2019

Powerpack LLC is a manufacturing company specialized in the production of high-quality polyethylene (PE) waste bags for the European Market. The company which is a joint venture between Powerpack nv (Belgium) and Scampa (Kosovo), began its operations in September 2019, utilizing production capacities of over 2,000 tons annually. Powerpack LLC produces a range of waste bag articles, both printed and unprinted, in the bottom-seal, drawstring and s-cut group. At present, the company employs 37 employees, out of which over 51% are female, the majority of them being from the Drenas region, where the company is located. Powerpack LLC is a proud exporter, with 100% of its production going to the EU market.
