

Feast of Atonement August 21, An extended discussion.

People desire to know the future for an array of reasons. However, without illusions, the Congregation of Israel received appointed Feast Days to understand where we are going within a seven-thousand-year cycle.

The Judahite has presented discussions on the meaning of Atonement from the American experience because Ephraim-America's destiny was known to be one of the greatest empires on the earth.

As foretold by Abraham, Jacob, Moses, Solomon, Ezekiel, Isaiah, Jeremiah, Daniel, Hosea, and other prophets, Ephraim-America would become one of the greatest empires on the earth. Therefore, the American experience has prophetic significance, and The Judahite elevates Atonement to its prioritized role in the American exodus.

Daniel gives a representative man model of all social systems to emerge among the Gentiles. Next, the Elohim assigned tribal Asher the task of illustrating the rise, development, and decline of all-powerful empires on the earth to complement Daniel's model.

Tribal Asher is the biblical administrator; he neither adds nor subtracts from the Bible, only using the skills provided by the Elohim to ground his illustrations in the concrete realities of the time. Ensuring there will never be second-guessing about the evolving future, Asher appears at the beginning of each of the mightiest empires to illustrate their future. Therefore, we embrace Asher's illustrations with confidence.

As in the case of Nat Turner, an Asherite, he did not appear with ecclesiastical titles like Bishop Eusebius but as the feet and toes depicted by Daniel Man Statue. Still, Nat's illustrations were not fully validated until after the arrival of The Judahite. Hence,

“God purposely chose what the world considers nonsense in order to shame the wise, and he chose what the world considers weak in order to shame the powerful. He chose what the world looks down on and despises and thinks is nothing, in order to destroy what the world thinks is important.” 1 Corinthians 1:27-28

The Judahite has discussed the Americanized Feast of Atonement in a lengthy version; therefore, there is no need for rediscussing. However, in keeping with the thrust of this presentation, only the anchor points will be given as date indexes to enable a seamless flow of Atonement into the Feast of Tabernacle.

Yeshua is the foundational principle of Atonement.

When correctly understood, our knowledge deepens more and more about the roots of Atonement. It is well established that Yeshua embodied the Feast of Atonement. In the Garden of Eden, Yeshua rendered the Edenic Judicial Decree into a two-division, representing the Serpent and Adam, whose seeds would always be mutually entangled. The Serpent will always seek to crush the head of Adam's descendants, who naturally hold to the Elohim's promise to re-integrate Adam's seed within the heavenly Council.

Thus, as a rule, those embracing the Elohim will always seek to cut the Serpent's descendants' heels—immobilizing their lies and murderous lifestyle, as seen with Cain and Abel.

The two adjudicated divisions explain the programmed approach of Atonement in the American experience. Consider the scapegoat going into the wilderness:

- *But that whose lot was to be the emissary goat, he shall present alive before the Lord, that he may pour out prayers upon him for atonement and let him go into the wilderness.* Leviticus 16:10

The Elohim sent his prophets to teach us. Jesus was the emissary goat who accepted the sins of all. Yeshua's death and resurrection must be seen as part of the changed perspective as the scapegoat doctrine of atonement.

The twelve minor prophets teach us knowledgeably about their missions as encoded in their names. Consider from Hosea to Malachi as being Theocratic constitutional amendments, supplemental to the major prophets.

Look. Hosea's name means in the Hebrew Bible. "He who shall deliver or bring salvation and redemption." Zechariah's name means "God remembers." Malachi's name means "my messenger."

From Malachi to Matthew is marked by the time of four hundred years.

Yeshua arrived on his first coming as the **Savior** and ascended as the **Redeemer**. Thus, the Serpent's strategic aim is no longer to use preventative techniques to crush the head because the light of the world arrived and shines all over the world in all dark places of hopelessness, as credited to Yeshua, who conquered **death**.

At Christ's Ascension, Parties of the Edenic Judicial Decree changed positions.

