

## #3

### Prophetic Pentecost Pre-set Agenda

Do not become overly consumed by everyday occurrences in society. Surely, one's thoughts can become trapped in irrelevant distractions, unaware of what is hugely significant for one's personal future. An example is Lot's wife, looking back at the lifeless social practices of yesterday instead of focusing on the living and her family's future.

The point: become engaged in the Relocation Transitional Movement.

It is up to each of us to follow Jacob's principles. On his journey, he made an oath to the LORD: if the LORD provided food, clothing, and returned him safely to his father's house, he would give a tenth of his possessions, meaning his ten sons, to the LORD. This is a responsibility we all share in our spiritual growth by returning home with skills and economic knowledge to build the Commonwealth of Labor.

As a planetary proclamation, the LORD told Abraham that his descendants would be as numerous as the stars. Indeed, Jacob's sons became a blessing to the Gentiles in four social systems, as stated by Daniel. The Judeans always gave and allowed the Gentiles to do as they wished, whether in personal, social, or financial matters. The Gentiles have enjoyed a prosperous life.

Jacob's tithing blessings through his ten sons were never intended as an indefinite free-will gift. Consider that in the years of Jubilee, 2019 and 2020, the Gentiles' tithing blessings began to decline, though this was imperceptible to many. December 1, 2024, marks the beginning of the Fourth Generation. In this Fourth Generation, the exilic Israelites will return to their ancestral lands. Although much work must be done before the return, this does not imply that advance teams of the Executive Body of Israel in Exile are prohibited from traveling to Gaza, as this pertains to the central location for selecting personnel for planning the Reconstruction of Zion and Jerusalem, respectively, Judah and the Ten Tribes.

## Understanding and Instructions

### i.

In keeping with the stages of Jubilee, milk and honey are expected to manifest in 2026. This means that operational teams under the Executive Body of Israel in Exile will be based in Israel, working under Zion's Reconstruction Movement. In 2027, all monetary assets from various countries will be transferred to Israel, thereby forming its national treasure under the Abrahamic Covenant.

