

Soundwave25 supplants electronics in the way used today, A theme of 25 February 2022

February 25, 2022, marks the second milestone of Yeshua's Mission Statement for coming to the earth. He sent a soundwave technological statement of his presence in the Second Coming by shattering a glass lid over a skillet, yet the glass held together. The electromagnetic frequency wavelength went forth, driven by the Mission Statement. For the tribes of Israel, they realized it was time to breathe to question their social and economic levels in a pre-structured society rationally.

Soundwave25 has continued its frequency wavelength to achieve its pre-programmed awakening. Adding in understanding Soundwave25, Yeshua instructed his apostles to go back to Jerusalem and wait for the Comforter, the Holy Spirit, that would teach and guide pastoral work. Indeed, beyond human comprehension, the apostles taught and instructed the whole assembly about Yeshua's doctrinal ministry. Everyone understood, even though many people were of different tongues from different countries. The Holy Spirit made a direct conversion for over three thousand people. A one-to-many relationship, not many-to-many. Like at the Tower of Babel, the human language changed from one to many because of spiritual disobedience. At Pentecost, the reversed.

Moving around the world in frequency wavelength, Soundwave25 once again noticed The Judahite about its presence on another rotation around the globe, providing the Congregation a new orientation, a new look of the future. The New Millennium Covenant has been put into place through ratification, replacing the Abrahamic Covenant.

The cognitive framework of the New Millennium Covenant allows the Congregation to pivot ceaselessly, pulling elemental components into the Stone Kingdom for placement. Yes, difficult to understand what is happening in real-time; hence, the purpose of selected leadership is to guide.

Soundwave25 displayed itself on a small scale about what is going on with its rotations. The illustration is simple yet mentally workable to grasp the paradigm shift.

The Soundwarve25 Cognitive Shift

On 24 February, around 11:30 pm, The Judahite had ear-covered headphones on when he heard four sonic boom cannons, an ear-deafening sound. Now consider a prelude to 25 Feb.

On the morning of 25 Feb, the Judahite saw and heard a miniaturized vibrating Soundwave25 next to the headphone and pillow, supernaturally arranged.

Later, thinking about recharging the phone, which has not been in service for years—only used for a watch. The phone had depleted 2/3 of its stored energy. Using a plug-in, as usual, The Judahite walked away. An hour or so later, the battery light indicator showed about one-eighth amount stored upon returning. How could this be? What in the world is going on? Still, there was no reason to start asking questions about something never seen before.

About an hour later, the sign of a depleted battery. Figuring out why consider the following:

1. The battery held energy before charging.
2. While charging the battery, the energy drained.
3. No alert messages of a defective battery.
4. A few different plug-in cords were switched in and out for problem location.
5. The phone showed no signs of needing energy, yet no signs indicated a low battery.

Now, the narrative. There is nothing wrong with the battery. Those who are advanced in electrical studies and occupations can immediately give a technical explanation of the phenomenon. A dominant energy source that is draining the charge, on the one hand, and preventing charging on the other hand. Yet, allowing energy to flow.

At our level of understanding, Soundwave25 hits the phone to illustrate frequency electromagnetic wavelength, the dominant wavelength, supplanting artificial energy storage. As an analogy, all data storage facilities will be removed from the hands of Judah's enemies.

Practically useless, the phone has been discarded. Keep in mind that Soundwave25 is a programmed delineated Mission Statement. Therefore, electronics currently in use under the Gentiles will be supplanted.

Said before, the time is near when there will be no useable phones nor internet for most people. It will be years before restoring mass service. A plan is now in place as to who will receive assistance. The host of armies has the power to determine who gets service for specific purposes and how long.
