PART II

July and August Updates

Received May 28 and 29, 2024

When observing, The May 28 and 29 calendar updates are more quantitative than previous updates. Still, the translation procedures are the same as those of previous calendars and updates.

As a unique case, 19 stands out in the translation procedures. Whenever a monthly calendar event dates are published, it's intriguing to identify and group the same numbers for further analysis. For our example, 19 have been selected and put into its group, totaling eight. It's crucial to note the rarity of the number 19 in July. This unique occurrence of 19, coupled with the variable eight, holds potential and significant symbolic significance in the calendar updates, adding depth and meaning to our analysis.

19	19	19	19	19	19	19	19
----	----	----	----	----	----	----	----

A review of biblical 19

Before going further, let's review the numeric biblical value 19 composed of $10 + 9 = 19$. There is an interchange between 19 or 10 and 9, portraying the essential meaning regardless of calculation expression.

Delving into the practical implications of the definitional forms of 10 and 9, we find that numeric ten biblically expresses the concept of testing/trial. In some situations, it can be seen as a probationary period, a practical engagement to be responsible for or against reality. The Ten Commandments, for instance, serve as a practical guide to avoid social deterioration within communities and even fatal death in given situational realities in daily life. This profound understanding of biblical 10's significance truly enlightens our interpretation of calendars and calendar updates, adding a new layer of depth to our analysis.

Indeed, countless people are killed each day as death comes as life completion because they did not live in the perpetual probationary period and come to the Son of God in repentance.

Numeric nine biblically encompasses fullness or completion; likewise, numeric seven signifies completion. Moreover, biblical 9 denotes finality and judgment. Galatians 5:22 & 23 lists nine fruits of the Spirit, a concept that resonates with our human experience. Also, human birth has a nine-month gestation period, a natural parallel to the biblical symbolism 9, further deepening out connection to these biblical interpretations.

19

The numeric biblical definition 19 states a holy orderliness or the sacred grouping categorization arrangement. Usually, 19 applies for judgmental execution. Isaiah 46: 9-10

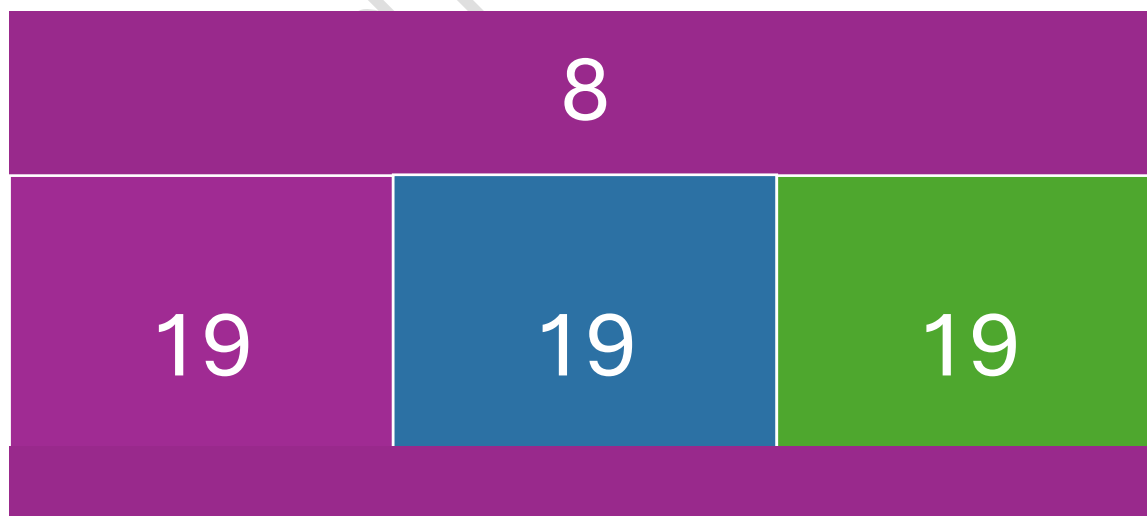

- *telling beforehand the latter events before they come to pass, and they are accomplished together: and I said, all my counsel shall stand, and I will do all things that I have planned.*

Variable 8

Biblical numeric definition eight associates with:

- Abundance mainly in the context of monetary assets.
- Communal ingathering is like family and parental relations.
- The new beginning, a change, and spiritual growth.

