

How confident are you in a material supplier?

Use our free self-assessment to spot gaps in your supplier controls and help keep you safe.

Guiding you through change with clarity and care

We advise, assure and deliver on operational risk - for building societies and banks

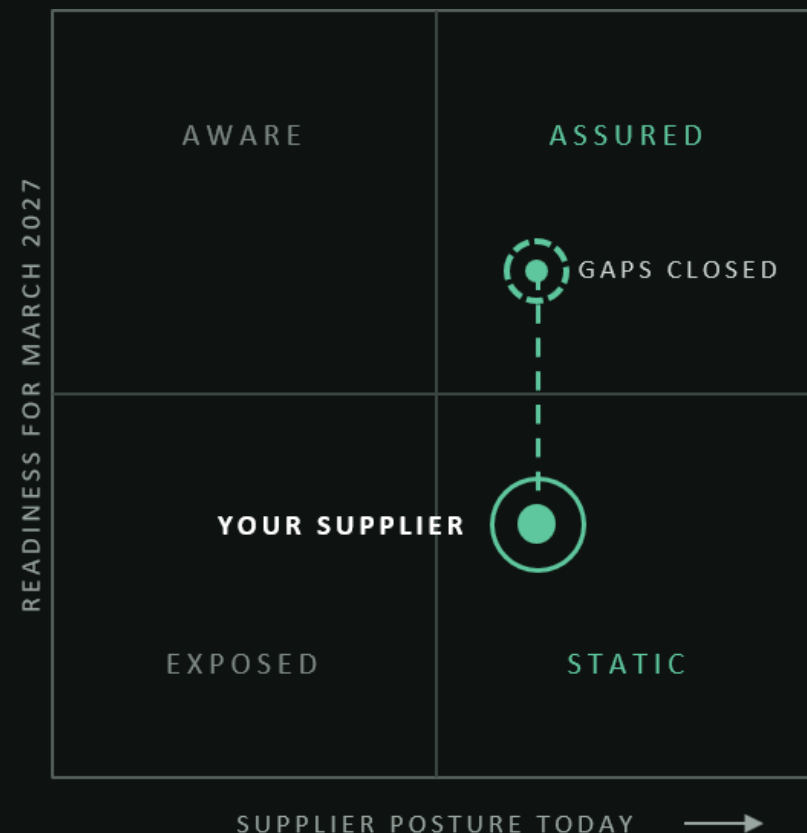

What will I get?

- Around 15 minutes for one material supplier
- A view on your current position and March 2027 readiness
- Three priority gaps and actions to close them

Example questions answered

- Can we evidence that this arrangement is classified correctly, to the standard the new register will expose?
- Do we know where the four designated critical third parties sit in this supplier's delivery chain?
- Would our exit plan work if this supplier stopped co-operating, not just if it left politely?
- Which of this supplier's renewals fall before 18 March 2027, and what has to change at each one?
- If this supplier had an incident at 02:00 on a Sunday, would we make our first report within 24 hours?

Values

- Do what is right
- Better our communities
- Bias for action
- Always human
- Embrace difference

What we believe

Our mission is to give every building society and smaller bank the senior expertise they need to navigate change, manage risk, and serve their members well, without the cost, complexity, or compromise that comes with working with a large firm.

Twenty per cent of our profits go back into the communities our clients serve (see examples: [Click](#))
