

The 144k, the waves of Firstfruits, the Man-child, and the Executive Body of Israel are now establishing organizational priorities according to the imprinted agenda formed during the first seven days of January 2022. The imprinted chronology combines prophetic dates from previous years' activities.

Particularly in focus, The Judahite, over the years, acknowledged unfulfilled and fulfilled Feast Days, convocational days, solemn prayer days, and festival days. The Judahite has chronicled calendar dates for observance this year and future years. Each date is subject to re-iteration, refining programmatic contents for more significant enrichment. Additionally, during this year, we should expect new chronological dates as calendar events observance for the coming years.

The Congregation will fully embrace the dates established by The Judahite because the coming judgments will leave no options. Those who survive the judicial decisions will not act contrary to the dates and purposes.

### **The Jubilee Year**

This year will be the first re-iteration in preparation for the first Sabbatical year, scheduled for 2007. The Executive Body of Israel will appoint a committee to draw up the calendar for all the Sabbatical years leading to Jubilee's fiftieth year. The Judahite will address the Congregation on the Forty-ninth year and the one plus year= fifty. The Judahite will be around beyond the next fifty years from now.

## **The Arrival of the First Jubilee in Exile**

Consistent with the Mosaic Curses, tribal Judah lost consciousness of Jubilee for thousands of years. However, Jews and a small percentage of Gentiles theoretically observe Jubilee. Over the years, a tiny percentage of tribal Judah committed to restoring meaningful observances in Old Testament Scriptures relied on Jews for dates calculations. Despite the drawbacks, the dates prove to be valuable.

As an evolutionary step in the Man-child's maturity, the LORD assigned prophetic date to The Judahite to prototype administrative Equity Law to the Congregation. For those tribal members of Judah seeking knowledge, July 30, 2019, date came as a momentum gift to propagate endlessly. Indeed, psychologically and theoretically, Judah's seekers were given a confirmed date to hang their hats on.

The details involving the reconstruction of Jubilee have been accounted for elsewhere; however, Judah's model differs from the versions observed by the Jews and Gentiles. The essential differences:

### Ground Rules for Employing the Principles of Equity

Foremost, the old Jubilee principles were practiced inside Israel by all who lived in Israel, including Gentiles. In contrast, The Judahite's prototype allows the Congregation to practice anywhere within the Commonwealth of Israel.

- A. Procedurally, we must take an inventory of our skills at each seven-year cycle.
- B. Each must take a full accounting of the equity and the investments. Do a general ledger to determine assets. Then, subtract owed amounts to others from total assets to arrive at one's net worth. After which, having a preformatted chart in hand, each person calculates credits due to the Elohim. Thus, the final portion is for the person to claim as net worth.
- C. Next, one must enjoy a coffee drink of sorts or tea while reading and meditating on the book of Jubilee.
- D. In remembrance, two hours after Jeremiah's seventy-year prophecy for ending Judah's captivity in 2017, the Elohim provided incremental spoon-nourishment for the Man-child's doctrinal maturity. In perspective, the New Covenant was formulated while in exile in 202.
- E. Simultaneously with C. above, we shop for the best of food offerings to the Elohim and Holy Spirit for the timely visitation as promised. We go throughout the city singing and dancing.
- F. We display milk victoriously, like in the fashion when sports players open bottles of champagne, knowing a deserving trophy will be given for an organizational effort in executing the victory. Truly, Judah displays unique praying to the Holy Spirit because the Son of God found no iniquity in him, granting victory.
- G. As the newly designed temple, Judah and Israel represent the eternal beauty of spiritualized milk, a nutrient symbolically of God's abundant grace.
- H. Twenty-three days after lifting Judah's four hundred-years jurisdictional restrictions, Jubilee manifested. **The Holy Spirit prepared Judah** to put on new clothing of salvation per Yeshua's Mission Statement, which was displayed two years later 25 February 2021.
- I. Still, the Holy Spirit of Jubilee certified two places as paradigm verification. One: The Man-child's nursery wherein documentation is kept on his evolutionary progression as having global jurisdictional authority on equity and economic investment codes per the ratio 3:20. And two: trans-dimensional places having the same contextualized documents within the nursery. The two different places holding the same purposeful writing are encryption keys.

- J. One among other supernatural meanings is that the current state of Israel belongs under The Judahite's jurisdictional authority, returning rightful ownership to tribal Judah.
- K. In the forty-ninth year, 2019, The Judahite squared his general ledger doctrinal accounting, that is, the spiritual assets of daily living with the Scriptural precepts. The Questions demanded answers: how many people you killed directly or indirectly; how many people you stole from intentionally and unintentionally; how many people you encouraged to enter the gates of spiritual depravity.
- L. The fiftieth year of Jubilee arrived in 2020. At the same interdimensional location in 2019, The Judahite received a token monetary reward. The United States banknote appeared out of thin air. Those who have done well by multiplying his or her talents receives an increase and given more responsibilities in the Stone Kingdom, Yeshua's theocracy.

