The Subversive Danite and his Coalition of Conspirators To stop the Transitional Movement's Announcer.

Introduction

The Danite, a reference to tribal Dan, holds a profound historical significance. Dan, who renounced his affiliation with the Children of Israel and became a Gentile, was prophesied to rule over the tribes of Israel. This prophecy, coupled with the unique split of tribal Dan into two parts, the Gentile Dan and the other part maintaining its organic affiliation with the rest of the tribes of Israel, is a testament to the intricate tapestry of biblical history.

Three thousand years ago, Joseph transplanted Dan, other tribal families, and tens of thousands of Egyptians in North America.

The Gentile Dan, with its diverse levels of operations, presents a challenge in understanding his influence. In this regard, Dan has the walking legs of the banking Jew, the legs of the Jesuits, the legs of Judaism, and the legs of Freemasonry, all contributing to its core competency in managing pre-destined global affairs. Such fascinating faces account for Dan's evolutionary development, a non-linear but evolutionary process that invokes the need for historical actors for a pre-defined role. Such is the reason for Dan being historically obscured

Dan primarily manages global affairs within Daniel's framework, as depicted in the Man Model Statue of the four Gentiles' social systems.

The Judahite describes Dan as belonging to a Coalition of Conspirators. While this description might suggest criminality, the Coalition of Conspirators, as it is known today, is an archetype of the Chaldeans during the reign of King Nebuchadnezzar and King Darius of the Medes. Criminality is best understood not according to a national government criminal code but instead to a) Nebuchadnezzar's Decree regarding total respect for Judah's religion, b) the heavenly Magistrate writing on the Wall in summary of facts, findings, and conclusions reflecting Nebuchadnezzar's Decree, c) King Darius' Decree follows the statutes of the Second Heaven, and Chaldeans case law established by Magistrate Daniel. Daniel, the earthly Magistrate, held court against the Chaldean King.

As used in the biblical context, the Chaldeans are an anti-Judah-God spiritual model that has come to represent the Danites. The earthly Magistrates judge the Chaldeans not according to a national government criminal code but instead by the model written by the Heavenly Magistrate. Daniel is one Earthly Magistrate among a few, i.e., Ezekiel.

Yes, the Chaldeans and the Danites are the same. Dan is well known to be a worshiper of idols. In retrospect, Chaldeans told the King that the three Judahites did not fall to worship his image, which led to them being thrown into the fiery furnace. This connection to biblical narratives brings the Danite tribe's history to life. Hence, the King's Decree against the Chaldeans was issued after the furnace fire could not consume the three plus one (Daniel). However, the fire consumed the Chaldeans as they made it seven times hotter to roast the three Judahites.

Once we understand the procedures involved in Daniel's death sentence to the lion's den, it becomes clear that Dan and Judah are mutual antagonists. Thus, Dan's ideological thrust is to control Judah and to manage the rest of the world. Yes, there is a difference between control and managing. Remember, the LORD selected Dan and Judah to construct the Tabernacle and gave them specific instructions for each division of labor.

So, Danite's Coalition of Conspirators works within Daniel's framework of the four Gentiles' social systems. For clarification, the Danites' criminality is not related to man's criminal justice system but rather in violation of the Mosaic Law. For example, Judah, the lion, jumped Samson to prevent Dan from breaking the Mosaic Law. The LORD gave Samson the strength to kill Judah.

The Danite's Coalition Conspirators Manage the World Under a Watchful Eye.

Over a thousand years, the Gentile Danites have played a significant and often underappreciated role in guiding civilization because they work in the shadows. Their contributions, frequently overlooked, have been instrumental in shaping the world we live in today.

Knowing about what caused the economic collapse of countless national economies throughout history, the circulation of capital, and the many issues in its conversion into liquid capital or currency, Dan's Coalition has plans to do a version of the Mark of the Beast. The Coalition does not hold to American exceptionalism, an illusionary belief that America cannot fail like many national governments. Yet, America's economic collapse is pending, so

Dan's Coalition has a timely implementation phase for rolling out Beast. The goal is to remove **private control** over banking and all monetary accounts and allocate a preset amount to private account holders in the interest of centralized power.

Dan's Coalition reacts to Daniel's 2:20 financial ratio because it is a built-in restriction for the three Gentiles' social systems. When Daniel and his three associates interpreted King Nebuchadnezzar's dream, the financial formula was given by divine decree. As such, the King and Babylonian Empire constituted the head of gold, expressing a financial ratio of 1 to 20.

Dan, an archetype Chaldean, and his Coalition of Conspirators have rebelled against the financial formula since the days of Daniel and his three executive managers.

- "Let us free ourselves from their rule," They say; "let us throw off their control." Psalm 2:3
- But his citizens hated him and sent a message after him, saying, we will not have this *man* to reign over us. Luke 19:14

Dan's Global Aim

The only obstacle in Dan's path is Zion, tribal Judah. Yet, the Danites' ambition is clear: to dominate the world financially by seizing control of all commercial gateways electronically for buying and selling. This is not just a goal but a relentless pursuit of financial control that he thinks would be a substitution for the next Gentile planetary social system. In a word, the Coalition wants to usher in the fifth Gentiles' social system. Delusional, the Gentiles have been assigned four social systems, not five.

Since Daniel introduced his financial module equation 2:20, a groundbreaking concept in the circulation of capital conversion, all industries have grappled with the significant challenge of maintaining a 2:20 currency equilibrium. This equilibrium, which refers to the ideal balance between hard assets and cash valuation, is crucial for companies. Those who fail to achieve this balance, reflected in their general ledger balance sheet, often resort to drastic measures such as liquidation sales, bankruptcy filings, mergers, or selling off parts of their business. Such underscores the precarious nature of business in our daily lives.

Most companies extend credit for thirty days. Some extend credit for ten, fifteen, and twenty days. Even so, many predatory companies put a hold on accounts payable beyond one hundred twenty days. Even governments put a hold on accounts payable for as long as they can. The bottom line is that companies want to be carried long enough for their accounts receivable. Consider the adage that different sizes of fish eat the lesser size, and the larger size eats all sizes. In the play, there is Daniel's financial 2:20 ratio.

The Judahite made a profound discovery while studying the works of the great economists of the twentieth century. Fundamentally, all economists omitted the consideration of built-in institutionalized rules of stealing and killing, which refers to the inherent inequalities and power dynamics in the foundational operations of capitalism and imperialism.

Once inside the business world, companies are compelled to adhere to the rules to survive and avoid being devoured by others—a stark reality of a 'dog-eat-dog' world. Accepting built-in stealing and killing as economic norms, devoid of moral considerations, is a sobering reflection of the business landscape.

The inherent flaw in abstract economic theories is the absence of a mandate for concrete, factual evidence. Over the years, western economic theories have led many to invest in a 'house of cards', a precarious and volatile structure built on the illusion of paper currency without tangible backing, such as gold or silver. The collapse of this structure is not a matter of 'if', but 'when'.