Let's delve into an example that illustrates the uniqueness of the number 8 in biblical numerology's interplay with the number 19. The number 19, often associated with judgmental execution, is given eight times. This repetition of eight with each of the nineteen proponents acts as a pre-design stamp, symbolizing a paradox. Out of the judgments, we witness the birth of new social configurations, elemental forces, and even parental relations, underscoring the distinct and influential role of the number 8 in societal repositioning.

Recapping, when 19 is seen in any total count or any other number, it has only one qualitative value as defined. At hand, 19 has a total count of 8, operationally stamping each 19 **proponents** in each situation in July.

22

The biblical numeric definition 22 is quite intriguing. It signifies **disorganization, disintegration, and imperfection**. What's even more fascinating is that 22 is represented by $11+11=22$. Both 11 and 22 share the same value trait of disorganization, but 22 magnifies this trait, making it even more significant.

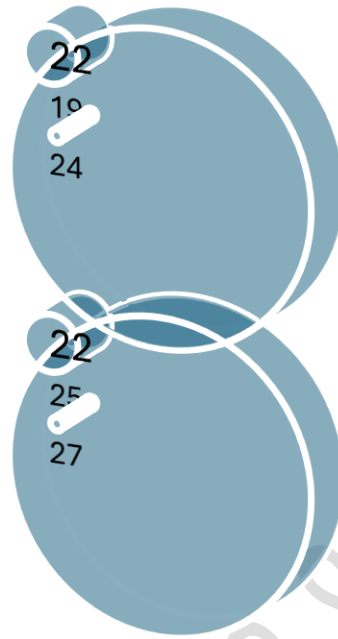

The Regime 22

19	26	25	26	23	22	26	29	30	31
30	31	30	30	31	30	27	28	25	24
(4)		(3)	(2)						
23	24	23	22						

22

The above is an example of the monthly calendar or updated dates regime. In most cases, an exclusively assigned number characterizes its own regime. In the above example, 22 commands its regimentation. 22 is operational in 19, and in all the numbers, though 19 has a specified function within the regimentation, it is attributed to 8.

22 is the physics, the character operation within the calendar dates regime. The graphic below shows how 22 interrelates to all calendar dates within its regime. The graphic only gives an idea without involving all the calendar dates.

The principal Question

What is the criterion for selecting the calendar dates regime? The calendar regime dates appear directly from the Magistrate of Heaven based on biblical statutes and the High Court of Heaven as a divine Restatement or Proclamation: “**Thus, Says the LORD.**” Moreover, in part, we see the forms in which we are the active contents, manifesting the rulings and the announcements.

Consider the following agenda:

- 1) Unfulfilled Feast Days.
- 2) The schedule for unfolding end-time prophecy.
- 3) Programmed objectives to bring content to a new social system called the Stone Kingdom or the Commonwealth of Labor.
- 4) The new feast of Leavened Bread replaced Unleavened Bread.

- 5) The contents of Jubilee in its first seven years.
- 6) The removal of the Mosaic Curses enabled the ten tribal nations to re-personalize their tribal names.

The above list is a few examples entailing the Holy Spirit's guidance through the calendar regimes per the Abrahamic Covenant and the Mosaic Six Article Economic Program for the returning exiles from the West and worldwide to the Promised Land.

Case Studies of Biblical 19

Juneteenth

On June 19, 1865, General Gordon Granger, a pivotal figure in history, delivered President Lincoln's Emancipation Proclamation to enslaved Judah on Galveston Island, marking a crucial turning point in their lives.

