

**August 24, 2022**  
**Foreshadows**  
**August 24, 2024**

The Armies of Heaven have selected the two dates. The display on August 24 will come as a preview to August 24, 2024, but on a larger scale.

What is going to happen on August 24, 2022? There are several things that can happen. The previous discussions are progressive steps with each day giving an unfolding picture of August 24. So, in part, August 24 is a partial culmination of the previous steps. For sure, the **Waste Dumping** method will be displayed.

Our eyes should never be taken off the fact that we are in the **Season of Atonement**; therefore, our portions are evaluated, and we square our personal accounts either with good rewards, or retribution/recompense.

## The Twin Sisters of Damnation

**Waste dumping.** Regardless of usefulness, there is a life cycle to all governmental systems and the people who manage and control them. Likewise, social forms that support the establishment have life cycles. When the new progressive components arise and claim their innate share of social wealth, the old order is relegated as the appendage waste and, thus, flushed from the pages of history. Uselessness is the procedure for selecting those to be processed as material for waste dumping.

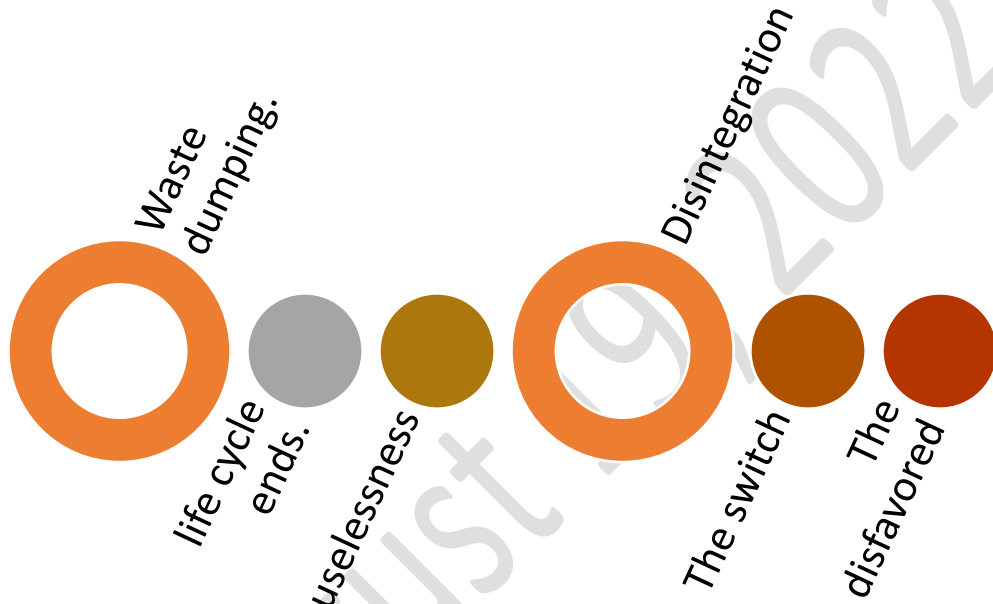

**AND**

**Disintegration.** The waste dumping method is for uselessness. In contrast, the social reactionaries fall within the group of the unwanted. The reactionary will never hold value to contribute to the new construction of Zion and, as such, are subject to the liquefaction and pulverized techniques. A working view of the method. Take a grinder platform with two lugs rotating (induction motor), knocking the food around and around against a stationary bland. The disfavor becomes liquified when the lugs and the bland work in **sync** in fast rotation.

The unwanted social reactionaries require no life cycle to become liquified. The socially disfavored can appear within any stage and fundamentally react to the progression of biblical history in the making, as in the current construction of the Commonwealth of Israel.

### The switch

Only the sanitized hands can flip the switch to actualize disintegration. With or without turning on the disposal switch with manufactured electricity, the disfavored will become pulverized by grinding and finally pushed down the sewer drain.