Angel Gabriel's lecture to Zachariah on the evils of stealing and lying is a stark reminder. The 'flying scroll', a potent symbol of divine justice, prophesies the fate of those who exploit institutionalized stealing to maintain a perpetual general ledger balance sheet in the black.

Even cities, states, and federal governments follow the same pathway as private companies.

Once Dan and his Coalition rolled out their electronic cashless system, they would have private control over banking and all removed monetary accounts. They could proclaim freedom from Daniel's financial 2:20 ratio.

- *Let us free ourselves from their rule," they say; "let us throw off their control."*

Psalms 2:3

Planetary Dan

You cannot comprehend how Gentile Dan and his Coalition Colleagues manage the world since you do not have a track record of managing civilizations over the past one thousand years using the technique of subversion, which is an assigned biblical methodology given to Dan, e.g., Samson and the lion, Daniel in the lion's den due to Chaldeans, etc.

Countless people come and go, one way or another, to advance the Danites' programmatic content objectives within Daniel's Man Model, which depicts the four Gentiles' social systems.

Making separation, those working for Dan and his Coalition have personal ambitions, which is good, but as Dan's agents, personal ambitions have never and will never determine Dan's objectives. Dan and his Coalition Colleagues have a library of programmed eventualities and prophetic templates, ensuring no personality will ever stop their implementation objectives.

What is the significance of the 2024 national elections?

In brief, the answer is found in the 2017 and 2024 solar eclipses, announcing divine judgment in America.

We live in a society where electronic platforms have dude people's mental state of cohesion. That said, the 2024 solar eclipse was just another moment of national excitement without the background meaning of national judgment. Biblical history shows that an X over a nation is an omen, a call for repentance to stop doing wickedness. Dan's Coalition understood the meaning and acted accordingly by speedily putting their programmed template in motion, which determined a Trump win to advance the Coalition's aims.

STOP! One must blot out personality as an agent of excitement. Do not get caught up in the media's platform to entertain by contrasting personalities. Nine times out of ten, the newscast is not about substantive hardcore news. It's crucial to see beyond the media's distractions and focus on the more profound implications of the 2024 elections, not on the winners and losers.

Remember, candidates spend millions of dollars on ads to portray themselves as the most qualified. Such a tradition is nothing special.

However, historical timing is always the fundamental subject, not personality. Exclusive to Dan and his colleagues of the Illuminati, and the same as do The Judahite and the Executive Body of Israel in Exile know that the progression of prophetic seasons always matches personality for prescribed historical tasks, and not personality to subordinate the objective requirements of social and religious movements.

Prophetic time opens interdimensional portals, enabling historical actors to do things they usually cannot do with their limited resources relative to others. Overall, the significance of the 2024 election in the context of biblical prophecy is the opening of prophetic time portals.

Fully grasping the urgency dictated by the prophetic timelines, Dan is acutely aware of the high stakes involved. The opposing camps (Dan vs. Judah) cannot afford to be

swayed by media caricatures, as they must act swiftly. Dan and his Coalition of Colleagues understand that a significant part of the cashless electronic financial system must be implemented by 2027, or they risk losing the opportunity to remove private control over banking and monetary accounts.

On the other hand, the Executive Body of Israel in Exile is grounded in two undeniable truths: Jeremiah's Seventy-year and Gaberiel's Seventy-Week prophecies. Secondly, the moon stood still for three hours between Biden and Trump on the 2020 election night and the 2024 solar eclipse. These heavenly signs are not to be taken lightly. In Exile, the Executive Body of Israel heeds the judgmental notices and understands their implications. In contrast, the Gentiles do not fully comprehend the significance when the heavenly courts speak celestially. The Bible teaches Israel and Judah how God communicates through heavenly bodies.

Unlike others, Judah takes these messages seriously and acts accordingly without hesitation, recognizing the situation's urgency. Men will always attempt to deceive each other according to their worldviews and interests. Regardless, Zion's Transitional Movement has the inside track on future events and ignores the Gentiles' self-serving plans.

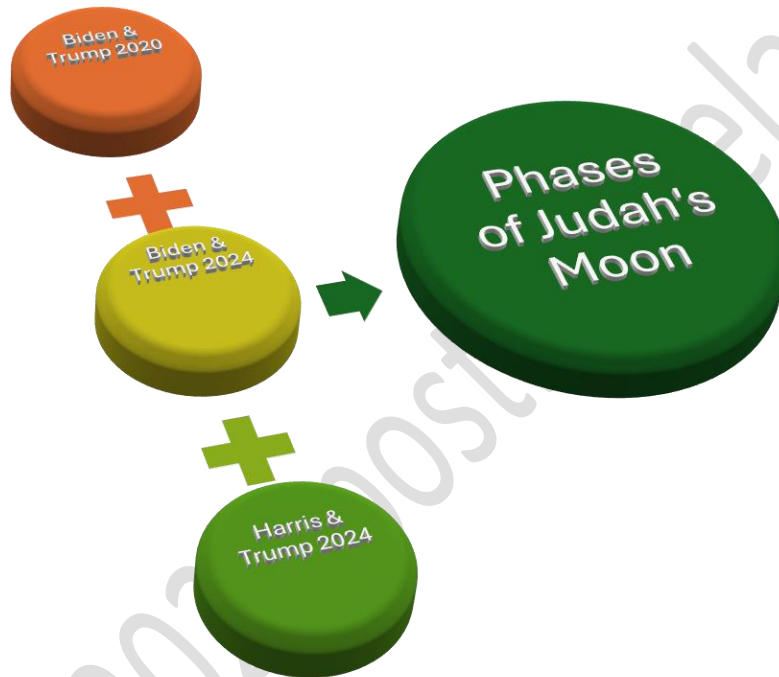

Remember, it's crucial to look beyond the personalities in the 2024 presidential race and be receptive to the hidden truths of the prophetic moment. The undeniable truth is that Dan and his Coalition of Colleagues are now under the weight of divine judgment, as indicated by the 2024 solar eclipse, a clear sign of the X over a nation.

Isaiah foretells Zion/Judah's protection against formulated plans to harm will not amount to anything in the latter days.

Isaiah 8:9-10

"Be broken, O peoples, and be shattered; And give ear, all remote places of the earth. Gird yourselves, yet be shattered; Gird yourselves, yet be shattered. Take counsel together, and it shall be defeated: speak a word, and it shall not be done because God is with us."

The 2024 National Election is more about
phases in Judah's prophetic Moon.

Amidst the sea of election commentaries, let's take a different approach and delve into the presidential race. Let's avoid the typical sports-like punditry and ads (good or bad) and explore the election from a prophetic perspective.

It's often said that real action occurs out of sight and behind the scenes. Consider this: Dan has been orchestrating the rise and fall of Earth's governments for the past one thousand years, guided by Daniel's Man Statute.

