

ELECTION PROTECTION 2026

If our vote isn't important, they sure are trying hard to take it away. The federal government is ramping up efforts to override a free & fair mid term election, using federal power to **DECEIVE** Americans, **DISRUPT** our elections and **DENY** fair results. **We are not powerless!** Our most effective election protection strategy is overwhelming voter turnout and our ability to be ready for anything – this helps us to respond and makes the election
