Introduction

This is a revised April 3 Reporting. Some of the contents have been transferred to the presentation coming next week.

The essential purpose of the presentation remains. Many geopolitical, economic, and military developments are occurring, making it necessary to understand the opposing camps that have stakes in WWII outcomes and re-arranging the new world order. Each week global events give us a more apparent formation of the opposing camps in the new world order.

The Ukraine War gives us each week a look at the opposing camps' interest in extending the War to WWII. From all objective indicators, not deceptive rhetoric, the global elite wants WWII. Because the West, for so long, advanced a negative picture of Russia's national intentions toward the world, we in the West need to be armed with objective information lest we fall for supporting a war contrary to the stated purpose.

Although time progresses, time is eternal; we cannot remain as children or hold on to unchangeable positions. Though many of us know that theoretically, time moves with biblical prophecy from the foundation of the world, many government leaders are reluctant to accept coming changes for many reasons. Even planet Earth has a date with destiny after the next one thousand years.

Consider the 1960s Cuban Missile Crisis, and the USA objected to Russia's nuclear weapons in Cuba pointing at the USA. In 2023, Russia opposes its enemies, putting nuclear weapons in Ukraine and pointing at them.

Because Russia is in biblical prophecy, this presentation seeks to know why and its role in the end times. It is not easy to get to the bottom of complex issues because the waters of historical circumstances become muddy over time, intentionally and unintentionally. Herein, The Judahite continues to proceed on the Scriptures and with signs of heaven for a correct view of Russia. As such, taglines of history will enable us to follow how history arrived at its conclusions.

Overall, unlike WWI and WWII, WWII comes under the prophecy of Israel's four hundred years returning home to the Lands of Promise.

We generally talk about biblical prophecies, which are history told in advance by the Elohim. The Executive Body of Israel in Exile does presentations toward policy actualization, which means there are seemingly unimportant details to the average reader. But, for those who will move on and take managerial positions in the Commonwealth of Israel, the components serve as the nuts and screws for a solid understanding of making policies.

April 3 Reporting Revised

Over the past two weeks, weather conditions around the world have forced many countries to seek international aid to assist in alleviating the effects of weather-related devastations. In one world region, an earthquake's epicenter impacted ten countries. Baseball hailstorms have been reported in many places, and in a few places, falling basketball size hail. In the USA, devastating communities are issuing the notice: **"We need everything."**

Weather conditions summary characterization—apocalyptic.

Nothing on the horizon to indicate a return to regular weather cycles. As such, from now on, we can expect biblical weather conditions to be a present reality in the background as unfolding prophetic events occupy the foreground.

Division One The War in Ukraine

The War in Ukraine continues to escalate. Generally, the western media portrays Russia as the invader, the aggressor. For many people in the world, the question is who represents right. Naturally, the question is asked what the fighting is about. War has always been a living hell. For this reason, an educated public needs to know the reasons for war. The corresponding answer demands simplicity, not fabricated emotionalism.

A brief overview of the situation herein is for the 144k's enhanced understanding from the perspective of the Executive Body of Israel in Exile's policy guidance. On the one hand, the visible operational issues of the war are apparent, as the warring sides have primary and secondary aims for fighting respective outside interests supporting the continued fighting. On the other hand, the functionality of the war is complicated. For this reason, a comparative analysis of interest is being made for the sake of an objective view, not taking sides—let the facts represent themselves.

The US-Afghan War

As an introduction to Ukraine's War, the United States of America waged a twenty-year war in Afghanistan in self-defense against al-Qaeda terrorists on September 11, 2001. The official declaration of War states the Taliban gave al-Qaeda a base of operation for attacking America's assets at home and abroad.

After 9/11, did anyone have informational resources to question the security intelligence report? The anti-war movement asserts yes, though not enough strength to override NO. American public opinion put the stamp of approval on Washington's war plans.

The Taliban ruled Afghanistan before the War started and held total power during the American withdrawal from Afghanistan.

The Doha Agreement signed by the Trump administration to end the US-Afghan War.

Judging by his early days in office, President Trump reviewed the budgetary history of the War and concluded no basis existed for spending billions of dollars on an intangible war. It should be noted that Trump is a businessman from the private sector. Any successful CEO always looks for ways to reduce costs and continue to deliver quality service or manufactured products. As such, Trump signed the US-Taliban deal or the Doha Agreement.

Speaking in fairness, the Biden administration knew of the terms and conditions of the Doha Agreement. Looking backward in time, Biden supported the Bush administration to wage war.

America left behind an estimated 7 billion dollars worth of equipment, an acknowledgment of misguided military objectives. Under the Agreement, the Biden administration knew of the **last calendar day** for American troops to exit Afghanistan.

Remembering the chaos during Saigon's fall, but much worse. The withdrawal from Afghanistan displayed sloppiness, amateurishness, and an outright national disgrace. In reaction, a rallying call went out nationwide to impeach President Biden. Was the display a precursor of America's military future?

"He recounted the events leading up to the bombing that left 13 U.S. servicemembers protecting the airport dead, many others injured, and scores of Afghan civilians killed."

[Marine sergeant injured in the [Aug. 26, 2021 terror attack](#) at the Abbey Gate at the Kabul airport.]

As always, there is money to be made from wars. The Afghanistan War lasted twenty years. During such time, America spent billions of dollars supporting corrupted puppet administrations, like in South Viet Nam. In such cases, puppet governments disintegrated at the hour when Americans withdrew.

Once in Afghanistan, a policy shift occurred, like in the Viet Nam War. Pacification Programs aimed at educating females and giving males hope for a brighter future—such a noble aim.

Opium became part of the war. Nothing new, dealing in opium on the supply side or on demand side has been part of the U.S. War strategies in Asia.

Otherworldly phenomena

Of interest to note, within Afghanistan, there are ongoing otherworldly phenomena. National security departments or agencies restrict the flow of information on paranormal phenomena, and artifacts.

America-led Coalition to overthrow Saddam Hussein

Although not stated, the US-Coalition invasion force was multi-functional. **One.** To teach the Iraqis never to think of replacing the U.S. Petro-dollar. The War lesson was well received by other countries contemplating replacing the Petro-dollar. **Two.** Stabilizing the U.S. Dollar for domestic price management through low-interest rates. **Three.** Regripping America's control over the worldwide banking industry signaled China to play by international rules or suffer the same fate as Iraq. **Four.** Two-faces of Weapon of Mass Destruction. Generally, everyone knows WMD means nuclear and or biological-chemical weapons. On the other hand, the Weapon of Mass Destruction was a coded term to search for an ancient artifact or artifacts that would enable the occultist to rule the world. Or prevent others from ruling the world.

Did the USA find the Weapon of Mass Destruction? By looking at the logic within the pattern, the answer is yes. The military took away things in unmarked crates.

What Motivate Leaders to do seemingly Purposelessness on grand scales?

