

A LAND OF THE LOST STORY: HOMECOMING

Any similarities between people living, dead, or to be born at some future date is coincidental.

The names of actual dinosaurs, Sleestack, or Pakuni are used only to avoid confusion; no endorsement as to who our favorite is, is implied. NO red crystals were kept near yellow ones while writing this story.

I would like to extend heartfelt thanks to all my fellow LotL fans out there. Because of them, I felt it was my duty to get them all home.
