

# Calendar Updates

## Received May 28 and 29, 2024.

### For May, June, and July.

The updates, primarily a summary of May's events, are not just facts. They are Reviews with progressive features important as components of other prophetic processes or as stand-alone entities.

It's essential to revisit the summary dates. Understanding often comes from looking backward or at history, as it provides us with the context and relevance of the events.

For instance, The Judahite received a certificate of validation for events of May 19, 2024, and again on May 20, 2024, regarding the death of Iranian President Ebrahim Raisi, the Foreign Minister, and several officials. The Court of Heaven, the authority behind our prophetic processes, confirmed the event, thus sanctioning it according to the end-times prophecy.

#### What is new

Those transitioning into the millennium are being introduced to the new and exciting theocratic science, as seen in the calendars and calendar review summary. This science enables a comprehensive understanding of processes with all their interconnections. Each historical process has its own unique stages of growth, leading to significant qualitative milestones. As these qualitative states evolve, they eventually align with and support society's new or emerging trends.

Theoretically, May had different operands, and the physics was within each calendar date. The operand number interpermeates each number, giving us advanced knowledge of the interconnectedness, the number with companions to all the numbers in the calendar month, and calendar updates.

$$\underbrace{[x, x, ,x, ,x]}_5$$

For the Review Summary, Court of Heaven gives us the monthly features with a different operand. Another indication is that though we cannot see all that occurred during the month, we can see the resulting features and the outcomes.

**Updates are coming for June and July.**

Update and Review for  
May 2024
