SOLUTIONS

---

## Data/ Software Engineer (37664)

WASHINGTON, DC.

DataHaven Solutions is looking for a talented Data/ Software Engineer to design, develop and implement complicated and difficult software capabilities for computer based systems. Candidate must have a strong working knowledge and experience developing cloud software based capabilities. Candidate should have an inquisitive nature, responsiveness, and excellent testing skills. Must also possess strong troubleshooting skills and the ability to work under pressure with multiple deadlines. Will work in a fast paced, small business environment with our talented team.

### Security Clearance:

A current Secret U.S. Government security clearance is highly desired, but not required on day 1. Will be processed for a clearance if you don't have one and therefore must be a U.S. Citizen. Can hold TS and higher level clearances as well.

### Place of Performance:

Washington, DC.

### Required Skills:

- B.S. degree in Computer Science, Information Technology, Electrical Engineering, Statistics, or equivalent fields. Educational requirements may be adjusted for applicable work experience. Work experience may be adjusted for highly specialized knowledge or uniquely applicable experience.
- 5+ years of experience as a developer, analyst, or engineer.
- Experience with programming languages such as Python and Java.
- Proficiency with acquisition and understanding of network data and the associated metadata.
- Fluency with data extraction, translation, and loading including data prep and labeling to enable data analytics.
- Experience with data flow, management, and storage solutions (i.e. Kafka, NiFi, and AWS S3 and SQS solutions).
- Familiarity with various log formats such as JSON, XML, and others.
- Ability to decompose technical problems and troubleshoot system and dataflow issues.

### Desired Skills:

- Experience with NOSQL databases such as Accumulo desired
- Prior Experience supporting cyber and/or network security operations within a large enterprise, as either an analyst, engineer, architect, or developer.
- Experience with Kibana and Elasticsearch.

### Telework:

- Limited

**COVID Notice:**

- A new Federal Executive Order requires that employees of Federal contractors and subcontractors be fully vaccinated for COVID-19. Accordingly, as a condition of employment with DataHaven Solutions, employees will be required to provide proof of full vaccination against COVID-19 or have an approved exemption prior to starting employment.