For example, the Shah of Iran celebrated 2500 years of the Persian monarchy as the king of kings in 1971 by throwing a party at the cost of 465 million dollars. The party is dubbed the most lavished party in history. What a wonderful celebration in remembrance of Cyrus the Great. During his reign, the Shah sought to resurrect the Persian Empire with outside assistance. Toward that goal, the extravagant party list included world leaders and the world's most influential people, which implies the Shah knew about magical artifacts or WMD in his country and region.

Going back to Nimrod, he, too, knew the secrets of the Watchers. Whereas Nimrod was of Hamitic origin and formed the ancient Babylonia Kingdom, the Assyrians were of Semitic origin.

Russia.

Considering the West's current negative image of Russia, we must use objective analytical eyes toward Russia before the collapse of the USSR and its recent reconstruction.

Ukraine was one of several countries composed the Union of Soviet Socialists Republics or USSR. After WWII, Stalin established an iron curtain, a jurisdictional barrier between the East and West. From a general perspective, Russia, Britain, and the USA agreed on each country's sphere of global influence since they were the **victors**. The Russian Army won the in Europe when it defeated Germany, whereas the USA won the Pacific and Asia wars. Britain's role is seen in its auxiliary playing off the Russians against the Americans for an advantageous position post WWII.

Stalin actively pushed for creating the United Nations for conflict resolution among nations to prevent another World War. Britain found its place post-WWII. First, the CIA is primarily a

British's intelligence organization, a continuation of its role in WWII. Post WWII, the CIA combines Britain and USA interests. Secondly, Britain holds a central administrative role in the United Nations' programs for advancing global commerce. Its colonial history selected Britain for its global view of the world.

Russia has never been imperialistic. Russia under Lenin worked out the outlined model for the Soviets Republic. And under Stalin, the USSR reached its evolutionary maturity to protect workers' interests over abusive capital.

Many in the West quickly point out problems in the USSR's economic model. However, the architects of the USSR encouraged other countries to refrain from mechanically adopting USSR's administrative model because their respective countries' historical requirements might demand a modified model; otherwise, they risk deforming society's evolutionary growth.

Two interpretative approaches to Marxism. One is scientific Socialism, and the other is traditional Marxism, as seen in the label Communism. For the record, *Communism doesn't exist in the world, though a futuristic political proposition.*

For practical purposes, the political character of Marxism has been misapplied. Marx indeed contributed to political economy, as did others. However, the essential Marx, no one else, did a comprehensive analysis of the Law of Value as applied to manufacturing and the circulation of capital in its metamorphic stages of circulation and conversion into liquidity. Still, Marxism is no longer hotly debated to determine the way forward for the energetic Left Social Movement.

Russia and China worked out their versions of Socialism in conformity to their historical character of territorial origin. China's character is fascistic imperialism that subordinates labor or workers to capital.

Judah's Contribution to the Foundation of Capitalism

Knowing that tribal Judah represented one of the three legs of capital accumulation (capitalism), Russia knew it could not overcome the social system of capitalism. However, over the years, the Russians talked propagandistically about socialism surpassing the Western version of capitalism without imitating Western colonial practices for capitalizing its societal base to jump-start its industries, the engines, for the growth of the national economy. Likewise, Viet Nam outlined its theory going directly from a feudal state to Socialism.

Respect is given to all governments' efforts to improve their people's living standards regardless of ideological persuasion, only in North America where magic exists to enable all countries through investments and capital loans to reach a critical mass of capital advantageously to affect their industries suitable to drive the nationalistic character of their economies. Look. Abraham, Isaac, and Jacob received the LORD's pledge of their descendants multiplying their programmed theological attributes to improve the life of society.

Russia erected the Iron Curtain around Eastern Europe, preventing Western capitalism from crossing the line to subvert socialistic goals. Does the Iron Curtain look like Russia wants to move beyond its territorial boundary? Action speaks.

- President Ronald Reagan called for the General Secretary of the Communist Party of the Soviet Union “Mr. Gorbachev, tear down this wall!”.

Americans cannot have it both ways!

Through planned economics ranging from five to more years, Russia could cherry-pick adaptations of western style industries that offered programmed compatibility.

After WWII, Russia contributed to the formation of the international labor movement and its growth. In America, the economic philosophy of labor rights got downgraded into a subversive menace to the United States government, viewed as a Russian takeover.

Long after Russia disbanded the International Labor Congress, the CIA stepped in and now controls the international labor movement.

The Russian Revolution of 1917 Parallels the Black Labor Movement Of 1865

Tribal Judah innately stands diamagnetically in labor relation to capital. And inherently, private capital controls the land, natural resources, enslaved people, and wage workers. Directly or indirectly, society is chained to the domination of capital. The capitalist frames his financial philosophy as the right to hold on to all the surplus without regard to the basic health needs of the workers. The basic needs of housing, nutritious food, and medical care are daily realities necessary for a healthy workforce.

Without question, the labor movement has forced improvement in workers' well-being over the decades. While there have been gains, the global economy has forced workers to return their progress. In many countries, capital dominates labor, a throwback to the early days of the industrial revolution.

The labor movement tells its own history. Without workers' accumulated experiences and knowledge acting as components of variable capital, manufacturing would be restricted in its growth. Ironically, open and closed union shops served and still serve as the capital's springs in the labor process.

Innately, Judah's slavery put him at odds with capital. This contradiction has persisted through the evolutionary stages of capitalism. Judah's economic identity is labor. He was brought to North America to work. Judah pressed for labor rights protection during national Reconstruction of America after the Civil War.

Yet, the Democratic and Republican parties viewed Judah's labor rights demands as subversion, the intent to overthrow America. Before and after the Civil War, Judah's fundamental demanded labor rights protection. Whenever black workers demanded employment or contract rights, they

were labeled Communists. The sanitation workers' complaint led to Dr. King's assassination.

Moreover, the Black Reconstructionist labor rights movement of 1864 drove the 1963 March on Washington. At that moment in history, the Ten Tribes demanded jobs, housing, education, social services, and the availability of medical care. The political establishment in Washington embraced the legitimate legislative demands while, at the same time, relegating Judah's demand for labor rights protection as a low priority.

The Black Reconstructionist regained its footing in the 1970s. Union organizing started in the Midwest, where, at that time, the location hosted over a third of heavy industries in America. The heart of the auto industry, Detroit, had many plants nationwide.

Maximizing surplus value is always the capitalist's motivation by shortchanging wage labor. And where possible, use cheaper raw materials. The Black Workers' Congress came of age by understanding the application of mathematics in wage differentials and mathematics about variable and constant capital.

Out of reaction to the Black Workers' Congress, corporate America went abroad to other countries, with China being its privileged location. Being a part of the organizing cadre, in less than a decade, The Judahite saw and talked with a Chinese trade delegation selling industrial products at cut-rate prices. Yes, the same piping was made years ago in the Chicagoland area. What? Yes, variable capital portrayed its own mathematics. Why pay higher wages and high costs for raw materials when there are options?