While the day was historic, the most significant details have been minimized. To review, President Lincoln issued the Emancipation Proclamation on January 1, 1863. It took two years for this proclamation to reach the enslaved people. Finally, on June 19, 1863, General Gordon Granger and his 2000 soldiers delivered the official news of chattel slave abolishment. For the record, the enslaved people knew that the Union had won the War at the time General Lee surrendered two years prior; they had to wait for the official statement with the show of military power.

The enslaved masters knew that it was a new day because they, too, were under Union laws and would be prosecuted accordingly.

While the enslaved people of Texas were free under Union law, a certain percentage of enslaved Judah was still enslaved in other states, and it would be on December 18, 1865, when the 13th Amendment would pass in the U.S. Congress, putting an end to forced economic exploitation.

On June 19, 1866, the ex-enslaved people commemorated their Freedom Day in all black churches in Texas, and, in subsequent years, it became a Texas state holiday. Over the years, however, many black activists in the Western part of America pushed to make Juneteenth a national holiday. Doing so was logical when knowing July 4, 1776, was the constitutional day that nationalized Judah's enslavement. Hence, Juneteenth would stand in contrast to enslaved Judah on July 4, 1776.

Comparatively, the American colony stood up to Britain in the American Revolutionary War and won. Their win declared their sovereignty through the constitutional declaration on July 4, 1776.

Juneteenth, a pivotal historical marker, signifies a pre-constitutional celebration when Judah would stand with the Ten Tribes protected under 13th Amendment to the U.S. Constitution on December 18, 1868. However, on June 19, 1865, the enslaved Judah received the news about his changed relational position in social production; that is, he was no longer in contradiction with his own labor. What? This date marked a significant turning point in history, as it was a date, wherein he could keep, to a degree, retain surplus of his labor, thereby creating financial stability for his family.

Constitutionally, it would be December 18, 1865, when all enslaved people of Judah and the Ten Tribes would claim freedom in opposition to forced economic exploitation inclusive of all industries.

In an influential act on June 17, 2021, President Joe Biden, **Signed the Juneteenth National Independence Day Act**, officially designating Juneteenth as a federal holiday. This significant event is not just a political decision but a profound recognition of a complex historical context that we must explore to comprehend its importance fully. The elevation of Juneteenth to a federal holiday is a significant event rooted in a complex historical context that invites us to delve deeper into its significance.

The elevation of Juneteenth to a National Holiday on June 17, 2021, was not just a political decision. It was a profound recognition of its deep-rooted historical significance. The holiday's

origins, intricately woven into the biblical narrative of Judah, add a layer of intrigue to its historical context of Juneteenth. This parallel, along with the rise of Oklahoma as the nation's oil capital, offers a fascinating insight into the holiday's cultural implications, inviting us to delve deeper into its significance.

As such, consider that Judah is not counted in Jacob's tithing-blessing, as Judah was assigned a different pathway since the days of the Southern Kingdom of Judah. For instance, Joseph located Ephraim's Ten Tribes in North America three thousand years before Judah arrived in 1619. As Moses foretold, Judah would come to North America in ships as an enslaved people.

Consider this: on June 18, 1865, General Granger and his soldiers arrived in Galveston on ships and raised the Union Flag, a powerful statement of sovereignty. The next day, on June 19, the General read his Order 3 before a large audience, declaring a quarter of a million people free from bondage. This momentous event, often called Juneteenth, marks a significant turning point in our history.

So, on June 18, 1865, a prophetic **epigraphic** design (see image below) appeared in heaven, telling of Judahcratic global governance.

Prophetic Coherency.

Returning to Nat Turner, his actions can be seen as a prophetic illustration of America's life cycle. His body deconstruction, a concept rooted in Judah's harmonic physics Middle East and Texas oil industry engendering the Petrodollar. This connection assigns international weight to Juneteenth, a significant event that symbolizes the call for global participation in the evolutionary growth of Judahocracy, as narrated in the Design of Heaven on June 19, 1865

The Moon stood still on November 3, 2020.