With a rich history of guiding individuals in and out of national governments across the globe, Dan's Coalition selects each personality with meticulous care for their historical task within a strategic aim. Once their task is complete, they fade away, leaving their mark on history. This long-term planning underscores the depth of their influence.

Dan's primary strategic programmatic plan is ushering in the Coalition's electronic cashless financial system, giving them total control over all financial transactions. Remember, the cashless system is automatic and does not need personality. Moreover, the U.S. Congress, as it is currently understood and operates, will disappear.

Despite their plans, Dan and his Coalition Colleagues know that the Stone Kingdom of Judah will inevitably take them down. This prophecy of their defeat underscores the power of the Stone Kingdom's victory without human hands.

- *You watched while a stone was cut out without hands, which struck the image on its feet of iron and clay and broke them in pieces. Daniel 2:34
Then the iron, the clay, the bronze, the silver, and the gold were crushed together and became like chaff from the summer threshing floors; the wind carried them away so that no trace of them was found. And the stone that struck the image became a great mountain and filled the whole earth. Daniel 2:35*

Once the Gentiles' national governments are out of the way, Judah's Stone Kingdom will evolve, not overnight, and cover the entire world.

The Moon's role on election night, November 5, 2020, is not to be overlooked. It stood still for three hours, a significant event purposefully connected to Harris. This connection is a key element in understanding the prophetic significance of the election results.

The spiritually guided Judahite deciphered the prophetic arrangement of three hours, three parties, and three-stage locations of the Moon's prophetic warfare narrative against the Amorites.

First, Joshua strategically commanded the Moon to stand still while he finished off the first stage of warfare with the Amorites. This strategic maneuver initiated the time clock warfare when The Judahite engaged in legal warfare against the financial camps in Africa, London, and France. The Moon's role in this prophetic narrative is not incidental but intricately strategic.

**The Moon appeared for a third time,
a significant event that carries weight in the War against the Amorites.**

On November 5, 2020, the night of the presidential election, The Judahite's keen observation of the Moon's stillness for three hours was crucial in deciphering the warring parties in the final stage of the War with the Amorites.

Notice how The Judahite is directly associated with the Moon per Joshua's coordinates, designating where the intensifying battles would occur between Judah and the new category of Amorites, including the Babylonians and the Chaldeans. Despite dissimilar time categories, the old and new Amorites share the antagonistic goal of preventing the exilic Israelites from taking possession of their divine territorial inheritance and prospering.

The three arrangements are always solid and concrete. Thus, The Judahite comprehended the profound significance of the prophetic biblical numeric three. This numeric three symbolized the concrete arranged realities, shedding light on the meanings of the Moon's phases in different locations and the influence of the three presidential candidates in one national election cycle.

Although the three presidential candidates are reference phases, the prophetic numeric three is at a different elevation level; thus, the prophetic three are Judah, the Danite Coalition, and the national elections, representing the mature episode of the Amorite's iniquity.

Again, the presidential candidates are secondary to Joshua's outlined strategy against the Amorites. For this reason, **it's crucial to** be very smart and avoid conversations about personalities while on a higher level of discussion. Remember, conversations about the presidential personalities are circular dead ends. Such topical talks are for the mass media's daily ration. Stay focused and clear-minded on the higher-level discussions.

**AGAIN,
The Judahite salutes Dan and his Coalition Colleagues for
managing and guiding civilizations through Daniel's Framework, depicting the
Four Gentiles Social Systems.**

As the Danites and their Coalition Colleagues come to terms with the reality, they realize that their sandcastle world is crumbling and collapsing. The inevitability of this collapse becomes more apparent concerning the mandates under the Fourth Generation Movement.

They have invested their faith in the products of their industries. No matter how advanced their technology or how sophisticated their society is, they will be found wanting when measured against the Son of God's divine plan for Judah's return to his promised land and construct the LORD's Tabernacle.

Judah's warfare with the Amorites and the Babylonians

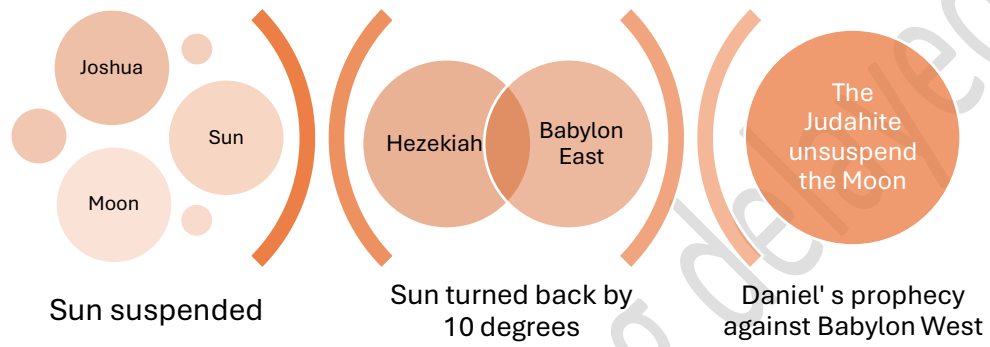

Joshua commanded the sun and moon to stand still for additional time to conclude the first major battle with the Amorites. Yet, the prophetic War would continue in different stages over thousands of years until the latter days within the Fourth and Final Gentiles' social system.

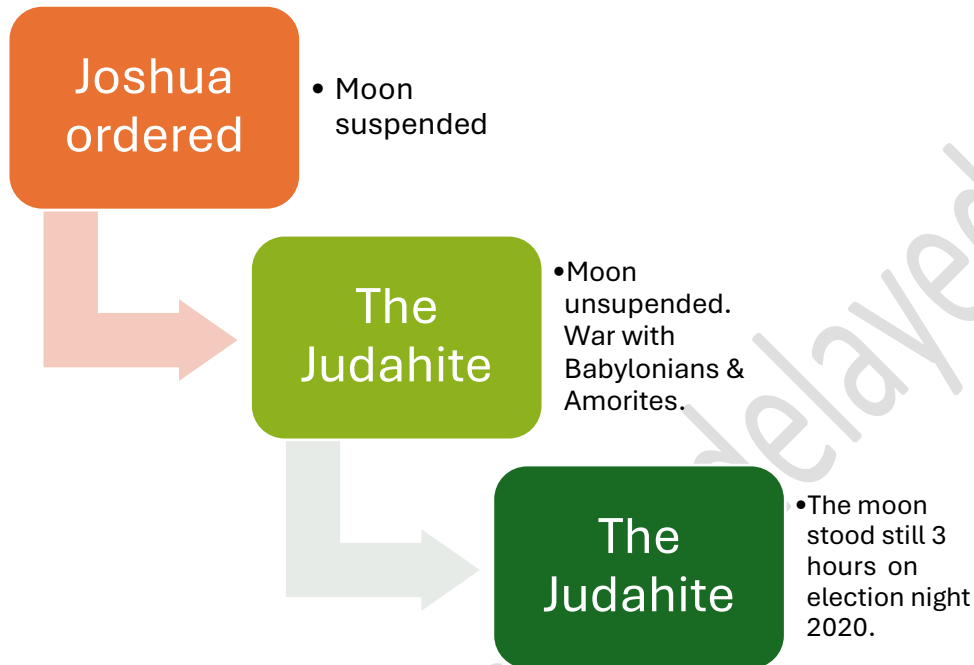

Joshua strategically placed the sun so that we could recognize the time of the Fourth and Final Gentiles' social system. He strategically placed the moon in the locations where the battles would be fought in the latter days and the contextual issues involving each battle.