The Soviet Union Collapsed in August 1991

Having abundant of natural resources and a large landmass, the USSR did not need to wage wars to further its financial capital base. For example, Russian ships prevented the arrival of British supply ships to the Confederate South during the American Civil War. Moreover, it could have quickly occupied a fourth of the Westcoast of North America. Also, consider Russia sold Alaska to the United States.

After the breakdown and the collapse of interdependency, the United Soviet Republics re-established its priority to grow industries where labor and capital would mutually expand and grow when each knowing its constraints at any given time.

Again, without a critical mass of capital, no country can ever hope to achieve a sufficient degree of economic sustainability. In the case of the USSR, its collapse allowed US capital to flow in with other foreign investors. Today, Russia's economy is on a sustainable footing to withstand western sanctions.

A look back.

Before the breakdown of interdependency, Russia's single focus was on increased internal economic growth capacity to drive *technological achievement in steps with America*. While Russia's technical progress has been impressive, and the only country on par with America that can

affect the nuclear destruction of hundreds of millions of people in a nuclear exchange, the progress came at a cost. Russia could not reach a critical mass for the necessary economic quantum leap that would have prevented the collapse.

Primarily, Russia lost the Cold War because it could not keep pace with America's military spending. Secondly, we should consider the effects of western's-imposed sanctions.

Global circumstances that have impacted many countries

Looking generally at the global state of affairs, the western sanctions imposed on Russia might not achieve the intended results. For example, COVID-19 has had a significant impact on national economies.

Those who are not affected by an immediate condition, there is no need to be concern. For example, many national rivers around the world have dried up and many more are on the same road. The conditions have impacted commerce and taking financial tolls on regional governments.

Oil and natural gas are in short supply or have been depleted within certain markets of the world for one reason or another. Or the supplies are available at higher prices.

All toll, people are taking to the streets with expected regime changes as outcomes; such is the expectation of a growing movement to vote in new European governments. Britain is an example of the revolving regime changes.

Russia's technological achievements in the arm race with America

Contributed to her collapse

Before the breakdown, Russia's single focus was on increased internal economic growth capacity to drive *technological achievement in steps with America*. While Russia's technical progress has been impressive, and the only country on par with America that can affect the nuclear destruction of hundreds of millions of people in a nuclear exchange, the progress came at a cost.

Russia could not reach critical mass for the necessary economic quantum leap in consumers demand. Primarily, Russia lost the Cold War because it could not keep pace with America's military spending. Secondly, we should consider the effects of western's-imposed sanctions.

The Complexity of History

And

The Germans are at the root of the Cold War.

Little Book, Martin Luther, and the German Lutherans

In Revelation 10:8-11, the Voice from Heaven commanded Martin Luther to take the Little Book, the New Testament, from his hand and eat it. The Voice said it would be sweet as honey in his mouth, but bitter in his stomach. The metaphor perfectly illustrates the Protestant Reformation and the Thirty-Year War between the Lutherans vs. the Roman Catholics, resulting in over five million death. Revelation 10:8-11.

Revelation

^{10:8} Once again the voice from heaven spoke to me. It said, "Go and take the open scroll from the hand of the angel standing on the sea and the land."

^{10:9} And I went unto the angel, and said unto him, Give me the little book. And he said unto me, Take it, and eat it up; and it shall make thy belly bitter, but it shall be in thy mouth sweet as honey. ^{10:10} And I took the little book out of the angel's hand and ate it up; and it was in my mouth sweet as honey: and as soon as I had eaten it, my belly was bitter. ^{10:11} And he said unto me, thou must prophesy again before many peoples, and nations, and tongues, and kings.

Being mindful of one's spiritual form of warfare.

The New Testament represents the Little Book. Martin Luther of Germany was the first to translate the New Testament into German.

Martin Luther established the archetype of the burning Spirit of Pentecost Sunday that automatically brings about the consciousness needs to repent and receive baptism. Martin Luther made the Bible available to the ordinary person to read the Scriptures to effectuate his doctrinal war against the Pope and Roman Catholicism.

The essential Martin Luther is in fact the man of *consciousness*. He did all the good works required as a Catholic Monk to please Yahawah and still he felt spiritually empty. He tortured himself to be acceptable in the eyes of Yahawah; then, one day, by accident, the Latin New Testament fell off the shelf and he began to read when he discovered Roman Catholicism rested on the ideological misinterpretation of good works by re-arranging the Holy Trinity.

Consider the theoretical abstraction of hard and soft, male and female, and teacher and student. The Holy Spirit is a divine energy source assigned to the righteous seeds of Adam or to the righteous seeds of Shem, Ham, and Japheth. The Holy Spirit being of femineity, the teacher, teaches about Yeshua's New Testament, assist in our daily New Testament walk.

Yeshua is the Son of God. Roman Catholicism essentially elevates Mary, the earthly mother of Jesus, as the mother of God. In contrast, the divine energy source, the Holy Spirit, implanted Yeshua's embryo inside of Mary as the host. Mary's egg never became of the embryo.

We repeat the words of Gabriel: Hail Mary blessed are you among women for having been selected as the host. Thus, incorrectly, Father, Mother of God, and the Son in depicting the character and nature of Yahawah.

- Therefore, go and make disciples of all nations, baptizing them in the name of the Father, and of the Son, and of the Holy Spirit. Matthew 28:19

Dr. Martin Luther King, Jr being on the battlefield of spiritual warfare perfectly understood Revelation 10:11 by adopting Martin Luther's name and representing the defined spiritual archetype.

10:11 And he said unto me, thou must prophesy again before (a. many peoples, and (b. nations, and (c. tongues, and (d. kings.

10:11 meaning's asserts biblical 4 will be repeated through the New Testament's spiritual words.

Germany received the science of rocketry as a reward of personification of the Holy Spirit in consciousness.

Germany, the home state of Lutherans, received the knowledge of physics to construct rocket technology, allowing humanity to go into space and look at its home planet and the diversity of celestial bodies in the heavens. Today, Germany is the largest printer of English Bibles than any country.

WWII

For the record, Ashchenaz Jews (a subgroup of Dan) were treated well and contributed significantly to Germany's economy. However, the banking class of Dan betrayed the Germans by falsifying and misrepresenting Germany, aiming to bringing the USA into WWII to realize better their agenda for creating the state of Israel.

The Russians defeated the Germans in WWII, resulting in its corps of scientists splitting into one group going to the USA and the other to Russia. The Germans made an analytical decision on who would go to the East (Russia) and the West (USA). Yet, they would remain in touch by sharing technical information to continue their research projects in rocketry and military technologies to reconstitute new Germany.

The Cold War

As discussed in a previous presentation, the Cold War was about Russia and the USA spying on each to know what each other was doing regarding new technologies.

