

Reviewed and Baseline Dates

On May 12, 2022, the ordained date closed.

As a link in an assigned chain of dates, May 12th brings a summation premising the whole arrangement of dates. January 24 Court Order serves as the premise for realizing avowal commitment to fulfill the 400-year Abrahamic Covenant, Jeremiah-seventy year, the maturity of the Man-child, and the year of Jubilee.

The 24 Court Order appeared in codes to be deciphered. The codes are used in combination with other assigned biblical numbers. The meaning of the numbers is not for advanced brains to figure out or spiritualized interpretation. Instead, the ordained purposes of the combined numbers reveal their actualized sense only through programmed activities on each assigned date. Knowing that the numbers had been ordained, each number had to corroborate its existence through validated supernatural arrangements. Indeed, on each date, an unnatural appointment appeared. Thus, The Judahite used the assigned terminology to derive the encoded meanings in real-time situational realities.

So, with clarity, May 12th is not a catch-all summation but a summation of the ordained assigned numbers.

On the morning of May 12th, The Judahite received the acclamation of his sub-order implementation; therefore, The Judahite had eighteen working hours to transition to the next level. Then, at 5:09 pm, drossiness and sleep overtook The Judahite for one hour as a pattern of delay. Truly, the transition would not occur as expected but would be on a different date.

On May 9th, The Judahite became part of the illustrative formula of sub-Order nine. Biblical seven appeared unnaturally as a rotating cycle of completion of the sub-Order.

At hand, as one packaged sub-Order is given to form its implementation systems, another packaged sub-Order determines its implementation plans, and so on. Again, biblical nine, per the nomenclature used herein, delivers the finding of facts and give conclusions, nothing more! As such, biblical seven incorporates nine for which to form implementation plan.

The Judahite has an extra dimension as part of the conclusion yet has the vantage point of seeing the cycle from the beginning to the end.