Behold **prophetic coherency**: the Moon, a celestial body of divine significance, stood still or three hours in the Southeastern portal on Enoch's Solar and Luna Calendars on the night of the presidential election between Trump and Biden. This was a sign, a celestial proclamation, that despite Biden's initial lead his victory was yet to be fully realized. The Moon, a celestial messenger, had spoken.

The Judahite understood the cosmic hour of the moon's stationary position on Tuesday, November 3, 2020.

Picture the Judahite, standing before his portal, his heart filled with anticipation and awe. Through Enoch's Solar and Luna Calendar, he could see the Moon's gateway, a key to understanding the cosmic hour. This portal appointed the season for ingathering tribal Judah worldwide during the remaining three phases (e) the ingathering (f) the fall and (g) obtained monetary assets and depart.

The heavens' Command Warfare Model.

Remember, The Judahite saw Joshua's moon move from its stationary position, where Joshua commanded the moon to stay until he finished the battle, not the war, with the Amorites. Where it stopped and where it commenced moving, taking five hours and vanished, is how long it would have taken for the moon to set in the day of Joshua. Amid the sky, the moon disappeared from The Judahite's view. In that prophetic battle, Joshua had the arm of Archangel Michael on his right side.

For the Judahite, the moon was not just a celestial body but a strategic signal. Its movement marked the time to launch Part II of the battle, targeting the Amorites' banking and financial industry, a key to their power. *The love of money, the root of all evil, would be the Amorites' downfall.*

Imagine King Hezekiah's anticipation of knowing God could extend his life backward or forward in time. King Hezekiah wanted to return to his youthful days of good health and good life; God moved the sundial backward, granting him fifteen years of living.

Enoch's Solar and Luna Calendars do not make sense because people are taught to view them as mere astronomical tools, when in fact, they are profound prophetic guides that can reveal the divine plan in celestial events.

It's fascinating to note that while the heliocentric model is widely accepted, some, like Joshua, Isaiah, and The Judahite, adhere to the geocentric model, where the sun is believed to revolve around the Earth. Joshua's command for the sun and moon to halt in the sky, as nonsensical as it may seem, is a testament to the geocentric model's significance in understanding Enoch's Solar and Luna Calendars.

At the heart of Joshua's Warfare Model is the physical presence of Archangel Michael, a key figure in the arrangement of the sun and moon by command. This model is intricately linked to military duration against the Amorites and the Amalekites. Archangel Michael's role is two-fold: (a) To protect the Congregation of Israel and (b) to unfold the Abrahamic Covenant in historical stages, with the Amorites' iniquity coming before justice at the milestone of heavenly issued its

degrees. (c) The Amorites' iniquity maturity is measured in degrees of its massive accumulation of wealth through social oppression and financial exploitation, correlational with Judah's prophetic milestones within Abraham's prophetic framework.

Let us not overlook the profound alignment of events on Galveston Island on June 19, 1865, with the celestial design (as confirmed by NASA) and the subsequent mirroring of these events with President Joe Biden's signing the Juneteenth National Independence Day Act on June 17, 2021. This Act, now making Juneteenth a federal holiday, carries immense historical weight in the narrative of the abolition of slavery in the United States.

Historical significance difference between Texas June 19, 1865, and December 18, 1865, passage of the Thirteen Amendment.

Giving attention to the worthiest prophetic aspects in the removal of chattel slavery law, enslaved Judah on Galveston Island heard the reading words of their rights to keep heir out their labor power through free will.

- On June 19, 1865, tribal Judah transitioned from being an instrument of labor to selling his **labor power** under contract and through wage employment.