What accounts for the West's agenda to destabilize Russia? First, the Russians were the first to put a man in space by orbiting planet Earth. Thus, logically or illogically, the thinking that space could and should be weaponized. On the other hand, Russia saw the USA's weapon of mass destruction when the A-bomb was dropped on Japan, effectively ending WWII. Given the proven state of the science of mass destruction, the Russians took a defensive position in the arm-race.

At some point along the way, Americans gave fake scientific research data to the Russians to invest more and more capital into an open-end arm-race. Comparatively, at a disadvantage, Russia

needed a matured social and economic infrastructure to commercialize scientific research and development applications.

The Roswell incident gave the Americans the basis for making a quantum leap in research and development, as planned when the armies of heaven purposefully crashed an alien spacecraft.

Think about it; Russia possessed an A+ military and space industry and a D in supply chain distribution and manufacturing of products before the collapse.

USSR collapsed and CIS returns to domestic priority Americans outspent the Russians causing the USSR's collapse.

The Commonwealth of Independent States (CIS) replaced the USSR.

Russia and the Soviet Republics were forced to reorganize. Some State Enterprises were sold at discounted prices to private parties known as the oligarchs or became joint ventures with foreigners.

From all indications, the West put in place a plan to cancel Russia's influence over Ukraine. Due to misinformation, Russia never felt threatened by Western investments in Ukraine and saw economic investments as a benefit to CIS.

On the other hand, Russia is fully aware of the West's plans to militarize Ukraine, a direct threat to Russia. The global elite has a containment plan to encircle the western boundary of Russia or encircle CIS.

On principle, consider a hypothetical reality. Let's substitute Ukraine for Kentucky and transfer its location to the States. Known to the insiders, China supports Kentucky and plans to set up military bases. For whatever reasons, the government of Kentucky decided to renounce its disunion with the United States without a referendum from the public.

Each state in the US has territorial laws reflecting the consent of the governed. Kentucky has standing rights of succession from the Union, like other states. However, national laws are established for the common interest of each state under the protection of a standing army.

As in the case of Kentucky and Ukraine, a conspiratorial clique is operating in the interest of a foreign power. The facts show the Ukrainian population never felt the need to rebel against Russia, for many Ukrainians are Russians. **Something needs to be added up.** Russia became a threat once the conspirators came to power through the financial support of the West.

So, what is the West's hidden agenda?

First, if the population had a fundamental problem with Russia, it could have been resolved within the first year of the War. Ukraine has received military aid from the West and will continue to do, making a settlement unappealing to both sides.

The answer to the question is to extend the conflict to cause damage to Russia and the CIS within a broader geo-political and economic framework of the global elite. However, given the dynamics of war, any side can find reasons to prolong the war, assuming both sides have sustainable resources. War itself is an industry, and as such, there is money to be made by profiteers.

Ukraine is a semi-proxy war.

The semi-proxy war has the consequence of preconditioning WWIII. Already the opposing forces in Ukraine extend to the regional and global camps. The new world order now has signed economic agreements among partners. Hypothetically, regardless of the outcome in Ukraine, the new economic order in trading blocks will leave the West in a declining second place. WWIII Military theater is now set, reflecting the economic camps opposing each other. WWIII will be fought on four fronts Ukraine/Britain, the Middle East & Israel, Asia/China, and North America.

Division Two

As history put into place overlapping processes to move cycles of knowledge from the particular to the general and from the general field of knowledge to an enriched conceptual feature. The cycle of knowledge repeats, eternally.

The Apostle Age

The Apostles carried forward the worshiping and prayer traditions of Yeshua. The Apostles Age solidified Yeshua's traditions. The Apostles, themselves, were the living glorification of the New Testament.

The Apostles did supernatural things that embodied Christ's salvation by grace. The Eastern Christian Orthodox Church actively practiced the Apostle's traditions and overtime the practices became institutionalized.

On the day of Yeshua's ascension, he gave the **Great Commission**:

- Go, therefore, and make disciples of all nations, baptizing them in the name of the Father and of the Son and of the Holy Spirit teaching them to observe everything that I have commanded you; and lo, I am with you always [remaining with you perpetually—regardless of circumstance, and on every occasion], even to the end of the age.” Matthew 28:19-20

The Church Age

Endlessly, non-Apostolic traditions appeared in many Christian bodies; additionally, heathenistic and pagan practices emerged continuously as the Church Age evolves.

For the stated reasons, John dictated Yeshua's letters to the Seven Churches in Asia Minor that constituted the seven pillars of the Church Age. The seven letters armed the Church Age on the correct methods of fighting Satan's seven methods of attack.

The Eastern Christian Orthodox Separated from Pagan Rome.

Emperor Constantine separated his Eastern Empire from pagan Rome, known as Western Rome, after he built Constantinople.

Orthodox Christianity flourished under the Byzantine Empire because of the Seven Precept Pillars in Revelation. The Eastern Orthodox Church became the repository of the Apostles' religious traditions and acted to preserve the separation between Rome and Constantinople.

The groundwork for the Church Age came in the Seven Ecumenical Councils, which gave us the Nicene Creed around which the Church Age united. Over time, divisions surfaced again, but not to the degree of killing those with opposing views and practices according to each interpretation of the Scriptures.

The Church Age embeds the fractional interplay between Esau/Edomites and Israel/the Congregation. When Imperial Rome suffered its final military defeat and faded from history, the Edomites or Idumeans of Rome used their church membership within the structure that Apostle James, Bishop of Jerusalem, fashioned for the ecclesiastical order of the Church to display degrees of political independence from the universal church based in Constantinople.

Before Great Schism of AD 1054, the Church of Rome was one of the regional district in the universal church. Indeed, the Apostle Age translates into the Universal Church OR the Catholic Church. Catholic means universal.

**The basis for the quantitative growth of antagonism
between**

the Church of Rome and the Eastern Christian Orthodox.

Comparative, doctrinal differences between the Congregation of Israel/the Apostles and the Church of Rome/ the Idumean/Edomite are beyond the scope of this presentation. However, the Catholic Church's Ecumenical Councils, like the Council of Trent, Vatican I, and Vatican II, should be studied as Esau's evolving objectives to gain independence per Genesis 27:18-40.

**The spiritual foundation on which rests Esau's
Manifesto**

Genesis 27:18-40 presents the exposition of the interplay between the Holy See/Vatican/the Holy Roman Church on the one hand; on the other hand, the Jacob's blessing: the Congregation of Israel/Pentecost Sunday/Birth of the Christian Church/ Eastern Christian Orthodox.

How the Roman Empire created the Idumean as a political category that allowed the Edomite and other racial groups to seek protection under Rome's ultimatum either unite without displaying religious or cultural differences or die immediately by the sword.

The Maccabees or the Hasmonean Dynasty influenced Rome's decision to issue the injunction against the Edomites and different Hamitic tribes to either embrace the Judean religion or submit to death. Like the Hasmonean Dynasty, the Romans wanted to end the Grecian Empire by eliminating those groups and regions, pushing the divisiveness of Hellenism.