Unsuspending Joshua's commands for the sun and moon to stand still.

**The sundial reset under Hezekiah
and the Moon would be reset thousands of years later.**

And he said, "What have they seen in your house?" So, Hezekiah answered, "They have seen all that *is* in my house; there is nothing among my treasures that I have not shown them."
'Behold, the days are coming when all that *is* in your house, and what your fathers have accumulated until this day, shall be carried to Babylon; nothing shall be left,' says the LORD. 2 Kings 20:17
Some of your own direct descendants will be taken away and made eunuchs to serve in the palace of the king of Babylonia." 2 Kings 20:18

**Post-2024 National Elections
Judgmental Signs Over the Nation
Fires and UFO Sightings.**

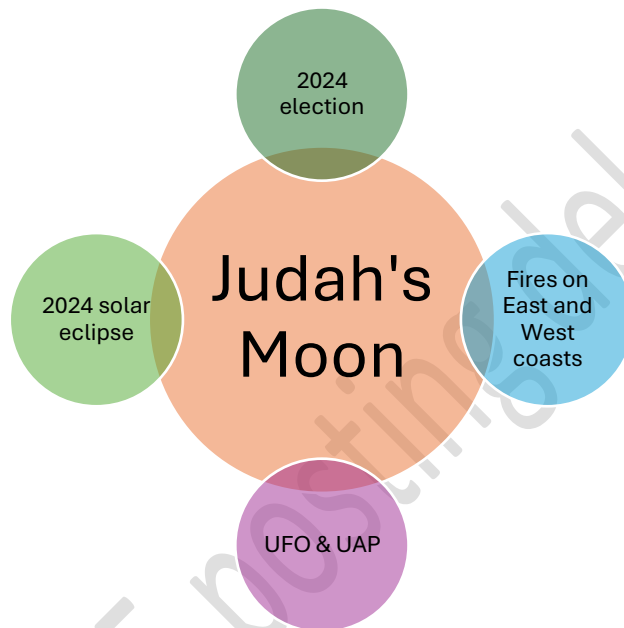

Fires

On November 6, 2024, the day after the national election, prophetic fires started in California, New Jersey, and New York. The fires occurred to reflect the solar eclipses of 2017 and 2024, from the West Coast to the East Coast, the parameters of national judgment. Unlike other fires, these fires have a divine signature affirming the prophetic hour and ongoing FIRES.

The Fires intersect with the national election as a precursor to the commencement of the Fourth Generation. During such time, the LORD will punish America to a degree of helplessness from which she will never recover, and then the Israelites would depart with great wealth. To avoid a misplaced interpretation of the FIRES, they are not a reaction to the

Election Results--NOT the primary focus, but a prophetic marker of TIME for the Fourth Generation per the Abrahamic Covenant.

Next, on November 7, the nation became enthralled with UFOs and Unidentified Aerial Phenomenon (UAP) over New Jersey as the center of focus, yet countless reports across the country and globe.

Notice that some UAPs are within the purview of the signature fires as a judgment upon the nation. On the other hand, do not associate man-made drones with signs of the heavenly host.

A False Flag

Going back to the late 1800s, the Illuminati had already hatched a fake alien invasion scenario, and President Reagan echoed the same theme in his United Nations speech.

Once again, The Judahite addresses the UFO topic with a restrictive interpretation, separating his views from others. The fascination with UFOs is the advanced anti-gravity technology associated with advanced extraterrestrial civilizations.

From historical tablets, the Anunnaki, an extraterrestrial race, has a place in Earth's planetary history, but not to the extent written in books. Such elevation of the Anunnaki as the Supreme Gods proves the misplacement of cosmic knowledge in the operational procedurals within the universe's planetary science. The Anunnaki is not on the same level as Yeshua.

In Genesis 6:4 & 5:

- *That the sons of God saw the daughters of men, that they were beautiful, and they took wives for themselves of all whom they chose.
And the LORD said, "My Spirit shall not strive with man forever, for he is indeed flesh; yet his days shall be one hundred and twenty years."*

The Sons of God, a term often misunderstood, holds profound significance about Adam's bloodline, not the Anunnaki. Understanding this distinction is crucial as it sheds light on the biblical narrative.

On the other hand, Anunnaki, or some other alien race, created giants in the land through various means, including intimacy. This cosmic knowledge of operational procedurals sheds light on why alien races not only created hybrids from Eve's DNA but also corrupted all life forms on Earth using advanced technology of gene splicing. The extraterrestrial races mix and match molecules within all living forms, leaving the Most High no option but to cleanse the Earth through the flood.

So, logically, the wives of Noah's sons transitioned with the Serpent's gene to the new world. Remember, the LORD blessed Noah and his three sons because they were of Adam's bloodline. On the other hand, Canaan was not of the bloodline of Adam because he was cursed. Noah clarified that the Serpent's descendant misguided Eve when he awoke and realized *"what his younger son had done unto him, and he said Cursed be Canaan."* No, nothing like that, as many have bought into the low level of two-dimensional deduction advanced by those Gentiles carrying the Serpent's genes are well known to think along the sexual lines.

For a correct perspective, the biblical depictions of Nephilim are rooted in the Serpent's gene implant into Eve when she ate from the Tree of Good and Evil. This significant event introduces **sin and corruption into the human bloodline**.

The fruit from this tree, a symbol of knowledge and temptation, unlocked Eve's double-helix DNA, allowing the Serpent to insert his genetic material. After the operation, Eve's double helix DNA was relocked, embedding the Serpent's genes within her own.

It's crucial to note that Eve's double helix was unlocked after eating the fruit and relocked in medical surgery. This key detail refutes intimacy, which many people have falsely promoted.

Adam's bloodline, the sons of God, enjoyed longevity for over a hundred years before they formed marital relationships with the Serpent's descendants as recorded biblically. Once the unions formed, man's thoughts were continuously evils; they followed every imagination of their heart toward realization, resulting in wickedness and worldwide madness. God said: "His days shall be one hundred and twenty years," referring to the Serpent's genetic life cycle disintegration. The life cycle's duration is tagged to all subsequent generations.

