

ORDER-24 Did not Include the Calendar dates February 26, 27, & 28. Why?

The interpretive dates in ORDER-24 did not explicitly include dates February 26 & 27 & 28 are trinity dates that consummate a divine mission.

As a review, ORDER-24 contains operational divisions converted into Regulatory Codes per the Stone Kingdom. The Codes predicate Jubilee's administrative operations. In five years from now, the first sabbatical year, the Congregation would have a system in place to redistribute educational assets and assets to industries in need. The Asset Management Department will coordinate the allocation and re-allocation of human resources.

ORDER-24 dates exclude February 25, 2022. However, being in a different category, **February 25, 2022** comes as a global rotational date for measuring progress according to the Soundwave-25 Mission Statement that has the ultimate objective to supplant all Gentiles' social systems per the directive of the sacred stone falling on the toes and feet of the Gentiles' kingdoms. Soundwave-25 reaffirmed on 2 February multifaceted support for all sub-Orders to establish their meaning. The trustworthy supernatural signs appeared on 2 Feb, giving hope to the proclamations.

On 2 February, *The Judahite took a prophetic nap around 3 pm awoke with 27 February being a watch date. (5:41)*

Indeed, on February 24, Soundwave-25's frequency wavelength announced its return in the sound of four sonic boom cannons. 25 Feb. ushered in a paradigm shift informing The Judahite and the 144k about a new technology that will collapse the earth's current energy and electronic systems, rendering electronic devices inoperable. The Judahite's phone illustrated the prediction; though small, the phone illustration is scalable to a community, a city, state, country, a region, and the entire globe.

In constructing the Commonwealth of Israel, electronics use will be fashioned around functions. Those who are not actively engaged in prioritized work assignments will have no use for electronics. **Soundwave-25's Declaration** stands as a statutory order. (2:56 pm 2/27)

February 27, 2022, Focus

- February 26 fell on the Sabbath, a particular day. As a seasonal calendar day as being the last Sabbath in February, the Elohim performed another supernatural signatory event as his Attestation of the New Covenant. On Sabbath of 2021, the items of Precepts were taken supernaturally from The Judahite's refrigerator. They are precept principles.

On point, February 26 comes as the Attestation of the New Covenant.

- February 27 comes as Abraham's date of birth. Also, the birth of the New Covenant. Prophetic Pentecost awards twenty-seven trillion dollars to the Congregation in the formation of the Stone Kingdom.

While we celebrate Abraham's birthday and the Abrahamic Covenant, we also celebrate the New Covenant that supersedes the Abrahamic Covenant. Being the new Temple, complex attributes enhance the twelve tribal nations. Yet the New Covenant's precepts principles improve character traits through glorifying the LORD of the Sabbath.

- February 28,2022, comes as the day for the Executive Body of Israel to separate, asserting its jurisdictional authority, not holding to any national power. Therefore, the Executive Body of Israel's lateral movement focuses on developing transitional systems for mass relocation. With the complete protection of the armies of heaven to destroy enemies of Judah and the 144k, the re-organizational process starts. There are many transitional steps and lots of work.