#### The Feast of Weeks Vs the Feast of Days

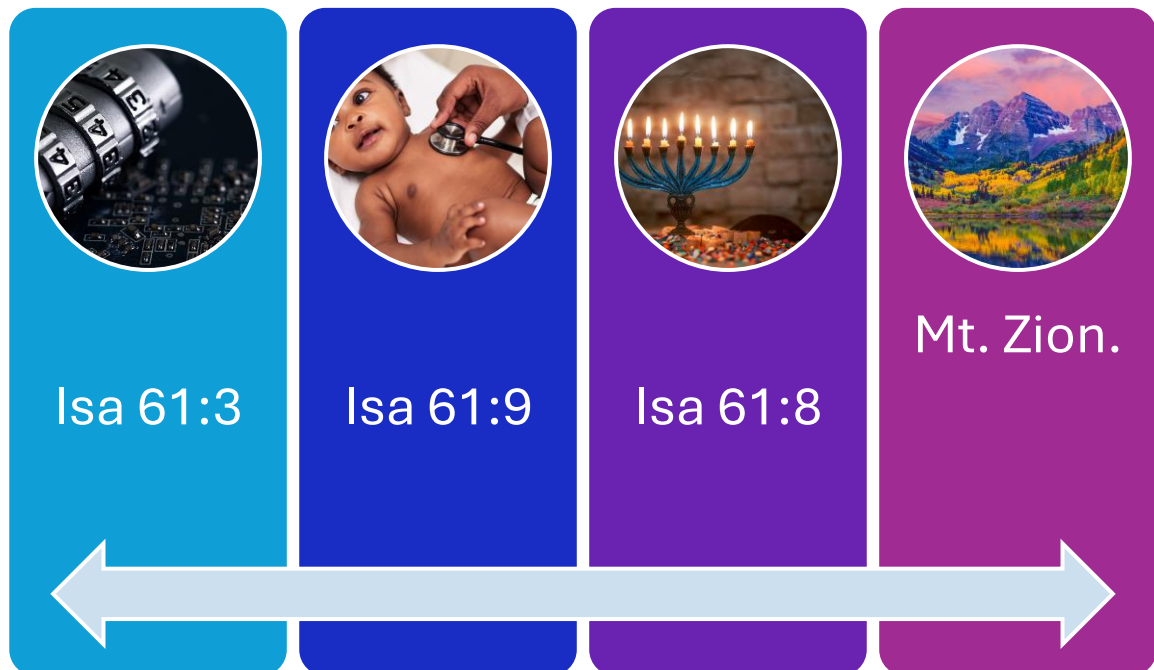

We have come a long way in the ceremonial observance of Shavuot, also known as Pentecost. On January 20, 2025, the LORD ratified the New Covenant involving Judah and the Ten Tribes of Israel. The Congregation of Israel stood in violation, breaching the Mount Sinai Covenant, which made it necessary to establish a New Covenant written in the heart and mind of each person.

Indeed, the New Covenant is a joyous internal theological constitution. Consequently, we have a newly formatted sequence of calendar dates to observe on the path to prophetic Pentecost, which falls on May 22, 2025.

We received May 9 as the starting date and May 22, 2025, as the ending date for the Feast Days. On May 9, the door will be closed for various processes because they have completed their prophetic course. Dialectically, one or more doors open to initiate new processes. In other words, prophetic cases are closed, signaling the start of creating new case files.

From May 9, each day unfolds, rolling along with momentum toward the 22nd. Events will continue to unfold according to the calendar days of May.

## Resource Agents

The exiled Israelites will return to their ancestral lands in the Fourth Generation. The years 2026 and 2027, in conjunction with the Jubilee cycles, will mark the years of return. The anticipation of this return, which is palpable in the air, fills our hearts with hope and excitement.

Despite the enormity of the task, the Executive Body of Israel in Exile is leaving no stone unturned in its meticulous planning for the return. With a comprehensive scope, we are selecting personnel and determining who will guide the reconstruction of Zion and Jerusalem. Once all preparations are complete, Judah and the Ten Tribes will return home in phases.

**We should be cautious; each operational layer must be designed to interlock and placed correctly for optimal economic performance.**

First step:

Document your occupation and work skills or create a resume. It is highly likely that many people have resumes, and if necessary, they should update them. This exercise is for you. Therefore, there is no need to share them with anyone during this exercise.

2<sup>nd</sup> step:

Identify the industry in which you work. While some people are familiar with their industries, others may not be, as they work in divisional or sub-industries. For instance, consider the extensive food industry. Do you work in the bread, cold cereal, or hot cereal division or sub-industry? Next, specify the company for which you work and describe what the company does as well as your role there. Perhaps you are involved in research and development.

3<sup>rd</sup> step:

In step three, it is necessary to take a step upward by assuming the role of an operational planner for the company. By using this assumption, you can attach yourself to the lines of production or a product produced by the company.

### 3# Prophetic Pentecost Pre-set Agenda

4<sup>th</sup> step:

Networking: Connect with others who might attend the Convocation workshops. The goal is to identify the best aspects of these companies and model them while discarding the less effective aspects.

5<sup>th</sup> step:

The idea is to bring all the company's department workers into the discussion for input. Or to put it another way, all operational steps must be accounted for, not necessarily inviting people to join the conversation.

The five-step exercise is designed to condition one's thought process. Fully recognizing that, for whatever reason, some people encounter no issues with the five-step investigation because many individuals possess perceptual knowledge of their workplace and are familiar with the company's operations. Even if one is not in manufacturing, if employed, write down what one does and what knowledge one can apply to the workplace in Israel.

More steps are forthcoming; for now, we aim to establish the basics to gain a complete understanding of the Israelites' Commonwealth of Labor.

Remember, it is now time for people to take an active role in planning the use of their skills, regardless of industry. Although we may not be building companies from the ground up entirely, we will need to start over in many instances to shape an economy under scientific socialism or the Commonwealth of Labor.

#### **Tools to use**

At this stage, it is advisable to utilize Google Workspace or Microsoft 365, as there will be a growing need for people to interact and share ideas.

## MENU

1. Cornbread.
2. Braised Cabbage with Eggs.
3. Mince lamb with small bites of beef and rice.
4. Baked sweet potatoes.
5. ¼ cup of Sauvignon Blanc white wine or Pinot Grigio.