As a decree, the Serpent's descendants are predestined to crawl on their bellies and eat dust. The interpretation is that they would rise and stand as giants physically and in all their endeavors, only to fall, having bad luck—something always going wrong. Have you noticed throughout history and in the personal lives of people having a disproportionate share of misfortunes?

Although Earth is rich in natural resources, many people linked to the Serpent's genes cannot sustain enjoyment by using knowledge to form industries to maximize Earth's abundance.

Under the Edenic Judicial Decree, the distinction between Adam's bloodline and Serpent-Eve's is significant, even though Eve gives birth to both bloodlines, as exemplified in the case of Jacob and Esau, and holds profound theological implications.

It is a stark reality that the sons of God (Adam's descendants) will, in one form or another, form marital relationships with the Serpent's descendants. This narrative will persist until Judgment Day, as recorded in Matthew when the Son of God will separate the goats from the sheep.

There is a promise of hope under the New Covenant that God will make with Israel and Judah. The Serpent's genetic material will be removed, offering a future free from the burdens of the past. Praise God!

UFOs or UAPs

The Ten Tribes and Judah must hold on to the longstanding tradition about the Watchers in Daniel 4:23. This tradition is crucial as it enables us to draw the line and exclude aliens as currently known from the biblical narrative. The Watchers have been on Earth since Adam's creation, A fact that adds depth and intrigue to the biblical narrative.

Yet, we fully embrace the concept of the hosts of heaven, which implies all are under the jurisdictional authority of the Son of God. Take a cautionary approach; the Congregation of Israel's best use of time is studying biblical prophecies, the very essence of our faith, with the expectations of spiritual rewards, as detailed in Revelation.

There is no need to be concerned and distracted, as Archangel Michael is known and greatly feared throughout the universe.

Upon Noah's birth, his father, Lamech, went to his father, Methuselah, requesting him to go to Enoch to inquire if Noah was his son, as he was white as snow with blue eyes. Lamech thought Noah was cursed, belonging to the Serpent's bloodline. Enoch lived with the Watchers in the Crystal City at the "end of the earth"—Antarctica. Enoch assured Lamech of Noah's good standing with God. Additionally, Enoch revealed to Methuselah that all would die on Earth except for Noah and his family.

Again, the record shows that Anunnaki, a different group of beings who influenced the developmental stage of early human civilization, should not be confused with the Watcher class, a class of angelic beings mentioned in the Bible with a base location in Antarctica.

At the highest levels of government in Russia and America, the Watchers have demonstrated their advanced technology with the clear message that end-times prophecy will follow its pre-formatted, and no earthly government can do anything about preventing the Stone Kingdom.

After all, the Watchers have significantly contributed to advancing human sciences in achievements, as seen in military and commercial technological applications. Their influence is profound, and their capabilities far surpass those of man's military systems. Thus, the Watchers' presence is well known.

In the biblical context, military systems in advanced countries are insignificant to the end-time milestone related to Judah's statutory jurisdiction to manage the kingdom of Zion. We know with certainty that heaven will be shaken, and there will be great earthquakes, for many will pass away in that hour, followed by years of famine and diseases. The occurrences will happily happen a lot sooner than later.

The bottom line in the UFOs, drones, and UAPs sightings.

Drone, UFOs, and UAP sightings are programmed distractions to move people's attention away from the election and, in combination, a stratagem for an upcoming staged attack to blame aliens. For example, many have said that the drones were coming from an Iranian Mothership. As ridiculous as it sounds, many people believe the nonsense. But too, many

people are mentally unstable due to the many electronic devices in their ears and eye interface every hour of the day. While limiting the use of electronic devices might be inconvenient, prolonged exposure can lead to brain cell damage, making it harder for people to process significant national and global events.

Dan and his Coalition Colleagues orchestrated 2024 election outcomes.

While working, Raphael's spirit captured The Judahite's attention by illustrating how substitutional balloting worked in cyberspace. The advanced software that captured ballots and performed a programmed substitution remains a mystery to The Judahite and others, much like the sudden collapse of the World Trade Centers. Both events have sparked numerous theories and discussions.

Besides what the Angel gave The Judahite, there is no need for additional evidence to certify election fraud because mentally signing the Declaration below will be the ultimate certified evidence.

Why did Dan Change the Election Outcome?

- A.** The Judahite makes two historical conditional statements for the timely act.
 Dan and his auxiliary colleagues have moved civilizations for over a thousand years. Two hundred years ago, Dan and his Coalition Colleagues made visionary plans that include our current day. Throughout phases of history, Dan's Coalition selects people to implement their objectives to move civilizations in alignment with Daniel's outline regarding the four Gentiles' social systems. Revelation's Beast System is seen as Dan's financial and banking cashless system, integral to the fourth and last social system. Everyone must register with the Beast System to buy and sell. Without a registration ID, one cannot purchase bread or seek employment.
 Given the pending milestone moment, it is imperative not to put overdue weight on personalities because Dan, the Mastermind, is ready to roll out the Beast System to manage society in totality.
 Will he be successful? No! Still, Dan has his new team in place to move to the next level. The new team does not include many personalities in the public eye.
- B.** It's crucial to understand that Judah has a prophetic determined role in the latter days. According to Jeremiah, Judah-America and his scattered global tribal members will return to their Patriarchal Homeland.

With his extensive database knowledge, Dan knows how not to engage the Most High. Indeed, Dan has no plans to confront the heavenly host directly. Dan knows Judah has been predetermined victoriously. Therefore, Dan works through many corporate fronts and diverse agents for plausible deniability. Being under judgment, Dan is the snake on the side of the road who struck the heels of the Transitional Movement, announcing preparation to collect monetary and property assets due to Judah and the Israelites in the Fourth Generation.

With unwavering dedication, Dan and his Coalition Colleagues meticulously study prophecies for better-managing society with a depth of research that reassures us of their mission goals. They understand that the means always justify the end.

The graphic below shows the years that Dan was examining that led to his decision to orchestrate the election outcomes. The seven years revealed to Dan that time was running out to complete the electronic infrastructure to implement the Beast System described in Revelation. Dan coalition includes ten horns or ten kings.

The dragon and snake are similar in meaning. In application, Dan's emblem is a snake (treacherous and insidious designs aimed at Judah). Dan, the dragon, gives delegated authority to the Beast to advance the implementation of financial control over the USA. Dan has set a time for those who need to use his delegated authority before revoking it.

In hindsight, Dan and his Coalition strategically made plans to arrange a predetermined election outcome. They did not realize that December 2024 ended their long-range plans because December 1, 2024, commenced the Abrahamic Fourth Generation. However, their interpretation of Harris as the mobilization Horse Rider in the end times, a weighty insight, was indeed correct.

According to the Abrahamic Covenant, the conclusion of the seven years marked the advent of the Fourth Generation. This 'Fourth Generation' is a significant period in the timeline of the prophecy, representing a time of fulfillment and transition.