Yeshua's second coming forecloses on the Edenic Decree. The Redeemed in Christ are now playing the principal role. They are holding the upper hand, making it possible to immobilize the Serpent's descendants' heels whenever possible. Next, the purified [Tabernacle under the New Covenant becomes the theocratical basis of Yeshua's earthly kingdom.](#)

Turner called upon to certify the "Great Work"

The Judahite often references Nat Turner's trustworthy Feast of Atonement's illustration because being from tribal Asher, who is biblical administrator. The Asher appears at the beginning of all powerful empires to illustrate their life cycles. At the start of the Eastern Roman Empire, Asher appeared and gave rise to the Byzantine Empire that existed for over eleven hundred years.

After the American Declaration of Independence, Turner came upon the American stage correlational to President Andrew Jackson, the seventh president of America, as the opposition to imperialism. Currently, America and China benefit the most from the social system of imperialism.

Being tutored by the angel Raphael, Turner received solar and lunar eclipses as signs indicating when to commence the "**Great Work.**" The Great Work means the Feast of Atonement, the disassociation from immoral behavior.

Due to 1 Corinthians 1:27-28, Turner's Rebellion remains grossly misunderstood by many until this present day. Though, factually, not a problem because his mission is fully understood by the assigned person who meant to decode his mission, **The Judahite**. Despite Gentiles' mockery of Turner by saying he heard voices in his head and believing solar eclipses were giving him signs to rebel.

Turner gave us many things including, the way forward particular to whites of Etheldred T. Brantley's character. Etheldred T. Brantley is the archetype for whites seeking spiritual rewards only offered in personal atonement.

He gifted the Ten Tribes of Israel with faith in Jerusalem. Reaching Jerusalem, Virginia was the military aim of his campaign where he would declare a liberation zone for the enslaved. Turner was by no means unrealistic. The substantial evidence of his plan rested on faith and faith alone. Truly, all that he had to do is reach Jerusalem and God would do the rest.

Faithfully, he made it to Jerusalem to complete his illustration of the American life cycle. He reached Jerusalem, not as a military general but as part of a prophetic plan. Turner's missionary work served as the jump-off point for the American Civil War. Over six hundred thousand were killed, and countless thousands were left with permanent injuries.

Conclusion: Nat's trial at Jerusalem, Virginia, and sentencing finished his mission.

Objectives and Aims

- ✓ His death accelerated wars in the land for claiming territories, either pro slave or non-slave states. Texas came into the Union as a slave state.
- ✓ The Jesuits played an integral part in the Civil War in the interest of international bankers.
- ✓ Nat gives the imperialistic context of the fighting spirits. The black and white auras are symbols of good and evil. We know that the Pope wears a white color robe and the Jesuits a black robe. The Holy See corporation or the Vatican directly associates with Esau's Mt. Seir. The Jesuits are a tribal section of Dan. Thus, the two different colors are a materialistic representation of outcasted family members of Jacob. Yet, they share the same goal of containing tribal Judah, each with other motives.
- ✓ The Jesuits played a behind-the-scenes role in the Napoleonic Wars and continued to play a consistent role in WWI and WWII.
- ✓ The Battle of Waterloo was contrived to give the banking class of Dan control of the central bank of England. Honestly, the origin of the Central Bank system now seen worldwide operates in Dan's interest, whose central policy is second to no country.
- ✓ The serpent Dan had the banking power to bring economic life to the Red Dragon of imperialism.

After Nat's death, his body served as the prototyped model of imperialism. Consider the specificity of his body parts used as items of utility that would be seeds of imperialistic growth industries. After 172 years, The Judahite received specific affirmation of Nat's Petrocurrency model and used it to continue the battle with the Amorites at the location where Joshua placed the moon. Once The Judahite started the battle, the moon disappeared before The Judahite.

On August 20, 1831, Turner gave an order to prepare for **August 21** to start the "Great Work." On August 21 during, the Atonement meal, each person was asked for a position statement for engaging the social order. The Statements were forward looking for a better life. They wanted liberty and were willing to fight for it or die trying. Out of faith, they acted and triggered the Civil War.

Spiritual Coordination.

At the same time as Nat's Jerusalem campaign, a rebellion occurred in North Carolina. Moreover, the spirit of coordination would continue coordinating Judah's General Labor Strike across the South, bringing an end to the Civil War.

The era of **Cotton is King** ended. Looking back, Judah contributed to putting clothing on the backs of a billion people worldwide by advancing the industrial revolution.

