

Updated Calendar Dates July, August, September and October 2023

We must always be mindful of multi-level processes in motion, simultaneously forming transitioning building blocks for sustained energy while moving step by step upward above the old- in fashioning the Commonwealth of Israel's formation. Working on the Commonwealth of Israel foundation requires working within two processes simultaneously in forming the NEW and deconstructing the old social order mentally, psychologically, and spiritually.

In purview, the correct perspective of July 6th & 7th is timely ordered for reorganizing the transitioning. Since 2016, the Congregation has reached milestones under the appointed Feast Days. Also, the Congregation witnessed **statutory prophecy harmonizing with the Covenants' articles.**

The purview gives us a much broader scope of history; since 2017, The Judahite and the Executive Body of Israel have exercised prophetic authority over the land of Israel, having the objective phased transitioning after the fourth generation with the expectation of taking home monetary assets for constructing the Commonwealth of Israel.

Making ready psychologically and spiritually, Soundwave25 appeared in 2020 to complete Yeshua's Mission Statement.

Yeshua's **heat-wave-sound**, heard by The Judahite in 2020, depicts a technology not found on the Earth. Soundwave25 came with a Mission and departed after satisfying Yeshua's Mission Statement.

In summation, consider July 6 & 7 as the conclusive phase of the Mission Statement. As such, the 6th & 7th of July are included as the hottest recorded days on the Earth; the thundering black clouds caused an electrical black-out in which people had to live in the oppressive heat without air conditioning.

The **oppressive heat** forced some people to reorganize themselves mentally, knowing the expression of heat is a **preview of long duration without relief.**

As a well-established fact, fire and its expressive forms, including steam, is God's triumphant statement over man's attempts to override and sabotage his servants' task mission.

Consider the Chaldeans' conspirators to put Shadrach, Meshach, and Abednego into the inferno. The three Judahites walked **into** an inferno as conspiratorial punishment. Instead of dying,

the three walked around in the inferno praising God in the company of a fourth person, whom many believe was Jesus. Indeed, as Daniel stated, the Chaldeans' gods have been and will continue to be consumed by FIRE, an attribute of Israel's **living God**, who hates falsehood.

The technology of heat and fire draws members of Judah together in purpose while driving the unrighteous away and apart toward their purposely depletion.

On July 13, 2019, a blackout occurred in New York City, forcing people to sleep outside due to non-air conditioning. The supernatural sign combined with the statutory prophecy regarding the Israelites departing with monetary assets in the Fourth Generation. Before July 13, The Judahite went to the Federal Reserve Bank of New York with a **judicial writ** wherein the legal department had to engage. On the other hand, prophetically, the trillions in monetary assets held by the Bank will be transferred to the Executive Body of Israel in Exile.

Overall, July 6 & 7 represent historical punctuation, the blackout timing for reorganizing under the oppressive heat to allow the Executive Body of Israel in Exile the jurisdictional latitude per the Covenants' articles.

July 6 & 7 give us insight into the heat, the consuming fire, as the instrument shaping the transitioning imprints for translocation to the Lands of Promise. From the old days, fire retains its chemicalized universal characteristics of devouring and absorbing, fundamentally necessary for re-organization to bring about a new sustained social order.

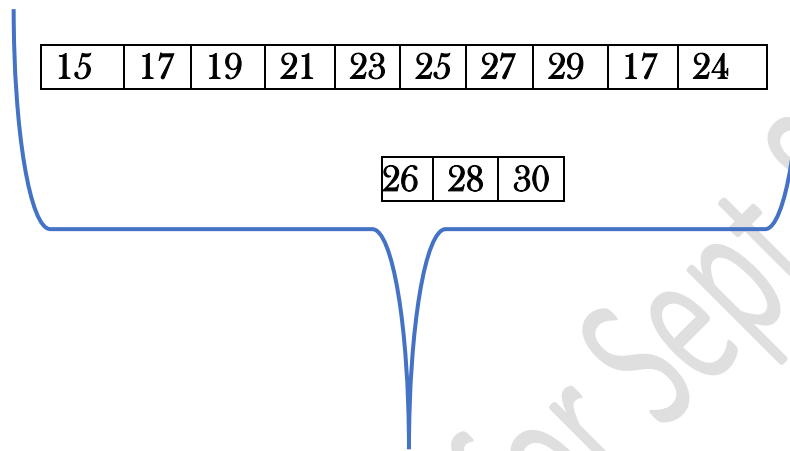

- a.) "Then, I saw an angel standing *in the sun*, and he cried out in a loud voice to all the birds flying overhead, "Come, gather together for the great supper of God. Revelation 19:17
- b.) Given the days of record heat, The Judahite takes a moment to acknowledge the HEAT, the temperature above 105 degrees, used by tribal Judah to subdue the Western Hemisphere in the interest of capital accumulation, the capitalism's foundational economics. No other race can do a strenuous workday over a thousand years in extreme heat 100⁺⁹. Heat strokes still take the lives of many people who do not take the necessary precautions.
- c.) Blackouts combined with FIRE's forms of expression, causing chemical reaction absorption, will be used as the tool in the hands of the Congregation to continue the transition.

To conclude, Soundweave25 returned to its origin on July 6 & 7 under the planetary heat and blackout, marking the processes' sufficient level of maturity to sustain reorganizing and re-arranging task mission transitioning.

Magistrate's Calendar Dates

Magistrate's dates can be considered taglines and milestone events in the going and coming toward our short and long-range transitional objectives. The calendar dates are dynamic events: conditional circumstances in which the Congregation is in reaction to and simultaneously the Congregation moves proactively, subjectively, and objectively in a pre-outline design per the Stone Kingdom that will have no end.

Incoming Calendar Dates Arrived on July 12, 2023 for September 20223

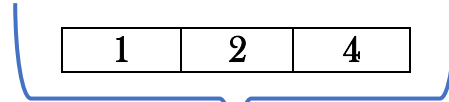

Operative 1
