

Biblical Nine Finalizes Questions of Contention.

**Many procedural steps are attached to the examinations and investigations of all aspects of a situational matter for deliberative Decisions.
But not necessarily their administration.**

On March 9, 2022, **The Judahite** petitioned the Magistrate of the Second Heaven for relief in part or whole for an accelerated Action Order permitting the Judahite and the Executive Body of Israel lateral flexibility to organize a transitional administrative system of governance without any interference. COVID-19 and Omicron were cited as precedents. According to the regulatory code Isaiah 65:24, the Court granted the petition before the scheduled court hearing.

Still, at 10:23 pm, the scheduled hearing convened. The Judahite presented a discourse on three conditional data points on which to grant temporary relief to The Judahite. The Magistrate honored the petition.

**The Judahite made relief date assumptions after the Court's Decision did not
Arrange for the Decision's timely administration.**

A review of dates, The Judahite submitted his petition to the Court back on March 9. But February 9th is the time date for commencing data synthesizing. As the established pattern, the tri-months, Feb, March, and April, transfer facts, findings, and conclusions to May, in which the month of Pentecost starts the real-time phased-processing of spiritualized pledges. Thus, the seeming delay is part of the Second Heaven's court proceedings of Pentecost.

Nine is not used herein as a theoretical abstract devoid of contents. The Judahite uses spiritualized arithmetic nine as the representative date for actualizing the Court's Decision without recounting the trimonthly details within the exceptional occurrences.

February 3 date encapsulates the kernel that depicts the basic triangular conclusions for settling the issue of time-release resources for the Executive Body of Israel to step-up departing efforts. When using 3 in multiples, we see $3 * 3 = 9$. Or $3 + 3 + 3 = 9$. 3 is the square root of 9. Thus, we start with the intensification of three to arrive at biblical **nine**.

February 9, The Judahite used the applied concepts: **a)** look to accept driven outcomes of a process vs. one-time acts done in separation, independency. **b)** acknowledging a personal blessing as a gift from heaven and working to develop the gift. **c)** The Judahite heard the oath repeated over the tri-months regarding the Congregation departing to the Lands of Promise with great substance or great riches.

Summary

May 9, 2022 is the starting date for the three-phased administration's implementation.

Since the First Prophetic Date of May,
Dramatic, supernatural events continue to push us
toward
May 27, 2022