## JUBILEE AND THE LAW OF EQUITY AND INVESTMENT RETURNS PER THE ECONOMIC RATIO 3:20

January 8, 2022, Supernaturally Established as an Anchor Date.

13 January  
14 January  
15 January  
16 January  
17 January  
21 January  
22 January  
23 January

→ January 24, 2022,  
The Supernatural Writing  
On the Wall.

January 22, 2022, came as the prologue to January 24, 2022, when the coffee creamer's cap disappeared supernaturally. The 28 Fl. oz creamer signifies the New Covenant's provisions or stipulations derived benefits will flow without concerns of blockage by human hands.

Jubilee's momentum date repeats self-acknowledgment. The Judahite, on behalf of tribal Judah, would once again appear on January 24 to register an entitled claim on Investment Returns per the financial ratio 3:20. In brief, The Judahite re-certifies the interview given on July 30, 2019.

### January 22's Exordium

While in bed on 22 January, The Judahite saw a Raven Flying from the North to the South, knowing it was carrying an announcement especially considering the spider's predictive fall on 21 January from its stationary position held for many days.

Over the years, the Holy Spirit's forms of communication have proved to be very reliable to The Judahite. Remember, the Raven brought Elijah food each day.

Truly, The Judahite expected an epic announcement following the spider's falling dead on 21 January.

- a. The Judahite saw small cloud formations appearing and disappearing. A large pulsating cloud gloating from pinkish red to dark red in color. A reminder of the exodus under Moses.
- b. The Judahite picked up his weeks-old mail on 22 January after grocery shopping, say, around 1:30 pm.
- c. An appointment letter from a governmental agency states an appointment on January 24 at 9am.

#### The Enunciations:

On 22 January, The Judahite went shopping after seeing the signs in the sky. Upon returning to the apt and putting the groceries away, The Judahite took notice of the missing cover cap from the coffee creamer, though it was on at the time of purchase. What a timely signal for finalizing Jubilee's monetary accounts to Judah and Israel. As a birthday gift, the Congregation will receive twenty-seven trillion dollars. The total amount was not known in 2019, though revealed on Abraham's birthday, February 27, 2021.

The supernatural narrative is easy to follow. The Raven and the missing cover cap are associated with the New Covenant's ratification date. The disappeared cover cap is an allegory for the pending outpouring gifts of spiritual righteousness and our duty to

reciprocate through Sabbath's day activities characterizing fragrant pleasing to the Elohim.

### An Overview of The Judahite's Methodology

Foremost, The Judahite would be the first in line to say the mysteries of God are revealed in the context of relevancy in combination with the time-continuum as illustrated by Daniel's Man-image statue related to the appointed kingdoms on earth.

Secondly, there are different levels in which God responds to prayers. We all misread Scriptures and misapply scriptural text unintentionally. The errors, of course, are corrected when we make a quantum leap in conceptualization that guides purposeful activities in conformity with Scriptures.

As for The Judahite, the LORD and the Holy Spirit have guided the architectural design system, putting components in place under different classifications for operations. According to Covenants, The Judahite works in the field of structural designed components per statutory law and regulatory codes. Therefore, when The Judahite invokes a subroutine, he knows the architectural design and the operations classifications. Thus, The Judahite doesn't deal with subjectivity unless it has been componentized under the correct category.

Now, in brief, within the design architecture constructed decades ago, The Judahite went to a government agency on July 30, 2019, to give an account of his skills and to make a projection of monthly income once retired. The Judahite understood his options. However, on the same day, the Holy Spirit offered a conceptual income certificate reward to tribal Judah worldwide, the official date of Jubilee, a momentum gift that continues to drive promises.

The Holy Spirit disbursed milk droppings 30 July to accompany The Judahite on his monthly routine and simultaneously saturated two bags of documents with milk, though they are miles apart.

## January 24,2022

1. The appointment came off as stated in the January 13's letter. The Judahite reported no changes per the interview on July 30, 2019.
2. The Elohim induced a sleep to fall upon The Judahite. As a pattern, The Judahite could expect something to occur supernaturally.
3. While in sleep, The Judahite awoke to dropping water or to the sound of rhythmically tapping. The sound came from between the wall, lasting over two hours. Yes, light rain in the area but had stopped by the time The Judahite awoke.
4. After returning to the bedroom with apple cider in hand, The Judahite noticed a protruding bubble from the wall near the ceiling.
5. Then, returned to the kitchen after a quick consumption and walked upon the bed to examine the protrusion.
6. The Judahite's wall is covered with epoxy paint, totally different from regular paint.
7. The Judahite began to work the epoxy protrusion like putty or like playdough.
8. The Judahite encrypted a dateline for compensation. Already judgments were forthcoming, but now they have an assigned date. During the encryption, the wall remained very warm.
9. The following morning the wall covering appeared as usual.
10. The dateline is final. The date cannot be reversed because the High Court of Heaven has a file.