Galveston Island

Galveston Island, a mere two miles from Texas' mainland, stands as a unique entity, separate from and a part of Texas. Its natural harbor, a strategic advantage, has facilitated the export of cotton and the shipping of trading goods to numerous global destinations but also withstood the test of time, bearing witness to the ebb and flow of historical events. Notably, Galveston holds the record for hosting the world's largest number of cruise ships, a testament to its historical and contemporary significance.

Prophetically, Texas is a global trading gateway for oil and the natural energy industries.

Galveston Island,

Is a place of profound prophetic significance and the backdrop for a four-phased prophetic process in Duet. 28:68. Here, Moses prophesied Judah's return to captivity via ships. The end of the Civil War marked the end of Judah chattel slavery, with the reading of the Emancipation Proclamation on Galveston Island. This event signaled the fulfilment of capitalism's foundation. Capital Accumulation is the critical mass necessary foundation for capitalism, as a social system, to become developmentally ready to practice imperialism.

- As told by Jeremiah, after chattel slavery, Judah would be united with the Ten Tribes to fight against social oppression and become financially exploited as a milking cow for others who control the banking and financial industry. Though poorly understood, Jeremiah marked the second historical phase of slavery as banking and financial, a massive commercial, operational system independent of physical location due to technology and national and international banks
- The Heavenly Court displayed its divine sign in the heavens on June 18 and 19, 1865, over Galveston and Texas when General G. Granger arrived by ships confirming Nat Turner's prototypes of oil and guns (military army).
- Judah's enslaved had already harmonized Texas and the Middle East's untapped oil reserves. Thus, upon capital accumulation, oil production could start and supply industries worldwide—the precondition for ending Judah's chattel slavery.
- On the other hand, the sign seen in the heavens tells of Judahtocracy's fascinating design, evolving systematically to immobilize federal laws. **Yet Texas would always be under the Magistrate of Heaven's situational ruling to counter opposing interests of Judah's well-being in real time.**

June 19, 2019, and seen on June 19, 1865 (Taken from NASA Website)

Divinely Expression of Joy

*"The secret things belong unto the LORD our God: but the things that are revealed
belong unto us and to our children forever, that we may do all the words of this law."
Deuteronomy 29:29*

Black Texans

Indeed, June 19, 1865, was a cause for inspirational jubilation after hearing the words because ex-enslaved Judah had the promise of liberty through constitutional amendments liberty on the one hand and the Bible on the other hand.

In perspective, Judah/Texans never played a major aggressive overt part in the constitutional amendments movement for Civil and Voter Rights. However, the territory of Texas is under Judah's prophetic jurisdictional court. The Magistrate of Heaven has decreed perpetual contextual justice on evil through **countless supernatural and divine occurrences common in nature and society that cannot be explained as related to fairness for Judah. The judgments are conditional, making those on all levels of society know there is a God in Heaven who would counteract or recompense evil against Texan Judah.**

The reality of pervasive evil in Texas is evidence of the principality's active involvement to make life harder for the Congregation of Israel and to bring them over to the dark side against the New Testament.

Acknowledging Texas' Credits

- Black Texans held the course over the years and gave us Juneteenth.
- From an early period in Texas' history, Black Texans contributed to labor rights case law under the Civil Rights Act of 1866. However, the State Black Code Laws effectively put an end to Black Texans receiving relief.
- President John Kennedy played a vital role in the passage of the 1964 Civil Rights Act. President Kennedy died in Dallas. Texas, as influenced by the principalities.
- President Johnson, a Texan, nationalized the Alabama National Guard to give protection to the March from Selma to Montgomery and went on to play a vital role in the passage of the 1965 Voter Rights Act. His acts supported the constitutional amendment movement Civil and Voters Rights in disrespect for the Principality over Texas, ensuring Johnson would pay a heavy price. Indeed, the nation turned against his Viet Nam policy and pushed him out of office.
- At the appointed time, The Judahite arrived in Texas after a decade of elliptical travel for judicial relief per the model of Nat Turner's black Petro-currency. (1) The Judahite validated Nat Turner's black Petrodollar currency and continued inbound to where Nat Turner's death conviction took place in Virginia, Maryland, and

