Last Call K9 Rescue works with families who have dogs that have unwanted litters of puppies. When the puppies are weaned we bring them into the rescue, give them their shots, and get them spayed or neutered and ready for adoption. We make sure to get the mamma dog spayed so as to prevent future unwanted litters of puppies. In some cases we will get the daddy dog fixed as well. It is never our intent to make families get rid of their family pets, but rather to work on making sure no future unwanted pregnancies reoccur.

To that end, we have developed our "Foster to Adopt Puppy Program." When we adopt out a puppy that has not yet been spayed or neutered, the adopter will complete our Foster to Adopt Agreement, a Spay/Neuter Contract, complete our Adoption Contract and the pay the adoption fee in full. The puppy will remain the property of Last Call K9 Rescue until such time as the puppy is spayed or neutered.

We at Last Call K9 Rescue thank you for your consideration in adopting from us. We hope you join our rescue family.

Adoption donations for pets vary to cover the pets vetting. Donations are non-refundable and are used to help offset the costs of getting the pet ready for adoption. The adoption donation amount will be determined and agreed upon prior to ratifying your adoption contract. Your adoption donation goes to help rescue more dogs and provides medical care, spay and neuter for this [etc: pays for medical and boarding for many other abandoned dogs. Your new pet will be spayed/neutered, vet checked, micro-chipped, vaccinated for rabies (If old enough), and will receive parvo, distemper shots before he/she is adopted. Our dogs are rescued from shelters, and are placed in foster homes prior to adoption so we can work with their house training and get to know their personalities. We reserve the right to refuse adoption to any applicant for any reason. This questionnaire becomes part of the contract. Initial _____

Please give adopting serious consideration. It is very hard on a pet to go to a home and then be returned. It is also costly for our rescue, losing other possible adopters and incurring extra expenses that could be used to rescue another animal in need.
