.

Providing prompt,
personable,
reasonable,
reliable, year-round
tax and financial
services, making
clients our first
priority.

Serving you for over 40 years.
