2003

Mamidoil Kosovo is a Fuel Supply Petroleum Company established in 2003. We own the largest Tank Farm in Fushe, Kosove, Kosovo and are committed to Superior Service and Superior Quality Petroleum Products with European Union Specifications.

Mamidoil Kosovo belongs to the Group of Cetracore- Jetoil SA which is a petroleum company operating in Greece since March 2018, when Cetracore Energy GmbH acquired Jetoil, a Greek company which was established in 1968 and dominated the Greek petroleum market for decades being the first privately- held oil company in the country.

This is a rapidly changing world where technological advances are becoming more and more integrated into the fields of international business, industry and the economy. In this context, Cetracore- Jetoil Group aims at constant development, operational excellence and sustainable economic growth in Greece as well as in the Balkans (Albania, Bulgaria, North Macedonia, Kosovo and Serbia) via its wholesale, exports and retail operations offering high- quality products and services.

Cetracore- Jetoil operates gas stations throughout the country and oil storage facilities in Kalochori, Thessaloniki and in Kosovo, constantly seeking to strengthen the sector of energy.