The forced amalgamation into the categorized Idumean included the Edomites, Moabites, Ammonites, and Hamites.

Later in history, the Idumeans, having established a base in Rome and became Roman citizens, actively encouraged Judean Christians to be fed to lions for sports entertainment.

History repeats. Emperor Constantine wrote the law of death to anyone who opposed the Ecumenical Council's Canons. The Edomites always fought for separation from the Israelites when convenient.

Having suppressed political conflict in religion, the Eastern Orthodox Christian Empire existed longer than other historical empires preceding it, over eleven hundred years. Yeshua equipped the Byzantine government with advanced weaponry to fend off **endless** attempts 1:03 by heathens to overthrow Constantinople, giving time for international commerce law to mature for protecting international trade and enforcing contract law.

The modern international law of commerce rests on Byzantine's legal tenets. A few of the Ten Tribes of North America traded with Constantinople. History has repeatedly shown there are those, regardless of the region in the world and periods, seeking to destroy higher degrees of civilization because they lack the ability and the means to create and sustain social progress.

**The Holy Roman Empire would have remained poor
Without controls over the state's military might.**

The Holy Roman Empire realized with each passing century that they would never achieve comparative levels of social and religious development as the Eastern Christian Orthodox regime. Holy Rome's prophetic solution came in the prophetic blessing of Esau.

- *By your sword you shall live, and you shall serve your brother; but when you break loose, you shall break his yoke from your neck."* Genesis 27:40

The Great Schism of AD 1054

As prophesized, it was a matter of time before the Edomite would become strong enough to break free from Jacob's descendants influence.

One of the first signs of this eventuality appeared in AD 1054 when the Church of Rome separated from the Eastern Christian Orthodox Church.

The pathway to destiny

Nicholas V, the Bishop or Pope of Rome, saw the Ottoman Turks capture Constantinople on May 29, 1453. Sultan Mehmed II, 21 years of age, commanded the attacking Ottoman Army that

placed a 53 day siege around the city. Historians have shown circumstantial evidence that the Bishop of Rome assisted in the fall of Constantinople out of self-interest according to biblical prophecy.

The Agreement between the East and West

“And the time shall come, when thou shalt shake off and loose his yoke from thy neck.”

Finally, the Edomites claimed Western Europe as their land of freedom. The Pope of Rome and the Eastern Christian Orthodox Patriarch came to a jurisdictional agreement not to cross the line that separates the East from the West.

Muhammad’s covetousness goal to take Constantinople

As a historical note, in the late six century or early in the seven century, Muhammad stated his desire to conquer Constantinople because of its wealth and high degree of civilization. Mohammedanism modus operandi to capture desiring possession of others using force.

Since Islamic countries came to Constantinople to trade, did they ever think about creating a different trading center? Mohammedanism captured Jerusalem and many Judeans on the run in Africa. In Mecca, Islam finally found its religious symbolism in the Kaaba Stone.

The Fall of Constantinople and the rising influence of the Idumeans.

In total disbelief, why did it happen? For sure, Constantinople had the resources to prevent its fall. Hasten to say, time and time again in history, the fighting camp with the most resources should have won the war. One example is the fall of the Persian Empire to Alexander the Great. What an epic military battle of all time, where over 500,000 soldiers were on the battlefield at one time, with the Persians outnumbering the Greeks.

Alexander the Great acted on faith. He was shown in the book of Daniel about his future victories, his death, and the four general who would divide his Empire.

From all indications, Constantinople’s fighting force came to the painful realization of their fall. Then, efforts were made to ship all the city’s treasures to the land of Russia, where the government and Eastern Orthodox Church would protect it. Because of the enormous wealth in the city and time restriction of the pending fall, a tiny fraction was shipped to the territory known as Khazar, a Danite Jewish Empire.

Constantinople fall per Yashua’s proscription— “you left your first love.” Revelation 2:4-6

a) ^{2:4} *Nevertheless I have somewhat against thee, because thou hast left thy first love.* ^{2:5}

Remember therefore from whence thou art fallen, and repent, and do the first works; or else I will come unto thee quickly, and will remove thy candlestick out of his place, except thou repent. ^{2:6} *But this thou hast, that thou hatest the deeds of the Nicolaitans, which I also hate.*

“Seek ye first the kingdom of heaven and the rest would be added.”

The Eastern Orthodox Church served as Yeshua’s template letter to Ephesus. Revelation 2: 1-7

The Eastern Christian Orthodox Church took missionary work to the next level by converting primitive spoken tongues into written grammatical syntax. Today, the Russian language comes as one of the first milestone of missionary work. Likewise, missionary work included other tongues. Moreover, individual books of the Bible were converted into local tongues.

The classical languages, Greek and Latin, commonly taught and understood in many regions of the world gave students freedom to read the Bible as lay ministers.

b) ²² *I know thy works, and thy labour, and thy patience, and how thou canst not bear them which are evil: and thou hast tried them which say they are apostles, and are not, and hast found them liars: ²³ And hast borne, and hast patience, and for my name's sake hast laboured, and hast not fainted. ²⁴ Nevertheless I have somewhat against thee, because thou hast left thy first love.*

Russia, as known today, did not exist during the Byzantine’s developmental apex. For the most part, Russia’s history is known as the Khazar Kingdom. Like all other kingdoms, nations emerge slowly after prolonged tribal wars regardless of defeat or victory. The search for a better way of life pushed the migration movement to seek food and, out of necessity to, form alliances with other tribes for territorial protection. Climatic conditions and diseases are considered in the mix that drove tribes to different locations and to form alliances independent of their will. So, to varying degrees, the pattern repeats until a critical stage of knowledge is obtained to manage societal growth and well-being better, as proven when trading outside territorial groups with other regions.

The Khazar Kingdom, or the Jewish Kingdom, emerged and ended around AD 956 from the evolutionary pattern.

A teachable moment

When the Elohim bestows **covenant** blessings, they **are planetary in scope**, although time moves in gradation according to biblical prescriptions. Each circular period of history, telescope-stepping, is seen as either realization or materialization according to biblical prescriptions. Often, timely telescope-stepping each period takes hundreds and thousands of years for prophecy to ripen in direct correlation to the Israelites’ degree of generational maturity.

Understandably, generations lose track of time for different reasons. Still, those who are taught within their Christian community are given signs for high-watched days for us to know the season and to realign with the correctness of the Scriptures.

Isaac Blessings' to Jacob and to Esau are programmatic outlines of history.

^{27:39} And Isaac his father answered [Esau] and said unto him, Behold, *thy dwelling shall be the fatness [surpluses of others] of the earth, and of the dew of heaven from above [organized religious bodies];* ^{27:40} Shall thy blessing be. Thou shalt live by the sword [using arm might with and without governmental consent] and shalt serve thy brother[Jacob/Israel]: and the time shall come, when thou shalt shake off and loose his yoke from thy neck [The Great Schism of AD 1054 or the Vatican vs. Christian Israelites]. Genesis 27: 39 &40

Church and State

“Your dwelling shall be the fatness of the earth, and of the dew of heaven from above.” Esau, or the Idumeans, had an established religious base in the city of Rome when Imperial Rome fell. By default, the Edomite clerics used Imperial Rome’s instruments to reorganize Western Civilization around Roman Catholicism. Look. The Idumeans spoke like a dove but used European monarchs as their military arm.