The Covenant, a divine pledge to Abraham, is pivotal in deciphering the timeline and implications regarding Dan's interpretation of unfurling events.

Dan, one of the ten horns symbolizing completeness, is a key player in this prophecy. His role is not just significant but a fascinating aspect of this prophecy. Dan's inner circle's unity with the executive branches of national governments is substantial. Similarly, Revelation 12:3 depicts a Red Dragon with seven heads and ten horns, symbolizing China. Dan, along with the Jesuits, steered China towards imperialism. Revelation 17:7-14 chronicles seven governments and heads of state.

The old Seven Horns and European national governments differ from the American Empire. Revelation 17:13 tells us what to look for during the American Empire: ten horns, heads of national government, will be unified in purpose. This unity is not just a detail but a crucial aspect of the prophecy, giving their jurisdictional powers to the Beast while in office to assist in the Beast's consolidation of power and authority over subsequent governments and heads of state.

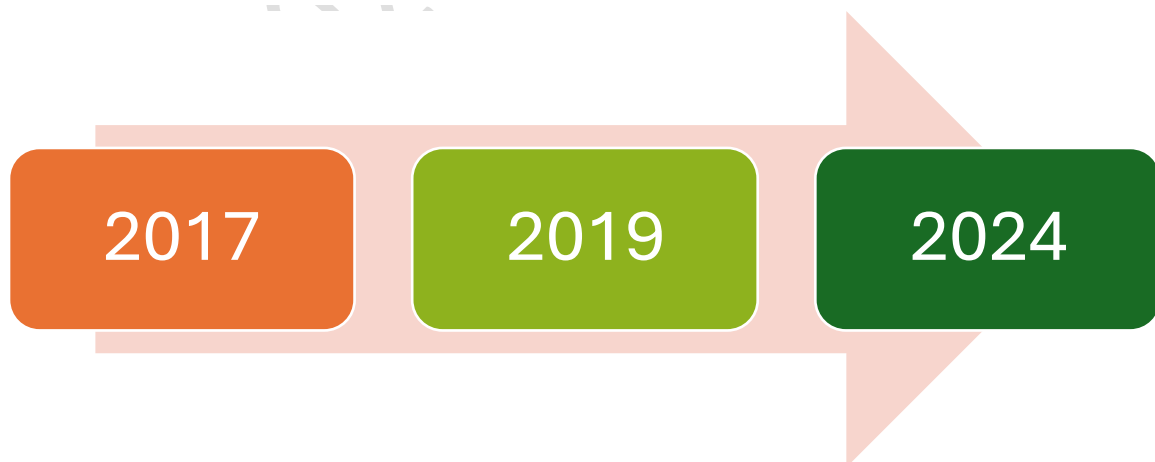

Over time, the ten national heads of state will hate the Beast, symbolizing a religious body. This hatred is not just a development but a significant and pivotal turning point in the prophecy. Moreover, the harlot, when used biblically, refers to a woman and conforms to the definition of a spiritual body.

- *And the ten horns which you saw on the beast, these will hate the harlot, make her desolate and naked, eat her flesh, and burn her with fire.*

As an Amorites category, Dan validated the Amorites' matured iniquity, a demarcation for the Rider to get up and continue to mobilize. With emphasis, Jacob tells us that God's salvation comes after the Rider's fall, not before. The 'Rider', a significant figure in the prophecy, symbolizes the forces of evil that must be overcome for God's salvation to be realized. Understanding the role of the 'Rider' helps us grasp the prophecy's timeline and sequence of events.

The Amorites, a biblical archetype known for idolatry and immorality, serve as a symbol of the moral decay that Dan has commercialized to his political advantage. This symbolism helps us understand the role of Dan in the prophecy and the profound ethical implications of his actions.

Seven Years

Jacob Fully Knew the Significance of Prophetic 2024

Dan shall be a serpent, by the way, an adder in the path, that bites the horse's heels, so that his rider shall fall backward.
Genesis 49:17

- Dan's Coalition is Treacherous and does Insidious things within Daniel's framework regarding the Gentiles' fourth and final social system.

Maintaining Traditional Functional Relations Between pairs of Tribal Nations within the Family of Jacob/Israel.

Naphtali has traditionally been an announcer for tribal Judah and the congregational assembly of Israel. Traditional pairs are Zebulun and Issachar, Judah and Dan, Simeon and Levite, and Ephraim and Manasseh.

Prophetic roles do not expect personalized favoritism, as in the case of Naphtali. As a criterion, Judah prophetically prescribes the social conditions of historical materialism that give rise to Naphtali announcements.

It is of utmost urgency that the Congregation of Israel comprehends Naphtali as the proclamation rider, emerging from historical conditions framed by tribal Judah since 1619. The Moon's three-hour stillness on election night 2020, an imposed historical condition, circumscribed Naphtali's task to become the mobilization rider. This event depicted the Transitional Movement's increased tempos in planning and preparing for the relocation of Judah and the Israelites, underscoring the need for immediate understanding and action.

Yes, Harris rides the momentum of the Fourth Generation per the Abrahamic Covenant, Soundwave Frequency 25 combined with Juneteenth, Judah's National Celebration Day. The dates 1865, June 2021, and 2024 depict Judah's cosmic butterfly having progressively evolved and now ready to make a clean break from the Gentile's last social system. The cosmic butterfly symbolizes Judah's imminent departure during the Fourth Generation, a change we eagerly anticipate.

Indeed, the Transitional Movement is about the exiles returning home; what is more, it is about the crucial shift of capital resources from the West to the Commonwealth of Labor among the twelve tribal nations of Israel. This shift will transform the Commonwealth of Labor into the new global operational center of capital resources, a change of utmost importance.

The Prophetic Rider traveled among the tribal nations to mobilize consciousness as a voting instrument, an instrumental obligation rooted in Isaiah 19:19.

The Prophetic Rider (Harris) fell backward due to the Snake's strike from the side of the road, hiding in weeds (watching everything). When the Snake struck the Horse's heel, the Rider fell backward. Prophetically, the Snake pronounced the end of the Voter Rights era that conformed to Isaiah 19:19, which is dedicated to the Ten Tribes and Judah to use the vote legislatively to regulate their degree of social oppression and economic exploitation.

- *It shall be for a sign and for a testimony to the Lord of hosts in the land of Egypt. For they shall cry to the Lord because of the oppressor, and he shall send them a Saviour and a defender to deliver them.*

In other words, the time has come to recognize that voting has outlived its usefulness as a prescribed instrument for relieving degrees of social oppression and economic exploitation among the Israelites. The need for a new governance model cannot be overstated. Judahtocracy is the new model.

As was foreknown, the voting system would be helpful during Judah's 400 years of jurisdictional restriction. Yet, in the Fourth Generation, the Ten Tribes and Judah will inevitably depart Egypt/America, signaling a shift in the governance paradigm. Judahtocracy rules. American-style democracy will disappear from the world.