Happy birthday to Atonement.

Turner carried out his task mission as instructed, **Atonement's birthday** of America.

Over a hundred years later, Jeremiah's seventy-week prophecy in 2017 benchmarked end times' prophecies wherein the 144k placed trust in the dates for crossed-checking seasonal dates. As noted elsewhere, the appointed seasons are not the same as calendar dates, though calendar dates reflect biblical seasons. Please don't confuse the two.

Whereas Turner was assigned to deliver atonement notice to America and the world of imperialism, August 21, 2017's solar eclipse came as a divine notice of judgment. Total judgment, as a work-in-process until August 2024. The Angel used the August 21, 2017, date as an index reference established on August 21, 1831, for The Judahite to know there is consistency regarding the Atonement.

As in Nat's era, society's divisions could not be reconciled. The "Great Work" demands fighting the enemy with his own weapons, facilitating disassociation in the spirit of Atonement, **but not the final resolution.**

So, from August 20 to August 31, the Redeemed has the mission to do what is necessary, proactively, to avoid head crushing by Satan. But after September 1st, we follow the mandate part two of the Edenic Judicial Decree to cut the heels of the Serpent's descendants with the intent of immobilization, no longer able to spread lies.

Notice to Resolution.

Transitioning to a different set of Priorities With different techniques.

For a review, Atonement is defined as a schematized procedure for widening the theological gap of dissociation between the Serpent and Adam's seeds. The Edenic Judicial Decree holds two divisional frames in which the perpetual conflict is embedded in all social forms and on all levels within societal institutions. "No man can serve two masters."

After September 1st, instead of pushing for fermentation of dissociation, Atonement has a qualitatively different approach that switches effort energy to **pulling** the 144k and Firstfruits toward claiming Lands of Promise for the Feast of Tabernacle. A foundational basis for putting into place all the components for constructing the Commonwealth of Israel.

September 1st represents the pivotal point for Our new priorities.

Yeshua's Birthday is September 1st.

Yeshua's DOB remains controversial. However, students of the Bible generally know December 25 is not Yeshua's actual date of birth. Nevertheless, there are several credible proposed dates of birth.

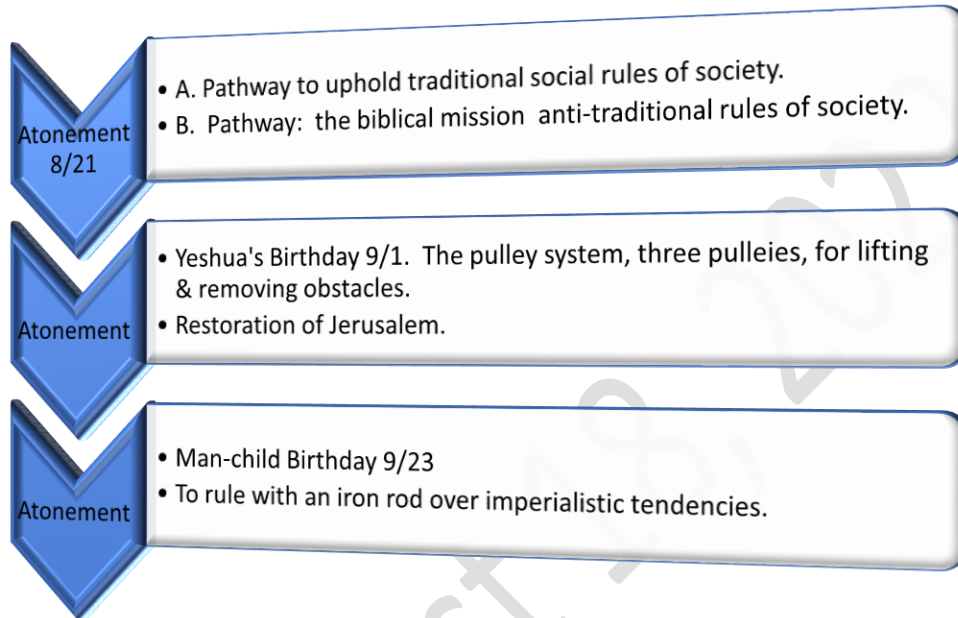

Standing apart from the other dates, The Judahite advances his position based on seven days and fifty days after Pentecost as stated in Leviticus; thus, The Judahite preserves the biblical instructions in his determination.