Spiritual deprivation

Despite efforts to ignite a spiritualized revolution in Christendom, Holy Rome encouraged the Crusade movement; people of towns and cities walked from Europe to the Holyland to see the landscape, sites, and buildings where biblical actors contributed to the Scriptures.

The intentions of the Crusades were legitimate and yielded many beneficial results, planned and unplanned, for advancing European civilization. Still, Roman Catholicism could not sustain the doctrinal oil in its lantern for an enlightening walking pathway. The Vatican was spiritually bankrupt.

The Idumeans instituted various paganistic rites, like selling indulgence—buying oneself out of purgatory, hell. Knowing that one could be saved by money, people had the green light to sin.

The Vatican emerged as the “Little Horn” and was given 42 months to live according to Revelation 13:5-6 and Daniel 7:8. Pope Pius VI fulfilled the prophecy when he was taken prisoner and died in France.

The Spiritual Consciousness of Martin Luther.

To Luther, he appeared in history by chance. To the Elohim, he came as planned. By chance, Luther read from the New Testament and discovered salvation by grace is given freely. No one can do anything to earn salvation; when Yeshua died, he granted salvation willingly. Although one’s good works are essential and confessed sins are required, they don’t qualify for given grace. Luther

concluded ***Justification by Faith***. He hit the nail on the head. He was led to do good works by translating the New Testament into German, giving way to the Protestant Reformation. As Europe cut ties with Rome based on spiritual interpretation, the Thirty-year War between the Lutherans and Catholics involved many people who took sides in the War, claiming millions of lives to prevent Rome's re-gripping control over Europe.

The Protestant Reformation's Esoteric meaning.

One of God's mystery revealed. For so many of us, we have all wondered who all will be saved.

Who is included in the pre-selected since the foundation of the world.

- c) *Before the world was created, God had Christ choose us to live with him and to be his holy and innocent and loving people. Eph. 1:4*
- d) Then shall the King say unto them on his right hand, Come, ye blessed of my Father, inherit the kingdom prepared for you from the foundation of the world. Matthew 25:34
- e) That he might present it to himself a glorious church, not having spot, or wrinkle, or any such thing; but that it should be holy and without blemish. Ephesians 5:27
- f) Ye have not chosen me, but I have chosen you, and ordained you, that ye should go and bring forth fruit, and *that* your fruit should remain that whatsoever ye shall ask of the Father in my name, he may give it you. John 15:16
- g) That Christ may dwell in your hearts by faith; that ye, being rooted and grounded in love. Ephesians 3:17

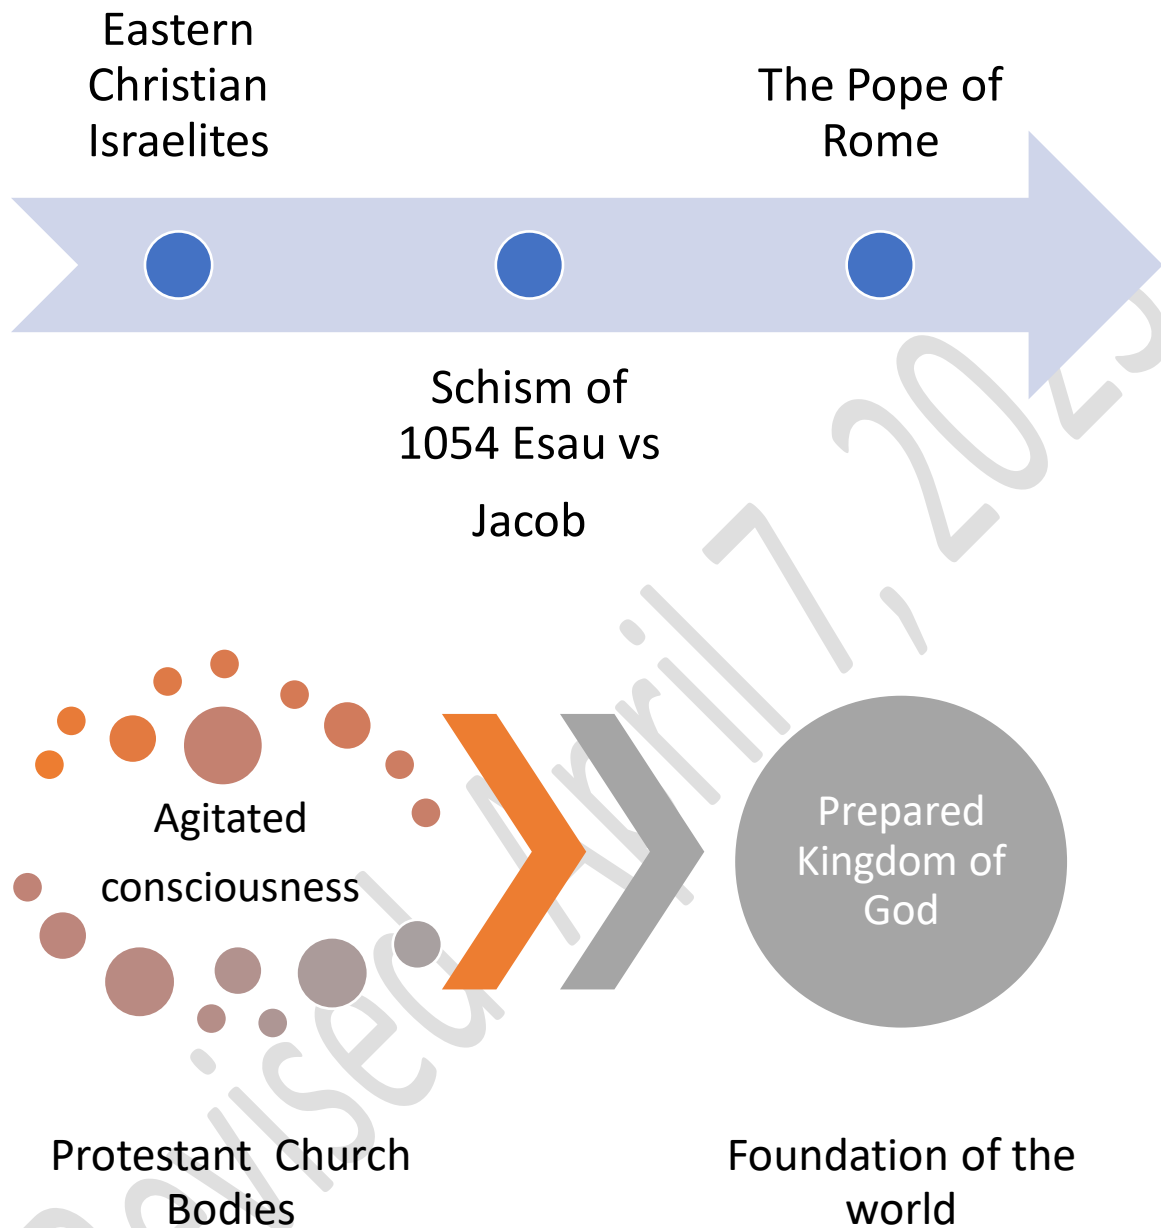

When considering Genesis chapter 10, the Table of Nations, informs us of the seventy patriarchs and geographical locations. History tells us that many of the Seventy Nations worked contrary to the spirit of righteousness.

