

April 1, 2024 Update

On April 1, 2024, The Judahite received notification of the Israeli Defense Force's (IDF) successful precision surgical airstrike against a building housing the Iranian Revolutionary Guard in Damascus, Syria. Some reports say it was Iran's Consulate. The building was located within the Iranian diplomatic complex in Damascus. The notification came as the Second Heaven Court's judicial formality.

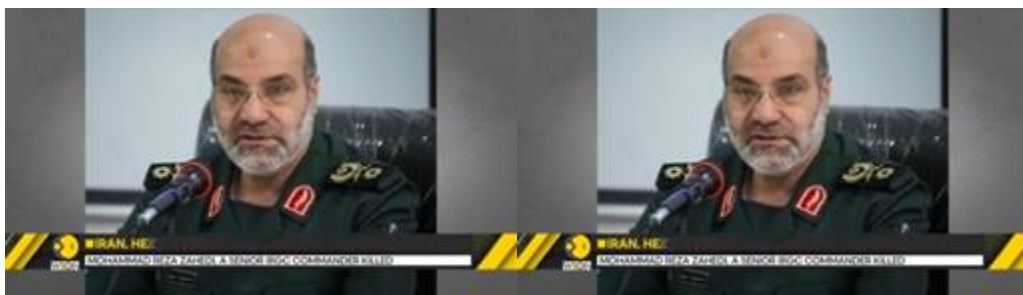

A few details about the surgical airstrike.

1. The Israelis have an exceptional, intelligent network for gathering information. It is well known that some of the Arab countries have an enduring hatred of the Jewish state.
2. Because of the enduring emotionalism, resting on historical dishonesty regarding the actual identity of the Palestinians and the rightful claim to the territory of Israel, a few words are in order. The current state of Israel is prophetic even though its founding foundation rests on Zionism. We take the bad with the good within historical circumstances, knowing that prophetic time will sort out all false claims to the national territory.
3. The IDF has a running hit list of those who actively seek Israel's destruction, including General Zahedi, General Aminollahi, and General Haj Rahimi, who were killed in the airstrike. Why did the precise surgical bombing occur on April 1? Considering all conditions, the accurate answer is that Michael led the generals in that building at the right time.
4. **When The Judahite received the 2nd Heaven's judicial notification regarding the airstrike, he realized the coming escalation of the war, reaching a degree never seen.**

The future of Iran

According to prophecy, the tribe of Judah will take a fourth of Iran's territory and give the balance to Iranian Christians.

As a lifeline, the Iranian Christians should and must take over the government as soon as possible to minimize suffering, because in one form or another, the current regime will suffer defeat.

Procedural step:

Whenever possible, before seizing state power, Iranian Christians must display the emblem of the Executive Body of Israel in Exile as a sign of complete allegiance.

The Lion of Judah.

Gaza is an example of what to expect.

In many places, the stench fills the air of dead bodies. Destruction is everywhere.

What is coming will be twenty times worse and longer.

Judah's emblem of the Lion is your salvation, thus, copy an image of the Lion.