In reaction to the pending change, some Gentiles are working on a technocratic monarchy to replace Judah. The electronic Beast system is the Coalition's vision to create a technocratic monarchy rule over society.

They are determined to remove Daniel's restrictive 2:20 financial ratio to fulfill Dan and his Coalition Colleagues' futuristic society. Being free of Daniel's financial restriction has been a long-awaited goal since Daniel's imposition under the Medes/Persian Empire. They were motivated to steal money earmarked for the Temple construction in Jerusalem, but Daniel stood in the way. They resorted to extreme measures to remove Daniel, putting him into the lion's den.

Jacob understood that even when Dan, the ruler over Israel, seemed to take away hope from the Proclamation Rider, Striking the Horse's heel (manipulating the election outcome) and causing the Rider to fall backward. It is not a temporary delay, but the transformative power of the collective will, symbolized by the LORD with supernatural power, will make the necessary adjustment to put the Rider back on the mobilization Horse, instilling a sense of optimism within the Transitional Movement.

Following the inspiring Transitional Movement, the agendized Horse surpasses the boundaries of a Gentile's governmental office, destined to either become obsolete or lose its value in the millennium era. Such potential obsolescence is not a matter of if but a stark reminder of the necessity for change as a milestone.

A Seemingly Reversal of Harris becoming President-Elect in November 2024

Putting expectations within sequence so as not to overlook essential details. First, as The Judahite foretold, Biden would give way for Harris to become the next U.S. President. That happened. Biden dropped out, and Harris stepped into the race at the last minute and won. Still, on the night of the election, the heavenly Court affirmed Judah's restoration plan to enter the Promised Land with great wealth. Days later, the angelic host revealed that with advanced prophetic technology, the Danite's Coalition took the election in a manner that leaves no technological fingerprints. Next, The Judahite received a Calendar Update from Second Heaven on December 8, 2024, revealing a different timeline for the Proclamation Rider.

Biden and Harris, the 2020 presidential ticket, are symbolically connected to the Moon, a celestial body that stood still for three hours on November 5, 2020. In this connection to the Moon, everyone is drawn into the analysis and feels involved in the political narrative.

For three hours, the Moon serves as a captivating signal, revealing the arrangement of the three personalities in the conflict during the final phase of Warfare with the Amorites and the Fall of Babylon. This astrological reference, likening each party to a hand on a watch (the hour, minutes, and second), adds a layer of intrigue and engagement to the analysis, stimulating our intellect and enhancing our understanding of the prophecy.

Unfolding in the War were unique astrological events, with the Moon taking a pivotal role. With the powerful support of Archangel Michael on his right side, Joshua commanded the Moon to stand still for the First battle in the War while he defeated the Amorites. This historical context adds depth to the astrological references.

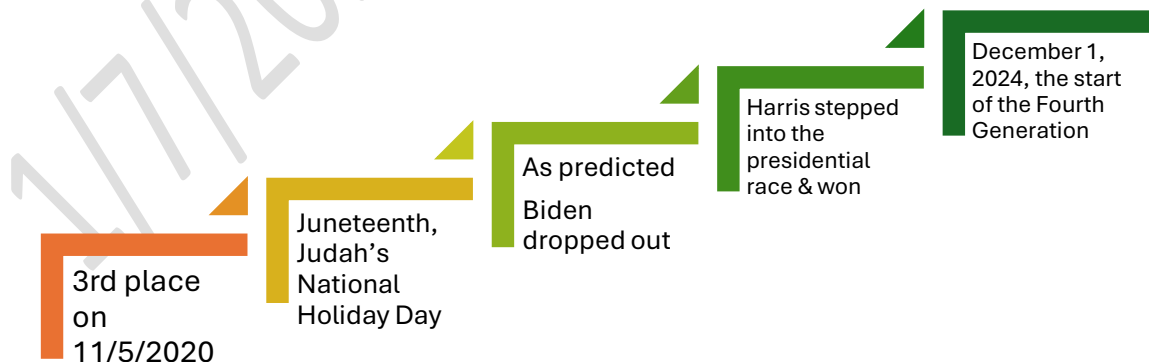

During the Second Battle's early stages, The Judahite engaged the Amorites and the Babylonian bankers simultaneously in Europe and Africa. It was a moment of high drama when the suspended Moon, previously locked in place by Joshua, was released. Once unsuspended, the Moon continued in its progression across the night sky.

In the Third phase of the War, the Moon stood still for three hours in the dark of night. This was a significant departure from the previous battles, where Joshua was in battle during the day. Visibly, the Moon stood alongside the sun, a rare and awe-inspiring sight.

Now, consider Harris's placement according to where the heavenly host placed her. A) in third place as Vice President when the Moon stood still for three hours on November 5, 2020; B) the Biden/Harris administration signed the Act, making Juneteenth a National Holiday Day in favor of Judah's patience to declare his freedom in 1865. As a transitional step, Judah would obey Texas's state laws. Later, in December of 1865, Judah abided by federal laws according to the ratified Thirteen Amendment, ending chattel slavery.

On December 1, 2024, the Fourth Generation commenced as the official date for the Ten Tribes and Judah to pick up the tempo in preparing departure with Judah leading the Transitional Movement back to the Patriarchal Homeland of Abraham, Isaac, and Jacob and constructing a new Tabernacle according to the Abrahamic Covenant.

Below is Harris's progression, providing a comprehensive understanding of her journey and its astrological implications.

Days after the election, Archangel Raphael revealed a profound insight into The Judahite, shedding light on the divine guidance that influenced cyberspace software manipulation and shaped the election results. Despite the heavenly messages indicating Harris' win, this revelation leaves us in awe of the intricate interplay of spiritual and political forces.

As an operational meaning, Harris would be president, which naturally confused the roles of a sitting president versus the Judahcratic operational mechanics in the Transitional Movement. This intriguing juxtaposition of political structures, where American democracy briefly mirrored Judahtocracy before succumbing to the supernatural strength of Judahcratic elements, kept us all engaged in the prophetic unfolding drama.

**Remember, the LORD's Uttered Word
Never Returns Void.**

Isaiah 55:11

*"So shall my word be, which shall go forth from my mouth:
it shall not return to me void, but it shall do whatsoever I
please and shall prosper in the things for which I sent it."*

Therefore, Harris's victory, a mobilizing figure, is a credit to the Judahcratic Transitional Movement.

A Rare Teachable Moment
to validate the Biblical identity of Dan

On Election Night 11/5/2024

"The Judahite listened attentively to the Avouchment and recognized its divine evidence concerning the promise of restoration. This restoration plan encompasses the Promised Land and the 400-year Covenant, which states that Israel and Judah will reconcile their accounts with the Gentiles, involving equitable adjustments and return on investment. These equitable adjustments and return on investment, a sign of the Lord's fairness, fill us with a sense of security and optimism for the future.

