## **ADAM Questionnaire for Men**

If you have concerns about "Andropause" or that your testosterone levels may be low, this set of ten simple questions is a good place to start.

## Check YES or NO for each of the following questions:

1.	Do you have a decrease in libido (sex drive)?	☐ Yes	□ No
2.	Do you have a lack of energy?	☐ Yes	□ No
3.	Do you have a decrease in strength and/or endurance?	☐ Yes	□ No
4.	Have you lost height?	☐ Yes	□ No
5.	Have you noticed a decreased "enjoyment of life?"	☐ Yes	□ No
6.	Are you sad and/or grumpy?	☐ Yes	□ No
<b>7.</b>	Are your erections less strong?	☐ Yes	□ No
8.	Have you noticed a recent deterioration in your ability to play sports?	☐ Yes	□ No
9.	Are you falling asleep after dinner?	☐ Yes	□ No
10.	Has there been a recent deterioration in your work performance?	☐ Yes	□ No

If you answered YES to questions 1 or 7 or any 3 other questions, you may be experiencing androgen deficiency (low testosterone levels) and follow up testing may be useful.
