

March 26, 2024, Supernatural Event.

The Francis Scott Key Bridge collapsed during tribal Judah's biblical transitional Season, relocating to the Promised Land to commence the millennium kingdom under the Executive Body of Israel in Exile.

As a statement of certification for the supernatural event, The Judahite received a protocol notification protocol of disturbing news after arising and starting the workday on March 26. The Judahite re-checked the notification and found no issues, so he continued working.

The protocol notification protocol came to the attention when the sealift overturned in the Gulf of Mexico, and within seconds, some of the crew lost their lives.

Seacor Power capsized off the coast of Louisiana in April 2021.

The Seacor Power capsized came after **Hard Rock Hotel** collapsed in October 2019. Workers in both locations had matching birthdays, affirming the intended purpose.

Francis Scott Key

Francis Scott Key wrote the lyrics for the American national anthem, the Star-Spangled Banner. Without question, just about 80% of the American population has heard the Anthem.

Time will not permit now, The Judahite will extend his analysis of the supernatural event in a different post. Once again, Archangel Raphael presents us with the brilliance of the Scriptures, making all the interconnections for the Exodus.

High points overview:

- a) Crossing the Red Sea. The lateral bridge over water must be seen in contrast to the vertical wall of water when Moses parted the Red Sea.
- b) The Dali Ship crashed within days of the April 8 solar eclipse. During the solar eclipse all the cities in North America named Nineveh will become black. The ship crew that Jonah was on threw their cargo overboard to save themselves.
- c) Dali lost all mechanisms for steering and crashed into Francis Scott Key Bridge. Symbolically, the fall of America.
