

# July's Calendar Dates Regimes

July is the seventh month of the year; it carries the significance of completion. On the seventh day of Creation, God rested. There is nothing more to add: wholly and completely perfect.

In the biblical context, the significance of seven is tied to the seven days of Creation or seven thousand years.

Elohim designated the Sabbath as the day of rest, six days of work (related to man), and the rest on the seventh day (God's Day) for worship. Active rest, not passive rest; giving thanksgiving to our God is active rest—spiritual rest.

## Consider applications of Seven:

- Abraham received a seven-fold blessing from Elohim (Genesis 12:2-3)
- Seven Churches: Seven Seals; Seven trumpets; Seven parables in Matthew chapter 13.

In previous presentations, seven have been displayed in numerous biblical applications. Likewise, numeric seven will reveal itself in prophetic completions in future discussions. Seven has companion relationships and does not stand alone, making it multi-dimensional. As we progress, Seven's companion relationships will be highlighted.

## Besides Four, there are other date regimes

Many events transpired, thus far, in July. They are essential to hear and learn and will be worked on in future reporting, but not today.

The selected calendar dates herein enable congregational people to become better familiar with Calendar Date Regimes.

# Four

Numeric four is defined as the number of creations. In Genesis 1: 14, we are given the purposeful meaning of our universe. *“God said, let there be lights in the firmament of the heaven to divide the day from the night; and let them be for signs, and for seasons, and for days, and years.”*

Four is composed of  $3 + 1 = 4$ , denoting that which follows the Trinity manifests God's creation. On the fourth day, God created the twelve constellations in which the twelve zodiacal cosmologies are embedded. Indeed, Elohim created the twelve constellations on the fourth day.

Numeric four marks the commencement, the anchor point, of a materialized design of creation. From this point, the earth's highest cosmological life forms are fashioned. This unique role of the four in humanity's material relation with the cosmic clock is truly a wonder to behold.

While many people use the heavenly bodies in religious worship and astrology for daily guidance, the Congregation of Israel stands apart. They use these celestial bodies to determine the Feast Days and prophetic implementation instructions, always staying on course and in the right season. This unique use of celestial bodies sets the Congregation apart in a separate religious camp from all other religious groups on Earth.

Regarding Judah, the Ten Tribes, and the righteous Gentiles, they have the starting point at the foundational level of creation. The twelve tribes match the 12 Zodiac system. Israel's cosmology was understood during their 430 years stay in Egypt. The Egyptian Temple of Esna is where Zodiac prints are found. Yes, they are still there after six thousand years.

Enoch put the prints on the ceiling due to his knowledge of the cosmos. Enoch gives a panorama view of Israel's birth, Yeshua's first and second coming, and the age of sinlessness in his book. Enoch strategically placed end-time markers at different locations on the earth, indicating when the Gentiles' rulership would end.

From the Throne Room of Heaven, Yeshua conceptually programmed the Feast Days to mark the Congregation's spiritual evolution of the Congregation. These days signify Yeshua's first and second coming as the redeemer and ruler over his kingdom, respectively. During the millennium era, SIN will not occupy its once-dominant position in Yeshua's kingdom because once SIN is seen as promptly eliminated in such instances.

With its divine purpose, the number four is a divider, its function being in the square. This profound understanding sheds light on the significance of this number's universality in biblical processes.

**Our task is to always look for the universality in things during our investigations.**

- The Garden of Eden and its four rivers in Genesis 2:10-14.
- North, South, East, and West.
- Morning, noon, evening, and midnight.

- Spring, summer, autumn, and winter.
- Noah and his three sons.
- The four Gentiles' social systems in Daniel
- The four beasts in Daniel.
- In Ezekiel's four creatures and four faces: man, eagles, ox, and lion.
- In Zachariah, four horns and four carpenters.

In sum, there is a relational identity between division four and its universality, those selected before the world was created, as the numerous milestones reflect the universality of Israel's meaning and purpose.

## Calendar Dates Regime 4, and the phases of completions.

### July 13

Globally know, on July 13, an attempted assassination of Mr. Trump.

Opposing political opponents blame each other for creating a condition of violence; both sides are now saying it is time to turn down the election-year rhetoric. Quite ironic, acknowledging the basis for the momentary need to find common ground reveals the antagonistic policy positions of each party.

Beyond this point, The Judahite has no words on the cons and pros surrounding Mr. Trump and the Pennsylvania outdoor political rally. However, a few words are expressed regarding society's overall social and economic conditions that existed long before the upcoming federal and state elections. In short, the focus is on the declining social system of capitalism/imperialism.

