JR PHEASANT HUNT

The Southern Tulare County Sportsmen's Association (STCSA) Junior Pheasant Hunt is a special event designed for young hunters to experience the excitement of hunting while learning essential skills and values. This event emphasizes hunter education, safety, and the importance of camaraderie among participants.

During the Junior Pheasant Hunt, experienced instructors teach youth the fundamentals of hunter education, including firearm safety, proper handling techniques, and ethical hunting practices. The focus is on instilling a deep respect for wildlife and its habitats, ensuring that young hunters understand the significance of conservation and responsible stewardship of natural resources.

Participants are guided through a hands-on hunting experience where they can apply their new skills in a real-world setting. The event fosters a love for the outdoors, encouraging youth to appreciate the beauty and diversity of nature. Through teamwork and shared experiences, young hunters build lasting friendships and learn the value of working together.

Overall, the Junior Pheasant Hunt is more than just a hunting event; it's an opportunity to cultivate a lifelong passion for the outdoors, promote wildlife conservation, and develop a sense of responsibility and respect for the natural world.

Thank you for your time and consideration!

Sincerely,

Members of the Southern Tulare County Sportsmen's Association
