CITY HALL ADDITION AND RENOVATION

A new look and modern working conditions that compliment New Police Building project design are the goals for the renovation of the City Hall. The effectual design of space and the proficient procurement of the contractors, materials, furniture, fixtures, and equipment will provide the City's staff with a current and functional atmosphere, as planned.

The first phase (Fire Department Remodel) is now complete. Project came in on schedule and under budget. The design of Phases 2 and 3 is underway.