With renewed hope, The Judahite went to bed."

What a paradox in man's thought process; on January 6, 2025, the prophetic President-elect certified her opponent as the 47th U.S. President. This paradox, a twist in the fabric of our understanding, leaves us intrigued and in quest for an advanced level of prophetic conceptualization. Biblically, rare paradoxical moments occur hyper-dimensionally, so Judah can simultaneously see the resultant mechanics of past, present, and future.

It's crucial to remember that our human thought processes may not always align with God's, yet we have a comprehensive understanding of history in one episode. This thorough understanding, when applied to the revelation of Abrahamic prophecy for the end times, becomes a beacon of light, guiding our understanding of divine prophecy and its implications.

Genesis 49:17

Dan shall be a serpent, by the way, an adder in the path, that bites the horse's heels so that his rider shall fall backward.

- Dan's Coalition is treacherous and does insidious things within Daniel's framework regarding Judah in the fourth and final Gentiles' social system.

Despite appearing insignificant in the election results, Dan's role was far from trivial. He operates according to his grand plans in Daniel's Man Statue Model at each transitional stage. The undisclosed focus on Dan is crucial, underscoring the weight of his actions. Jacob, with his keen insight, recognized Dan's wicked Coalition of Colleagues preventing Judah's rise during the Fourth Generation, akin to the pharaoh not letting the Israelites depart. Then the unexpected happened: the Egyptians were on their knees mourning for the millions of deaths proclaimed in the midnight cry heard throughout the land of Egypt when the death angel killed the firstborn animals and man's offspring. After this, the pharaoh opened the gates, allowing the Israelites to depart.

Genesis 49:17

*Dan shall be a serpent, an adder in the path, that
bites the horse's heels so that his rider shall fall backward.*

Looking ahead, Jeremiah foretells Babylon's fall after seventy years. Then, in a moment of divine revelation, Angel Gabriel appeared to Daniel, imparting the Seventy-Week prophecy that comprehensively unravels the intricate components of the Gentile Age and its consummation before the Messianic era.

Jacob, in his prophecy, foretells the coming of the Fourth Generation. Unexpectedly, Jacob's prophecy reveals a delay in the departure of his exilic descendants from Egypt, a delay caused by Dan's Conspiracy Coalition striking the heels' of the Transition Movement on November 5, 2024.

"I look for your deliverance, LORD."

Genesis 49:18

Jacob's Astro theology, a profound and intriguing concept, foretells Dan, the adder snake, striking the horse's heels, causing the rider to fall backward.

Doing a quick historical analysis of Jacob's end-times prophecy for an objective view of Dan. Jacob explains his sons' missions, divine callings, and the end-time obstacles, which are the challenges they will face in the final Gentiles' social system.

Jacob's Astro theological end times' prescriptions for his sons, a unique and fascinating aspect, apply to Abraham's Fourth Generation paradigm.

Now consider that Isaac blessed Esau out of compassion as his elder son, who cried bitterly for a blessing crumb after Jacob received the divine blessing. Being the elder son by customs, Esau had birthright to his father's last will. But Esau sold his blessing to Jacob for a bowl of beans, and when the time came, Jacob cashed in his promissory note.

Rebecca, the mother of Jacob and Esau, went to the LORD and asked about the twins' future before their birth. The answer: Esau would be a servant to Jacob.

After the death of Isaac, Jacob killed Esau in a counterattack after Esau failed attempt to kill Jacob. Naturally, Esau's descendants inherited the blessing given by Isaac.

- *“said to him: In the fat of the earth, and in the dew of heaven from above, And Isaac, his father, answered and said to him, Behold, thy dwelling shall be of the fatness of the earth, and the dew of heaven from above.” Genesis*

In a word, the Edomites or Idumeans are Esau's descendants who formed the Roman Catholic Church. Indeed, the Vatican is the Idumeans' global center of power.

Consistent with Esau's, the Pope blessed Judah's enslavement, paving the way for the foundation of capitalism through the theoretical mathematical model of capital reproduction and accumulation.

As Daniel foretold, Dan and the Freemasons successfully subdued the Pope, forcing him into a power-sharing arrangement with the Jesuits, who are Danites.

Gentile Dan operates globally, i.e., commercial and investment banking, which are levers used to prioritize commercial industries according to Daniel Gentile's framework of social systems. It is through the banking arm of Dan who financed the Zionist State of Isreal in 1948.

Adding contents to Abraham's Fourth Generational prophecy, Jacob knew his exilic descendants would encounter a similar situation as in ancient Egypt—roadblocks to prevent the Israelites from departing to worship their God.

Why Dan?

Because Dan is an archetype of the Chaldeans with historical roots in opposition to Judah and his God, Daniel's experience in the lion's den models the current-day Dan's Conspiracy Coalition to prevent Judah's Fourth Generation departure and to construct the millennium Tabernacle.

Jacob is the first to give his descendants the paradigm: after a long duration of trials and hardships comes an abundance of blessings.

- *Dan shall be a serpent, an adder in the path, that bites the horse's heels, so his rider falls backward. Genesis 49:17*
“I look for your deliverance, LORD.” Genesis 49:18

To dispute the heavenly host position on the election outcome:

- ✓ **Making a Declaration**
- ✓ **Instruction**

Death is a new option for skeptics disputing the heavenly host's position on the election outcome. This could potentially change your perspective on the matter.

The significance of the election paradox has been touched on above, and the conversation is far from over. We are at an advanced level where we prioritize the Judahcratic methodology, a crucial tool to understand and employ. More insights will come into a different presentation.

However, in your quest to resolve the question of authenticity, a tool is at your disposal - the Voter's Private Declaration. This document is designed to be signed mentally, not manually, for it is a personal commitment to the principles that reflect the authenticity of the electoral process.

A Voter's Private Declaration

(Not to be disclosed to anyone)

LORD's authoritative position states Harris was the President-Elect on November 5, 2024.

It is vital to safeguard the LORD's position from being manipulated and used as a political tool. Those who oppose this position automatically undermine its validity and make the following declaration:

A PRIVATE DECLARATION

I _____ declare that the following statement is true:

The United States 2024 presidential election between candidates Harris and Trump was conducted without fraud.

Despite the potential consequences, I, _____, remain steadfast in my belief that the 2024 presidential election was conducted without any fraudulent activities that would have prevented Harris from becoming the U.S. President-Elect on November 5, 2024.

I accept the consequences of my statement by death. The heavenly hosts will act within three months of the execution date below.

EXECUTED on _____, 2025

Instructions

1. Use your internal audio system (PRIVAT THOUGHTS). In other words, speak to yourself.
2. Mentally, use your Private Thoughts to sign the Declaration instead of a handwritten signature.
3. There is no telling anyone that you mentally signed the Voter Declaration. Remember, the heavenly host knows your intentions and thoughts.

1/7/2025 posting delayed