to where Nat Turner's death conviction took place in Virginia, Maryland, and Washington. (2) The Judahite divinely affirmed America's life cycle of America through Nat's Model of deconstruction re-composition. (3) The Judahite Acknowledged the faithfulness of God's words in the validation of Judahtocracy as expressed in the heavenly design on June 19, 1865, and June 19, 2019. (4) and constructing the means for collecting the monetary assets to make Judah whole.

Jacob's will to each of the patriarchs enunciated the claim to global monetary assets engendered by divine physics.

- The Abrahamic Covenant covers Jacob's Will and Testament.

Moses, Daniel, and Nat Turner foretold the American Empire

Daniel gave us the characteristics of the Gentiles' fourth and final Kingdom, or social system symbolically composed of iron and clay. Many attempts would be made to bond the two discordant elements without success. Thus, the kingdom would be partially strong and at the same time broken, not necessarily weak, as Judahtocracy needs room to evolve. (Read Daniel 2:40-45).

Turning to Nat Turner, the Asherite, to ground us in the reality of our times.

The Asherite gave us a comprehensive illustration of America's life cycle; in so doing, the LORD brilliantly deconstructed Nat's body as a Model and used portions of his body for commercial usefulness, like turning his flesh into axle grease; his skin was used for cover on ladies' purse denoting the black purse as the bank in which to place the Petrodollar, which is now the global benchmark currency.

Nat prototyped the most advanced techniques to extract oil from the ground. The LORD provided the environment by causing gushing oil to come out of the ground which was a practical problem for Nat to solve. So, he did.

Nat read and understood the elements on the periodic table, went a step further, and prototyped gunpowder from dirt. The metaphor for the American military might to defend the Petrodollar.

Long before Texas existed, enslaved Judah of the Middle East was given harmonics physics to sanctify the oil reserves throughout the Middle East hundreds of years before enslaved Judah entered Texas to lay the economic groundwork for the Texas Revolution.

The same harmonic physics was attached to Abraham, as he received a directive from the LORD that wherever he walked would be his blessed land. Abraham's journey covered the Middle East.

After December 18, 1865, Texas and the Middle East oil industry evolved and eventually combined, becoming global in oil exaction technologies. The world runs on oil, as oil was necessary for advancing capitalism and imperialism for the growth and expansion of commercial activities.

Oklahoma became America's oil industry capital for domestic consumption, credited to the Ten tribes of Israel. Conversely, Texas became the international gateway for exporting oil and oil technologies and natural energy.

Nat Turner, the Asherite, prototyped the United States oil industry and, in doing so, illustrated America's developmental life cycle as a nation.

Celestial bodies and signs in the heavens are for communication.

A percentage of celestial bodies' configurations are given as a catalog to find the times and seasons corresponding to the Courts of Heaven' Rulings.

- The rainbow is a contextual covenant given to all Earth's life forms not by water but by fire will, which will destroy wicked people like before the flood and Sodom and Gorrarah. The rainbow is an often-seen sign for people to know about ungodly acts. There are many people worldwide who genuinely believe the LORD's Planetary Oath has no value as well as the divine motivation for causing the flood. The core disbelieving people have many friends, families, and associates who view the rainbow oath with no meaning in their lives; of course, they have the freedom to choose their lifestyle. Still, the Rainbow Oath stands and will not change.
- We use the celestial bodies to determine religious practices.
- Angels give contextual signs to the Congregation of Israel in end-times prophecy.
- Likewise, individuals receive contextual signs with specific instructions.

In brief, some celestial signs are repetitive while others repeat with variations, yet others appear only once. We can look back, though limited, we have the means through computer software to look at the night sky two thousand years ago.

