St. Augustine – Watering & Mowing Guide

Warm-Season Lawn • Greensboro, NC

Watering

- Requires **1–1.5 inches/week** to stay lush.
- Shallow roots mean it dries faster—supplement in hot weeks.
- Responds quickly to water; avoid overwatering which invites disease.

Mowing

- Maintain at **3.5–4"** for a thick carpet.
- Mow every 7–14 days depending on growth rate.
- Bag clippings if thatch becomes heavy.

Extra Tips

- Thrives in shade better than Bermuda or Zoysia.
- Very sensitive to cold—expect winter dormancy browning.
