

Jesus' Gift of Promise, Restoration of Judah & the Congregation

In the past and current year, Jesus' date of birth (DOB) celebration emphasizes his acts representing his purposeful mission on the earth.

At the age of twelve, Jesus responded to Joseph and Mary,

- "He answered them, "Why did you have to look for me? Didn't you know that I had to be in my father's house?" Luke 2:49

September 1st, 2021 establishes the essential core observant for the 144K. In review:

i.

Christmas assigns Jesus' birth to December 25; though misplaced, the character of Christmas, for thousands of years, overshadowed Nimrod's date of birth, December 25, effectively confining and repressing the practice of paganism. Still, for pagan worshipers, Nimrod is venerated.

Christmas, December 25, Belongs to the Gentile's Church Age.

History records that between AD 68- 70, Judeans with discernment followed Jesus' instructions to flee, don't look back when Rome's military surrounded the cities of Judah and Jerusalem. Being on the run is a historical display of the Mosaic Curses biting Judah. Most of the Judeans went South toward Egypt in all directions of Africa, including North Africa, where some connected to the ships and went to different parts of South and Southcentral Europe.

The name Judean became a bygone word for Jerusalem. The icing on the cake came when fire destroyed the Temple by divine providence. The Judeans vanished from pages of history due to their insignificance. Later in the early eighth century AD, the Islamic Arabs drove the Judeans deeper into the heart of Africa with two exceptions. a). those who were forced to convert to Islam; b). those taken captive and enslaved.

Consider, therefore, December 25, promoted by the Edomites, serves the interest of the righteous Gentiles to use Jesus' character purpose to hold in check all forms of paganism, allowing time of centuries to wipe out Nimrod's paganistic beliefs to the degree of lacking the power to confuse the righteous Christians.

**Reestablishing Jesus' DOB.
Post 400 years enslavement.**

As the Church Age nearing its end in conjunction with Judah's 400 years' jurisdictional release, which started the remodeling process of Tabernacle according to the New Covenant, Jesus revealed his DOB to complement the birth of the Man-child, signaling the beginning phase of the Stone Kingdom. Yeshua told of his DOB as the plumb line for reconstructing the Tabernacle, ensuring all theological systems depicted on the blueprint align with his rulership through the house of David.

The House of David is a patriarchal office holding pre-anointed sovereign authority over the entire Congregation of Israel.

The Office of David stands in contrast to the personality of King David, King Solomon, and the other kings of Judah. The House of David is the headstone, a monarchical lineage ordained and prescribed by **Samuel**.

All the Kings that followed Samuel's divine prescriptions did well, and those who did not were cursed like King Saul, who became the archetype of disobedient. He ruled without godly **wisdom**.

ii.

Restoration under the New Covenant.

During The Judahite's prayer service celebrating Yeshua's DOB, the broken cupboard's shelf miraculously repositioned itself on September 1st, attesting to the correctness of Yeshua's birthday.

iii.

For some, we hold hands and pray specifically for Headphone 25.

- “Didn't you know that I had to be in my father's house?”

After which, we should expect to possess the resources to carry on the father's business and the personalized needs for advancing the Stone Kingdom's glory in security.

On this day, no prayers of wishful desires, for the loveliest gifts are those with a mission to extend Yeshua's meaning and purpose.