Still, something is missing. What? In 2017, The Judahite started to mix and match dates. Like trying to crack a safe, turning to the right and the left, the door opened years later. It was the year date that opened the door to discovering the DOB.

We are preparing for Yeshua's second coming. Yeshua's DOB marks the era for the Congregation in earnest to start strategically cutting Satan's heels. There are many ways to immobilize the dragon of imperialism. Foremost, stop spending money on things that will not enable you to prepare for relocating.

Post-September 1st, the Man-child constitutes the Commonwealth's pull system toward gathering and consolidating the Commonwealth System of Israel, in which the old systems of society are pushed into the hopper and liquidized.

September's Calendar Events

- September 1st Yeshua's date of birth.
- Miraculously The Judahite broken cupboard shelf was restored during service on September 1st.
- Man-child's birth occurred on September 23, 2017, to rule with an iron rod.

On October 26, Nat's metamorphosis ends by taking A qualitative leap.

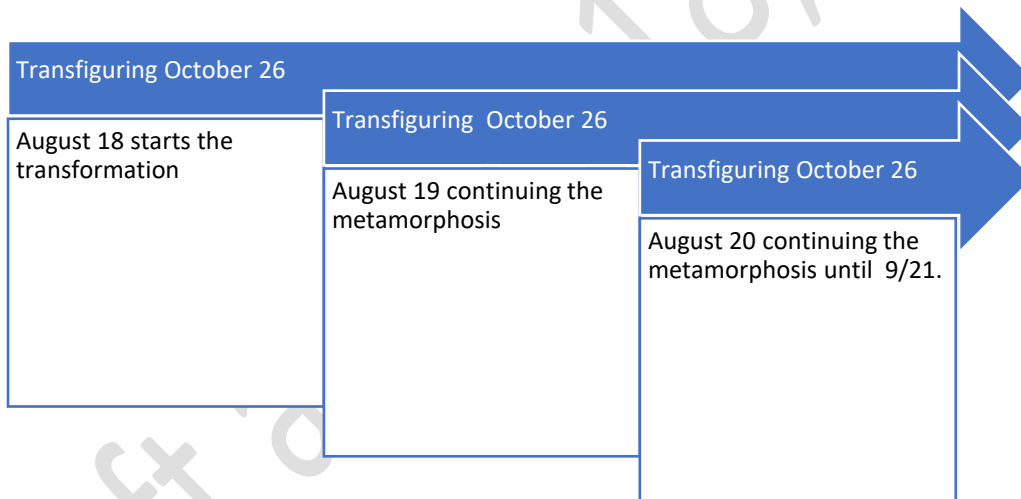

From August 23 to October 26, Nat stayed under a pile of fence railing stacked in the center of a field. Living for seven weeks in a cave is a religious experience appropriately described as **Requital** (from your planted tree, you eat the fruits of your deeds.)

On October 26, Nat was forced to leave his hide-out because, having been discovered at night by a dog of a party of two men who had no intentions of concealing his location to the authority in spite his plead for confidentiality. Having failed, he knew the hunt was on to find him.

Nat Turner illustrated the seamless transition from Atonement to Tabernacle. He administered two distinct phases of **Requital**. **One**, a person has the personal freedom to choose their future path by holding firmly to traditions created by one's economic culture. **Two**, take the course of one's High-Calling and continue the mission in faith.

Nat gave a clear administrative explanation of **Requital** in the episode of his attempted capture. He directly interfaced with the interdimensional realities of Tabernacle. Over three thousand guys looked for him with dogs, yet they could not find him because he had a divine appointment in Jerusalem on **November 1st** in a three-step transition to Tabernacle.

We start our three days transformation period on the appointed day of **August 18**. Let the Holy Spirit guide you through prayers to resolve your purpose in life. Some of us are much clearer than others regarding the path to take. For example, the person has shared the aim of life guided by the spirit of anointing. Such a predefined aim conforms to the mental and theological transformation process of 18 thru 20. The point: some people have been gifted through the spirit of prayer to possess a clear view of their future, while others must pray harder over the next three days for a definitional vision.