Along the theoretical lines, what are the numbers of Shem, Ham, and Japheth that make up the Seventy Nations. For example, Shem 27, Ham 23, Japheth 24.

Not by man's good or bad deeds should be the final determinant in the pre-selected. Using the measuring cup of the Holy Spirit to determine ones place in the Kingdom of God. On the other hand, The Judahite has repeatedly encourage the Congregation of Israel to pray for the Holy Spirit to reveal their tribal identities. Scripturally, we know that Jacob received the divine gift to be God's representative of his high moral standards to the nations of the world.

Out of anguish, Martin Luther spiritually knocked on heaven's door and the Holy Spirit came in to feast with him, giving him spiritual insights of his being one selected from the foundation of the world. ***Justification by Faith***. Therefore, Martin Luther, as an individual, serves as the archetype.

Now, consider the relations:

The Protestant Reformation came as an expression for the Gentiles to know that they have a reservation in the Prepared Kingdom of God. Therefore, many Protestant Churches were doctrinally formed proactively anti-Roman's doctrine and practices.

- a) That Christ may dwell in your hearts by faith; that ye, being rooted and grounded in love. Ephesians 3:17
- b) Ye have not chosen me, but I have chosen you, and ordained you, that ye should go and bring forth fruit, and *that* your fruit should remain that whatsoever ye shall ask of the Father in my name, he may give it you. John 15:16

The Council of Trent

The Protestant Reformation forced the Vatican to convene the Council of Trent to reform its doctrinal views or lack thereof to confront and neutralize Martin Luther and his Ninety-five Theses.

The Little Horn's demise AND

The re-emergence of the Second Little Horn with the Beast

Out of reaction to the Islamic presence in Jerusalem and control over the city, the Knights of Europe waged war against the Islamic caliphate to restore Christian control over Jerusalem.

Ignatius Loyola came to Jerusalem expecting to see only a Christian present controlling the city; seeing otherwise, he fell into spiritual depression and knew he had to put his military experience to use by expelling Islam from the city. Church officials looked upon him as an extremist.

When he returned home to Spain, he engaged in a sanctification process requiring many years. As part of the process, he formed the Society of Jesus, known as the Jesuit, to do missionary work around fashioning higher education of learning. Although a Catholic religious order, its charter's scope encompasses clandestine military operations guided by gathered intelligence. While serving the Pope, the Jesuit's charter is independent of the Pope and all forms of organizations. They follow the teaching of Jesus and hold no absolute allegiance to any organized body.

Working in collaboration with Freemasons, Napoleon's General arrested Pope Pius VI and held him as a prisoner because he refused to give up *temporal power*, giving up political control over governments through monarchs. Having refused, he died in prison, as foretold by Daniel 7:25, fulfilling 1260 days. Napoleon held another Pope prisoner, Pope Pius VII, until he signed the Concordat of 1801, divesting the Vatican of its political control over society monarchs.

America, the Rise of the Second Little Horn and the Second Beast's System.

- c) *“And I saw another beast coming up out of the earth, and he had two horns, like a lamb, and he spoke as a dragon.”* Revelation 13:11

The Edomite/Idumean uses the **reverse disguises**, knowing he can dominate Israel's children. Genesis 27:22-23.

A Spiritualized Archetype to Disguise a Divine Blessing OR A Blessing in Disguised

^{27:22} And Jacob went near unto Isaac his father; and he felt him, and said, the voice is Jacob's voice, but the hands are the hands of Esau. ^{27:23} And he discerned him not, because his hands were hairy, as his brother Esau's hands: so, he blessed him.

Contrary to Esau's reactionary anger, we must consider his modeled personality. Firstly, Esau valued satisfying his flesh over and against his divine treasure. He sold his birthright to Jacob for food. Later, Jacob cashed in his investment. Secondly, Esau took Hittite wives, Judith and Bashemath, giving grief to Isaac and Rebekah. Seeing their displeasure, Esau married one of Ishmael's daughter Mahalath. Genesis 28:6-9).

His parents knew his wives were not of the righteous seed. Yet, another example of Esau's lack of discernment; therefore, his birthright was useless. Still, Jacob gave Esau hundreds of animals as a brotherly gift in the interest of family harmony.

The Edomite Unites with Cleric Dan after 42 months Foretold Revelation

Two popes. The White Pope is characterized by wearing white bishop clothing. The Black Pope, a Jesuit, is distinguished by black cleric dress. The white clothing symbolizes the Vatican Edomite. Yet, mutually legitimizes each other, the Popes have opposing spiritualized agendas.

In 1825, Nat Turner, the Asherite, had a vision about *“white spirits and black spirits engaged in battle and the sun was darkened. And a voice says Such is your luck, such you are called to see, and let it come rough or smooth, you must surely bare it.”*

About the Jesuits

Dan I

- A. The founders of the Order were Danites. They established their mission charter from their direct experience. Those who went through the pre-requirements and passed became members. Not all Jesuits wear black clerical clothing, and not all Jesuits are Danites. The Order has transgenerational programs and policies.
- B. In their missionary work, the Jesuits should be considered as the Marines. Their accomplishments are legendary. They are credited as the cornerstone of higher learning in Russia, China, the USA, and many places worldwide. They possessed the gifts of tongues. They could understand many spoken languages and dialects and transform them into written form. Also, they translated necessary materials and taught languages.
- C. The Jesuits always had a distaste for monarchs because they governed without rational degrees of knowledge.
- D. A Jesuit was one of the signers of the Declaration of Independence, signaling the start of the American revolution.
- E. The Dan, the Jesuit, always acted timely regarding Judah's role in America's prophecy. For example, they included Judah in the layout of the District of Columbia or Washington, DC. The Jesuit commissioned the Capitol and other construction buildings in the District of Columbia to involve Judah. Set up the pilot training center at Tuskegee to involve Judah.

Dan shall judge his people, as one of the tribes of Israel. Genesis 49:16

Judah built the Jesuit's White House. Dan rules the Israelites worldwide from Washington DC, the City of London, and the Vatican.

Dan II

Tribal Dan has Guided Transgenerational Executive Branch Policies of America and other nation-states.

