

## **June 1, 2022 Presents May 30th Compendium**

The Month of May came to us as the Feast of Weeks or Shavuot, or Pentecost. This year's Feast of Weeks came as a milestone on May 6 when The Judahite's pantry self supernaturally collapsed. A divine sign for the Congregation of Israel to re-plant itself into the Lands of Promise.

Being pre-appointed dates, May 27 institutionalizes itself as the New Covenant combined with May 29.

May 28, 29, and 30 are trinity dates from which we receive a crystalized view of Shavuot, divinely established as having the total weight of authority from the Court of Heaven.

The Feast Days represent the Cosmic Laws of the Elohim, the Cosmic Clock of Regenerative Doctrine for life's Meaning and Purpose. For this reason, the hosts of heaven interface directly with us on the Feast Days. In perspective, serving food is a footnote of Feast Days.

Having reached a stage of spiritual maturity, the evolving Congregation of Israel now has a sincere appreciation of the Redeemer. Like Adam, we, too, rejoice in knowing that our daily fellowship with the Elohim links with the Edenic Judicial Decree.

To best understand this presentation of June 1<sup>st</sup>'s underpinnings, there are phases and stages in the evolving conceptual thinking that must be grounded to correspond to changing material conditions.

For example, each day, there are changing conditions that affect our lives. There is no either/or. Some circumstances hit some people much harder than others. Yet, other conditions affect people in various lengths of durations.

Consider some complicated objective factors: we are subject to the local, state, and national politics; financial and banking institutions' premise on defaults and indebtedness; export and imports issues of opened and closed markets; international disputes and arm conflicts; weather conditions--agents of change.

More factors can be added to the above list. Still, the point: many factors condition us each day to varying degrees.

The Feast of Weeks reflects the relativity of impact condition yet maintains absoluteness of the hourly hand on the comic clock for a timely occurrence to manifest on the earth, particularly to the Ten Tribes of Israel and tribal Judah.

**By way of introduction to June 1, 2022, consider the progression of events during the Feast of Weeks.**

(a) May 6 and 7 mark the time for Judah and the Ten tribes of Israel to replant themselves in the Lands of Promise.

(b) May 27 gives more body about the contents of the New Covenant. Nothing has changed. May 6 & 7 became incorporated into the spiritualized definition of Tabernacle because it is the essential core to the congregational identity. All aspects of existence are rolled up into the Divine Tabernacle.

(c) May 29 and 30 show receptivity according to the Cosmic Clock of Regenerative Doctrine of the Meaning and Purpose of life by accepting the Telecommunication Action Plan of Heaven illustrates a scalable model. Think of the telecommunication model presented to The Judahite as Aaron's staff transformed into a snake and swallowed the Egyptians' snakes. In today's Egypt, with connections to Aaron's day, the similarity is seen because both eras have the same supernatural divine source. First, look at the telecommunication categories: the wise men, the sorcerers, and the magicians with their enchantments. Aaron's serpent communicated with their reptiles (one-to-many) and swallowed them up. The Judahite's telecommunication model is the same as Aaron's categories. Today's wise men are those comprised of the global elites; the banking and the senior financial level staff are the sorcerers; the magicians are imperialists carrying a toolkit of sorts of "enchantments." (d) May 30 crystalizes' the model's beginning under the New Covenant. And May 31 establishes the List of Order, the prioritized plan for the roll-out.

## **June 1, 2022**

The Judahite received the features underpinning of May 30 and 31 from the Archangel. For now, consider the compendium below with an expanded elaboration to come.

When the 144k and Firstfruits better understand the purpose and meaning of the systems since 2017, the sealed will better carry out the essential tasks in constructing the Commonwealth of Israel. The dates and events come under the hosts of Heaven's prescriptions; therefore, the weight of enforcement is at hand.

Now consider the underpinnings that support the May **31 Action Plan or the List of Order.**

### **I. Swearing in**

- Use three Bibles to swear in those embracing the New Covenant.
- Use three Bibles for those who have and will step forward to raise their right hand to take an oath to serve in the administration of the Commonwealth of Israel.

### **II. Purification.**

**(Ongoing obligations to commit acts for purification)**

- Disposal
- Cleaning
- Sanitized
- Preserving the five senses (hearing, sight, smell, taste, and touch) orientation toward holiness.

- Telecommunication. The same supernatural energy source that appeared in Aaron's hand as a serpent consumed all false forms of truth. The Judahite's Model of which man-made phones and manufactured electrical current were swallowed up because predominantly they are used to perpetuate false forms of communications—driven very, very fast each hour of the day going no place, a delusion. Look at the bottom of the oceans and other areas and see how many civilizations that TIME erased. For all practical purposes, the illusionists are without holy righteousness and want to speed up their expiration date on the earth.

### **IV. Shredding is reserved as a regulatory code for all oppositional actions asserting dominance over the Executive Body of Israel.**

- Policies covering land claims
- The five rotating supporting spirits in overall policy making.
- 60 circumference gives us the circle of providence.
- $60 / 2 = 30$ .
- 30, 30, 30, 30, and 30 in each sphere of governance give the glow of a new beginning.
- The beginning. Controlled guidance of Israel under the Stone Kingdom.
