Warranty: Limited Lifetime Residential and Light Commercial

Mango Tile warrants its luxury vinyl flooring for defect in material and/ or workmanship that relate to the performance of the flooring in accordance with the terms and stated period of the warranty.

Uniclic locking integrity: Mango Tile warrants that the Uniclic locking system will not fail for the life of your floor under normal usage conditions. Light commercial is a prorated 10-year warranty.

Defects: Mango warrants that your luxury vinyl flooring will be free of manufacturing defects for the life of the floor.

Waterproof: Mango warrants that your luxury vinyl flooring will be 100% waterproof and the structural integrity of the floor will not be diminished with exposure to water.

Waterproof warranty applies to the LVT product and not to extend to damage of the subfloor. The warranty refers to topical moisture. It does not apply to moisture coming from below/ underneath the product. The warranty does not cover flooding or intentional damage or misuse.

Household stain resistance: Mango warrants your luxury vinyl flooring will not stain from common household products, excluding permanent markers, permanent dyes, and finishing stains.

Wear resistance: Mango warrants that your luxury vinyl flooring will resist wearing through the wear layer under normal household conditions.

Wear-through is defined as complete loss of the wear layer so that the printed pattern or design is altered. Gloss change is not considered wear and is not covered by this warranty. See maintenance guidelines listed below.

Fade proof: Mango Tile warrants that you with proper care and maintenance your vinyl floor will not fade from exposure to sunlight or artificial light.

Dent proof: Mango tile warrants the vinyl layer of the floor plank will not indent from normal use of the product. Indentation defined as a visual impression that be measured greater than 0.08" (2mm) from everyday household wear and drops of less than 72"

To protect your floor from scratch and dents walk-off mats must be placed at all exterior entrances. They should be large enough for contaminant removal. Replaced and cleaned on a weekly basis. Also, the feet of furniture must always be covered with appropriate material. Chairs, sofas or furniture with casters must be fitted with soft

rubber wheels and placed on an adequate protective mat or placed in protective caster cups. Chair feet must have suitable protective slides.

Pet safe: Mango warrants that your luxury vinyl flooring will resist stains from all domestic pets, including stains from vomit, urine, and feces.

Pet proof: Mango warrants that your luxury vinyl flooring will resist scratching and stains from all domestic pets,

In the event of a claim.

Owner must submit notice of all claims under these warranties to the retailer. Claims must be submitted in writing.

To qualify:

Original owner must provide proof of purchase and compliance with the recommended installation and maintenance procedures when the claim is filed.

Warranty is non-transferable and only applies to the original owner. The original owner is the person listed as the buyer on the purchase documents.

Prior to installations, material must be checked carefully for defects before and during installation.

Products with visual defects must not be installed under any circumstances. The dealer must be informed of any defects before installation.

Material must be installed in a continuous climate controlled interior environment.

Mango Tile will, at its option, repair or replace product not meeting the above listed warranties.

LUXURY VINYL CARE AND MAINTENANCE

Luxury vinyl flooring is a beautiful addition to any home. Durability and easy care are just two of the many attractive benefits of this flooring type.

A simple luxury vinyl care routine and maintenance is all you need to keep vinyl flooring looking like new for years to come.

One great advantage of vinyl flooring is that it's highly durable, so you don't need a complicated maintenance routine to keep your floors looking great. We have put together a list of simple luxury vinyl care steps that were gathered from all of our manufacturers.

SWEEP OR DRY MOP DAILY

Luxury vinyl is highly durable, but dirt and debris can scratch the surface like any other hard flooring. Over time, scratches can leave your floor looking dull.

Dry mop or sweep daily to prevent scratches and keep your floor looking its best. Make it a part of your daily routine, or invest in a robotic vacuum that will do the work for you. Just make sure that you choose a model that is designed for vinyl flooring and doesn't have a beater bar.

Taking a little time each day to mop or sweep will keep your floors looking like new and prevent dirt from scratching the surface.

USE A MICROFIBER MOP

Some types of mops and cleaning pads can be very abrasive. A Microfiber mop will attract any little bits of dust, pet hair, or dirt missed by dry mopping. We recommend avoiding using a traditional mop and bucket of water because it only spreads water around the floor without actually cleaning. While luxury vinyl is water-proof, it is not recommended to soak your floors.

Another thing you want to avoid is using a steam mop. While convenient and easy to use, steam mops can damage and warp vinyl floors.

Using a damp microfiber mop with the appropriate cleaner will keep your floors looking their best without damaging them. A great alternative to a store purchased cleaner is lukewarm water with a bit of mild soap.

CLEAN SPILLS AS SOON AS THEY HAPPEN

To keep any type of flooring looking like new, it's important to clean up spills right away to prevent staining or other damage.

NEVER DRAG FURNITURE

Moving heavy furniture can be a chore. It's tempting just to slide or drag the furniture around the room, but doing so can damage your vinyl flooring. Furniture pads are relatively inexpensive and can save you a floor repair in the future.

To protect your floors, lift the furniture up off the floor and move it. Alternatively, you can purchase furniture sliders that are made for vinyl flooring. Sliders make it easier to move heavy pieces of furniture without damaging your floors.

AVOID USING VACUUM WITH A BEATER BAR OR ABRASIVE CLEANERS

Dry mopping is the gentlest way to remove dirt and debris from your vinyl floors, but you may prefer to use a vacuum instead. Make sure that you're not using a vacuum with a beater bar.

Beater bars can damage the floor and scratch the surface, leaving it looking dull.

Also, when mopping your floor, make sure that you're not using abrasive cleaners or mop pads.

Never use bleach or ammonia on vinyl floors

USE FLOOR PROTECTORS ON ALL FURNITURE

If you have heavy furniture or appliances that you don't use often, make sure to use floor protectors to prevent damage.

Floor protectors should be:

- Flat
- Non-staining or marring

Use protecting mats under all office furniture, especially under the office chairs. Damages caused by the movement of the office chair or any other object, including wheelchairs, is not covered by the warranty.

USE MATS AT ENTRANCES AND EXITS

Quality floor mats can help prevent some dirt and mud getting into the house.

Mats collect and trap dirt, oil, grit, sand and other abrasive materials that can damage your vinyl flooring.

Place mats at every entrance and exit in your home to ensure that your floors are thoroughly protected.

REMOVE STAINS AND SPOTS CAREFULLY

Spills and stains happen. While it's best to clean them immediately, sometimes accidents happen, and you don't notice stains until they've set in.

Stains are commonly caused by: Mustard, Ketchup, Blood, Dyes, Foods, Juice, Grass, Pet accidents, Rust.

Removing stains and spots from vinyl needs to be done carefully. Always use a clean, light-colored cloth for spot removal and when using vinyl flooring products:

- Start by cleaning the area with an appropriate floor cleaner.
- Next, scrub the area with a non-abrasive white scrubbing pad.
- If removing spots from permanent marker, pen ink, hair dye or nail polish, treat the area with isopropyl alcohol.
- To remove rust, use cream of tartar.
- Finally, rinse with clean water, and buff dry with a clean cloth

Keeping your vinyl flooring looking its best is easier than you think.

Follow our luxury vinyl care tips and only use cleaning products that are designed for vinyl flooring.