In the days of the telephone invention, a line ran from the White House to the Maryland Catholic archdiocese.

Additionally, the Jesuits had a direct hand in the American Revolution, American Civil War, and the French Revolution.

Dan III

Banking and Financial institution.

Tribal Dan is sectionalized into three major divisions. One. The religious or ecclesiastical. Two. Banking and financing. Three. Executive-level legislative policy.

Pope Francis the Jesuit, The Danite of the Hour

Pope Francis consecrated Russia to the Immaculate Heart of Mary on March 25, 2022, and Ukraine. For the first time, the names of Russia and Ukraine were announced on March 25, 2022. The previous two times, the names were omitted.

Pope Francis is the first Jesuit Pope, a mark of distinction from other Popes. Russia is included in the Third Secret of Fatima, signaling the time for Europe's chastisement.

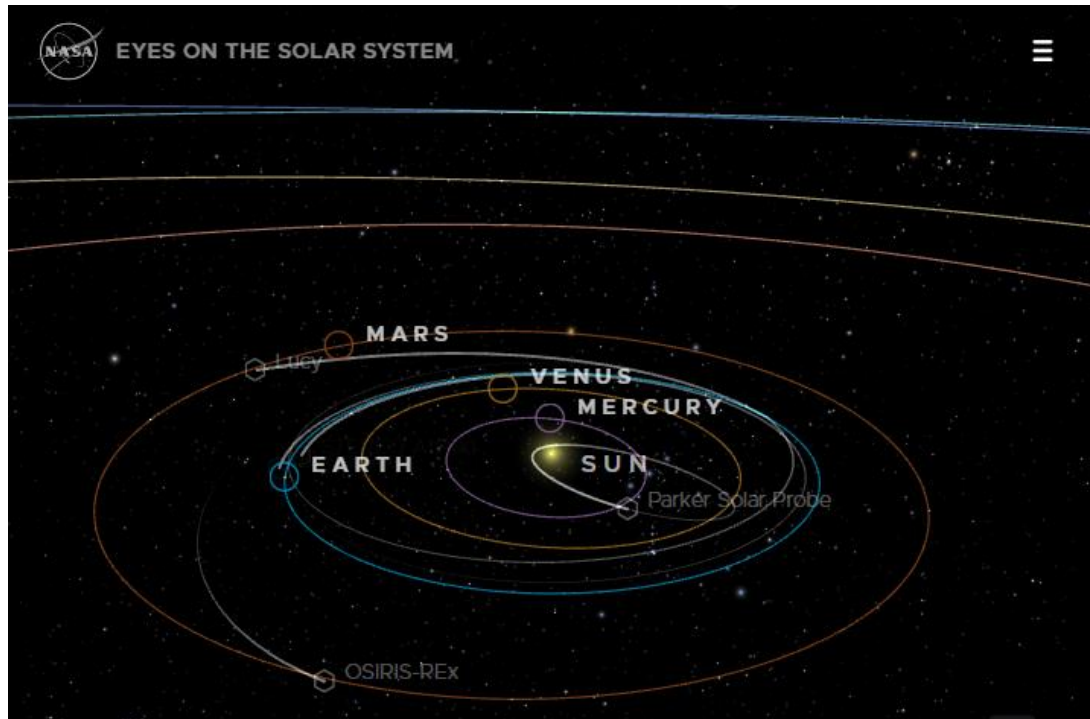

The conclusion of this presentation is straightforward. However, factual circumstances are noted herein as an aid against idealistic notions.

One. All earthly events occurring worldwide center around Israel's exilic return to the Lands of Promise. Many processes are in motion toward a new world order under the tenets of the "Stone Kingdom." Before the end of the millennium, the Executive Body of Israel has a four-hundred-year milestone date to reach.

Two. Look. The Edomites or the Vatican Idumeans were given signs of their future to round off Isaac's programmatic purposes of his Hittite's wives. The Three Secrets of Fatima disclose the purposeful outlined disguises of the prophetic **voices** and **bodily hair on man and animal**. The Secrets intend to show Esau's descendants their spiritual errors of having embraced, in part or whole, paganism and heathenism and turn to repentance before the God of Jacob.

Three. The Third Secret is about **the Pope consecrating Russia and Ukraine to the Immaculate Heart of Mary**. Russia is now assigned to act under Jeremiah 51:18. **For such an extraordinary assertion**, over seventy thousand people saw the sun moving toward the earth on a collision course, compelling people to run and scream out of fear. Yes, the power of the Elohim is incomprehensible.

Four. The sign appeared in 1917, the year of the Russian Revolution that birthed socialism, ending 300 years of monarchical rule.

Five. On the exact timeline of history, the Vatican, the Danite Russians, the Jesuits, the Jesuit Pope, and the Executive Body of Israel were given a pre-appointed destiny date delivered by the Man-child.

Six. *“July 4, 2014, Pope Francis Declares War on Obama via his private attorney. Pope Francis asserts civil authority over the United States of America and assumed command of the U.S. military.”* The Pope issued notice to *“all members of the Domestic Police Forces, US Marshals Service, the Provost Marshal, Members of the American Bar Association, and American Armed Services. He appointed General Carter F. Ham to lead and command The Grand Army of the Republic and its successors under the guidance of the Joint Chiefs of Staff and with their full support.”*

Paradoxical Disguises in Covenant Blessings Pertaining to Esau: Three Days of Darkness.

When the Elohim bestows covenant blessings, they are planetary in scope. The Vatican views three days of darkness differently from the Congregation of Israel’s expectations. Not to be confused, the three days of darkness are not explicitly related to the Third Secret of Fatima.

However, the Congregation of Israel’s traditional view of three days of darkness is related to the exodus of Egypt. Exodus 10:22.

- *“And Moses stretch forth his hand towards heaven: and there came horrible darkness in all the land of Egypt for three days.”*

The Roman Catholic Church views the coming three days of darkness as parallel to the exodus of Israel. As an analogy, the righteous within the Roman Catholic Church must vacate their membership because the Edomites' operational blessing will expire soon.

Isaac did not leave an open-ending blessing for Esau because the end times, according to Abraham, were assigned for Israel to return after 400 years of bondage from Egypt America. Either metaphorically or in actuality, the three days of darkness are designed to re-orientate the righteous within the Catholic Church to depart, pointing them to the Congregation of Israel as their doctrine of faith.

- *No man saw his brother, nor moved himself out of the place where he was; but wheresoever the children of Israel dwelt **there was light**. Exodus 10:23.*

Further:

- *"I also withheld the rain from you when the harvest was three months away. I sent rain on one city but withheld it from another. One field received rain; another without rain withered. Amos 4:7*

On the other hand, the Israelites hold the expectation:

- *And the fifth angel poured out his bowl on the throne of the beast, and its kingdom was plunged into darkness, and men began to gnaw their tongues in anguish. Revelation 16:10*

"And the people stood afar off, and Moses drew near unto the thick darkness where God was." Exodus 20:21
