Hybrid – Watering & Mowing Guide

Transition Lawns • Greensboro, NC

Watering

- Hybrid blends (Fescue + Bermuda/Zoysia) need **balanced watering**.
- Follow cool-season schedule in spring/fall, warm-season habits in summer.
- On average: 1–1.25 inches/week split over 2–3 waterings.

Mowing

- Cool-season portions: 3–4" mow height.
- Warm-season portions: 1–2" mow height.
- Adjust mower height seasonally to favor dominant grass.

Extra Tips

- Expect patchy seasonal color shifts.
- Tailor fertilization to dominant grass type in each season.
