

# Calendar Updates

## Received October 25, 2023

### October, December, and January

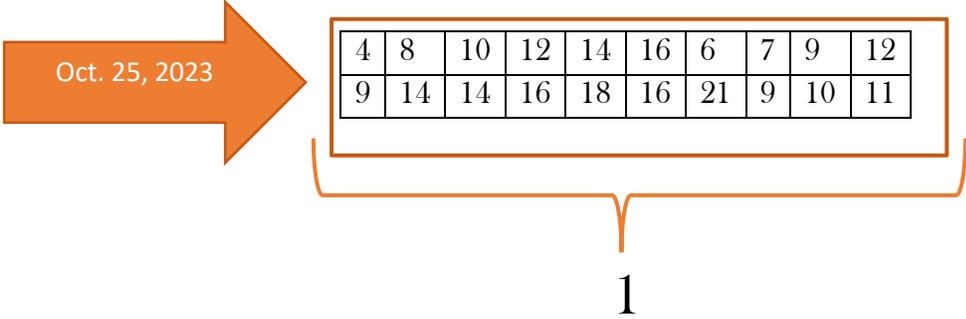

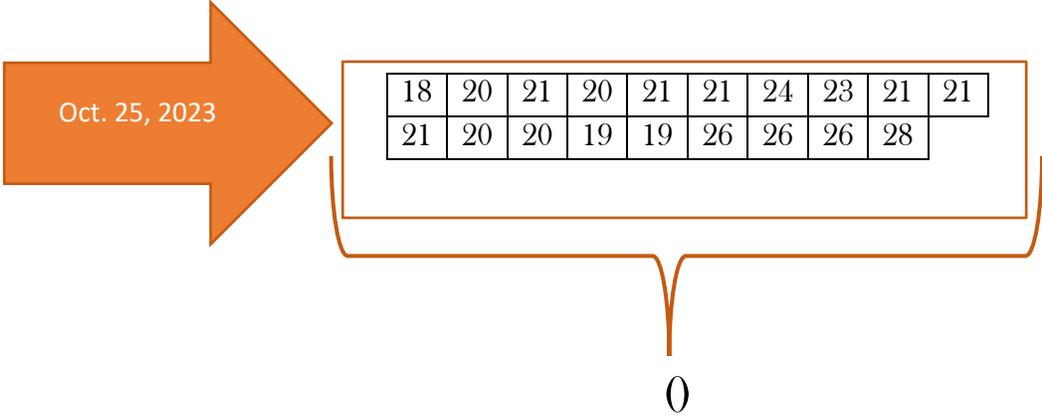

No mistakes and no confusion. The Judahite received two calendar Updates on October 25. Naturally, all eventful calendar dates are only seen by some for different reasons, but the essentials will be unsealed and known to all over time as related to one's involvement as a successor or predecessor in appreciation for an elevated view; otherwise, those who seek to know everything in the totality of each calendar day will have data that they cannot process.

Many processes occur on different levels, open to some and closed to others. Still, the calendar dates allow everyone to build a personalized database to draw theological clarity and prophetic validation. Some people need more repetitive reminders than others based on their organizational experiences in civic activities and community work around political issues; for this reason, the significance of calendar dates is at one's fingertips, with the requirement to focus on studying and summarizing for knowledge enrichment; otherwise, one will seek phenomenon without essence—form over contents.

One should expect simplicity and complexities as we transition to the Promised Land for constructing the Commonwealth of Israel. Without question, our doctrinal philosophy is easy to understand in a complex world of deception and fraud regarding the end times. The Messianic people have an agenda and will continue to form and organize sustainable support systems because the realities shall continue to expand in complexities that will continue to demand specialization in the recreation of a new world order per the **STONE KINGDOM**.