NASA Image of June 19, 2021

At hand, June 19, 2021, came as Juneteenth's celebration two days after President Biden signed into law June 17, 2021, the federal Holiday Act.

Whereas the President followed the historical precedent by using the biblical value 2 to drive the Executive Branch officiating ceremonial announcement two days or two years before the Announcement, there is a problem of complexities with making Juneteenth a National Holiday.

For the record, slavery existed until December 18, 1865, when the U.S. Congress voted to certify the 13 Amendment to the Constitution, abolishing slavery. This is a historical mismatch of dates that cannot be maintained under any circumstances. Even Jeremiah makes a timeline distinction between the character of slavery, pre-Civil War, and post-Civil War captivity structurally oppressively and economically exploitative; hence, the two forms of enslavement related to Judah and include Israel as secondary actors.

Jeremiah's Seventy-year Letter is written to tribal Judah living in the era of imperialism. The letter has substantiated all the events forecasted, including transferring prophetic jurisdiction over Israel to The Judahite before the 400-years release date for Judah and the ten tribes of Israel that came in July 2019.

Once we step outside the mindset of right now or within a week's time, we see coherence in prophecy. Angel Gabriel put the June 19, 2021, design in the heavens, (see NASA's image above), on the same day that ex-enslaved Judah was released from chain bondage on June 19, 1865.

As an extension of relevancy to the year 2021, 21 regardless of numeric expression retains its biblical value. Consider, Angel Gabriel departed the Second Heaven Courthouse to visit Daniel after being detained in a legal proceeding for 21 days to empower Daniel with end time skills.

Prophetic biblical 21 is never a day for looking backwardly to pass events, rather looking forward. Currently in its form, Juneteenth's essential thrust is about constitutional accommodation, participatory democracy under plutocratic sovereignty .

Juneteenth must be changed programmatically to cover December 18. 1865, the date that the U.S. Congress certified the Thirteenth Amendment inclusiveness regarding the Ten Tribes of Israel.

Additionally, the programmatic contents will center around Judahcratic outlook, a necessary requirement transitioning to the Commonwealth of Labor. The primary question for Judah and the Ten Tribes is what you have done to advance the preparation to live in the era post America Empire.? Without a substantial answer, it becomes imperative to stop and adjust one's priorities.

While impressive Juneteenth celebrations will take place across the nation, there is little value in them without the new programmatic contents. The celebration must mirror Gabriel's heavenly design in translation to practicing Judahcracy.

American prophetic life cycle

Congregational Deconstruction and Reconstituting Israel.

Nat, the Asherite, diligently read the signs of heaven accurately. Nat was under archangel Gabriel's tutelage.

Just as Nat's body was deconstructed to brilliantly illustrate America's growth and expansion as a global empire driven by an abundance oil and natural energy, i.e., natural gas supply, so too, America's systematic deconstruction.

Milestones of Prophecy Always appear At the right time, at the right place.

Decades ago, The Judahite received an illustrative theological testimony underlining the prophetic rise and fall of the Petrodollar.

As an Asherite, Nat brought a unique perspective to his analysis of America's life cycle, illustrating all significant elements. His prototype of gunpowder, often overlooked due to its complexity, was a testament to his deep understanding. Nat's work with the periodic table provides two instances that merit our consideration.

- A. 9/11. To this day, no one has given a compressive explanation of the World Trade Tower collapse. Yes, Yes, Yes, we have heard all versions of what happened. Terrorists from Saudi Arabia hijacked airplanes. All versions explain the operations but don't discuss the conceptual classification.
- B. The Judahite was at the World Trade Tower Center three months before the hit. After the hit, reports surfaced, saying over a trillion dollars were transferred out of the country a day before the hits. The motive is clear: financial warfare. The Judahite's war with the Amorites is financial. The point is to bring down the American Petrodollar stronghold. Baffling to many, the technology used to bring down the Tower is not generally known.