Although the Republicans and Democrats have confrontational governing styles, as seen in the House and Senate, the two political parties' behavior expresses symptoms of anxiety among the citizenry over the nation's financial and economic stability. The citizenry does not require any professional group to report their negative daily experiences.

Thus, it would be an oversimplification to say one party or the other one represents America's future stability. Society is being shifted, and in what way is the question?

Addressing the shift or being part of the shift, Project 2025 offers a futuristic roadmap. The authors studied America's future and concluded that drastic action must be taken after national and state elections to restructure the government and reform society, assuming elected Republicans have the election mandate to implement Project 2025. For sure, the manifesto is well throughout; it is a bold initiative-taking approach.

The Judahite and tribal Judah are not concerned about Project 2025 because the societal shifting is now due to the Executive Body of Israel in Exile taking steps on different levels to construct the Stone Kingdom's administration without having a declining date. Moreover, no Gentile group will ever rise to challenge the Judahtocracy of Mt. Zion.

In summary, many people revealed Project 2025 in a big way on July 13. Of course, there are many expressed views that Project 2025 should not be labeled as being bad for Black people, minorities, and people with low incomes because America has a growing national debt, and it must square its accounts. No, America cannot balance its general ledger accounting. Remember, the 800-hundred-pound gorilla is in the room; Daniel's financial ratio is 2:20, which covers all four Gentiles' social systems. As John foretold in Revelation, the only way to override the ratio is by instituting a totalitarian government system. The essential components are in place for an electronic totalitarian system of governance and are partially operational. Still, a trigger event will invoke a fully operational model.

## July 16

Since July 7, 2019, for each anniversary, The Judahite has used four Cornish hens as the ritualized centerpiece for the celebration. As a standardized practice, in 2024, the Cornish hens were cut down the back two halves and marinated for 24 hours in lemon sauce.

When Abraham heard the exciting oath made by the LORD to enrich him and his descendants, a blessing to be a blessing to others, Abraham asked for surety because he knew there would be violent claim disputes without one.

- *So, He said to him, "Bring Me a three-year-old heifer, a three-year-old female goat, a three-year-old ram, a turtledove, and a young pigeon. Then he brought all these to Him and cut them in two, down the middle, and placed each piece opposite the other; but he did not cut the birds in two. Genesis 15:9-10.*

After lifting the 400-year jurisdictional restriction, July 7 has a new annual tradition. The four Cornish hens are cut in half and marinated in lemon sauce in conformity with the Abrahamic Agreement commemorating the prophetic four hundred years of bitterness.

Considering, that Judah's physical jurisdictional restriction expired per the Abrahamic Covenant, then Yeshua's Mission Statement lifted the four hundred years of social injustice from off the Ten Tribes' neck, next, the statutes enabled the suspension of the Mosaic Curses.

As psychological and mental restoration, everyone received the mandate to search and find their tribal identities to balance their walking on the transitional journey to the Promised Land.

Judah, Reuben, Gad,  
Asher, Naphtali, Manasseh,  
Simeon, Levi, Issachar ,  
Zebulun, Joseph, Benjamin

Not all melanated people possess spiritual, ideological associations with the Congregation of Israel, though they might have experienced the Mosaic Curses. It is only through the profound journey of searching and finding one's ideological tribal roots and connecting that the key to promised joy and happiness will turn in one's favor. This connection is not just a discovery but a deep-rooted bond that brings a sense of belonging and identity. Negatively, imitating greater society's social and personal behavior is a disqualification, as Judahtocracy expects godliness to radiate from within and be displayed outwardly.

All tribal nations will release their creativity within the Commonwealth of Labor's framework. Never again will employment be denied, nor will there be a lack of jobs, outrageously high rent, monthly mortgage payments, or property taxes. Where will the high cost of living stop? The bad news is that it cannot; society is cannibalizing itself.

Over the years, The Judahite has cautioned against Black political associations adopting the black ideology of **victimhood**. While it was once a necessary stance due to the lack of options to escape the political economy of racism, the time has come for a new narrative. The genuine members of the Congregation, with their unique DNA, have the responsibility to lead the world in shaping the Stone Kingdom. To continue to engage in issues of racism is a clear sign that one is not a genuine member of the Congregation. Such individuals are wasting time on dead-end matters, as they lack the molecular genes to fit into a society where the dominant SIN no longer operates with legal protection.

Regarding who is in the Congregation and who is out, The Judahite discusses tribal Dan as being in and out. This discussion is crucial in understanding our tribal history and the dynamics of inclusion and exclusion. Over the years, The Judahite overlooked tribal Dan to the extent of not including American Dan in the tribal list above. Even so, The Judahite identified tribal Dan among the native American tribes in a presentation years ago.

Joseph relocated a percentage of tribal Dan and other tribes to the West and East before the exodus, which was a pivotal event in our history. These remnants, who never renounced their congregational membership in Israel, are automatically included in the tribal nations of Israel with full fellowship. However, it's important to remember that Dan is not a part of the 144k. Like the righteous Gentiles, the door of salvation is open to those whom the Holy Spirit deems worthy, a comforting assurance of our faith.

During the period of Judges, Dan progressively moved away from the Congregation, eventually starting idol worship and renouncing his congregational membership.

There are three parts to Dan. Only the West and East Danites are still members of Israel. Dan's banking/financial class preserves its non-congregational membership. As a principle, members of this class can receive salvation as stated in the Scriptures if granted by the Holy Spirit.

## A new tradition, a regular-sized Hen.

July 16 is now an established institutionalized date. Over thirty-five hundred years ago, Abraham asked the LORD for a surety, a principle in the exchange to bind a contract, to know his endowment would be given to his descendants.

### The established procedures:

- *When the sun had set and darkness had fallen, behold, a **smoking firepot and a flaming torch** appeared and passed between the halves of the carcasses. Genesis 15:17*

Because the 400-year jurisdictional restriction had expired, the new sacrificial procedure conformed to that reality and was thus modified on July 16, 2024, though its essentiality was preserved as in Genesis 15:17. The lights from the High Heaven appeared directly before The Judahite, like a torch light dividing itself into two pathways, accepts the orange honey-glazed Hen as a surety.

The Hen is the new surety affirming the claims under the Abrahamic Articles of Covenant. In review, the Israelites never occupied the entire lands under the Covenant before AD 70, a period that marked the activation of the Mosaic Curses. Judah would be subject to the Arab and transatlantic slave trade. Under an upgraded surety, all lands will be claimed and occupied.

On July 16, 2024, The Judahite, filled with anticipation, stood directly before the appearing lights from the High Court of Heaven, which rendered him humble and excited.

## July 19

A week before July 19, The Judahite received implicative notices of 19's dual aspect. This revelation, a profound testament to the nature of the event, made it clear that July 19 would be a global event of unprecedented significance.

Over the years, The Judahite has been gifted with a hyperdimensional interactive communication model of forewarned events. For example, The Judahite knew about COVID-19 in advance through this model. However, The Judahite cannot invoke the hyperdimensional interactive model; only the archangel Raphael, a divine entity, can.

On July 19, a global outage of unprecedented scale occurred. It affected not just one or two countries but a multitude, including the U.S.A., Canada, Australia, India, France, China, and others. The blackout shut down banks, ATMs, hospitals, airline flights, supermarkets, computer systems, stock markets, networks, and other facilities, causing widespread disruption.

### Reactions:

1. A video captured one woman unable to withdraw from a business account; she started cursing, demanding her money. 2. A video captured an irate woman stranded in an airport. She could not make another scheduled flight for her vacation destination, which she had planned for years to go

to the Caribbean. 3. A video captured many people stuck for days at airports, telling stories about why they must leave to continue with their plans.

### Only A Preview

First, the Host of Heaven will amplify the situation; no fixes will come in a day or two. July 19 was a preview, with much more drastic consequences next time.

It's essential to have a clear understanding of the situation. Those who lack discernment of the season may fall prey to misinformation, which means some congregational members do not know their tribal nations and, as a result, will follow popular culture trends to their own detriment.

More so than ever, one must separate oneself from popular culture and from the Gentiles' social norms to minimize confusion by increasing clarity through the transitional movement.

## July 21

Only the LORD can self-validate through affirmation of his outlined plans. When counting the calendar dates below, what do you see? It's a divine order! You count 19 dates, and at the end, you see 21. WOW! It is not a coincidence, for the calendars come directly from the Second Heaven Magistrate to the earthly magistrate, Daniel, Ezekiel, and others, to promulgate them. Yes, no human establishes the calendar dates. We must respect and consciously be agents in the divine Calendar Dates Regime.

On July 21, 2024, a significant event unfolded. In a momentous decision, President Joe Biden suspended his re-election bid and endorsed Vice President Harris as the President of the U.S.A.

**This event, in the context of Juneteenth, is a historical phase in Judah's transitional movement to the Promised Land.**

God has a millennium plan for the Congregation of Israel, including establishing his Stone Kingdom. Remember, God's plans for the Congregation are written in the cosmos and are unchangeable—"as it is in Heaven." The Calendar Dates Regime is God's Time of progression to yield timely results that should fill us with trust and confidence.