- C. The periodic table regarding airplanes and high explosives comes to mind. A building collapsed with investment associated with Texas is added to the list of collapsed buildings.
- D. New Yoke is one of the strongholds of the Amorites. Indeed, spiritual and physical warfare is in the fourth and fifth dimensions, making it very difficult for people to conceptualize.
- E. Amplifying Nat's gunpowder, a major explosion took down a portion of the Pentagon, verifying Nat's illustrative biblical prophecy.
- F. Like Turner, 9/11 people's bodies were fuel for the fire. Deconstructed bodies were never presented for a common funeral. In New York, people ran in all directions to escape with bodies covered by falling dust, reflecting images of ghosts.
- G. Finally, not to compare apples with oranges, an explosion occurred in Nat's home territory, killing two of The Judahite's friends. Flesh here and there was found.
- H. What happened?
The finger points to State Security Forces' involvement. They were prophetically deconstructed, like Nat Turner. The explosion foretold of 9/11 events—a continuation of warfare against the Amorites.
- I. At this point, the best way to understand what is prophetically occurring is to understand physics' fourth and fifth dimensions. The Judahite decoded Nat's deconstruction and continues to display the 9/11 meaning of the destructive events.
- J. Again, the LORD's brilliancy is seen by causing the explosion-blast that deconstructed the two saints to further illustrate the end of America's life cycle with **emphasis:** (1) As two witnesses, they carried the components of Judahtocracy and pre-ordained to act. They were at Camp Selma Prison for ten days with The Judahite. (2) Even the Nation's Capital and the White House are components of Judahtocracy. Tribal Judah constructed them.
- K. Having body parts scattered to the winds illustrates how the Judahcratic forces will come upon the nation with impact explosion by night.
- L. In sum, the two witnesses assured us absolute victory over the Amorites, the elimination of the Amalekites, and the Babylonia system, including the land of the Chaldeans. Hence, the supremacy of Judahtocracy. Revelation 18:21

Coronavirus-19 Case study

From December 2018, The Judahite, with unique insight, began to perceive signs of a looming social crisis, a disturbing revelation. These signs, a blend of good and evil beyond normalcy, hinted at an impending judgment beyond comprehension. As January 2019 drew to a close, The Judahite started noticing scattered reports of COVID-19 cases emerging from various corners of the globe. By February, these reports had escalated into a global phenomenon. The Judahite, with his discernment, recognized COVID-19 as an artificial catastrophe.

By the end of January 2019, The Judahite started seeing scattered reports on COVID-19 cases in different parts of the world. By February, the reported COVID-19 cases had become more widespread worldwide. The Judahite came to consciousness that COVID-19 was an engineering conspiracy.

The Judahite did not seek to know who was behind COVID-19, though the origin of COVID appeared in China. While it is best not to jump to conclusions without a thorough investigation, the reality of the situation demands immediate attention.

Viewing the unfolding situation as a test of faith for the 144K, The Judahite turned to the LORD in a fervent plea. He petitioned for the 144k to be granted the power to control COVID-19, to both take lives and preserve them in their respective locations worldwide. The intention was clear: to punish the wicked communities at all levels of society, twice as much as the righteous ones, to purge evil from the Earth.

The Court of Heaven, recognizing The Judahite's role in the divine plan, sent him a certificate of approval. The Judahite, guided by this divine approval, issued a date in March when the world would see a spike in COVID-19 deaths. Indeed, the World Health Organization (WHO) declared COVID-19 a global pandemic that day, affirming The Judahite's prophecy.

The results:

- 1.) Death cases worldwide increased. America, like other countries, could not cope. The health care system collapsed.
- 2.) Everyone is told to wear a mask. The Judahite purchased a face mask only to pop off supernaturally. Indeed, The Judahite got the message.
- 3.) The lockdown was a preventative step to slow the spread of COVID-19.
- 4.) All significant cities worldwide have become ghost cities, and very few people are seen on the streets.

- 5.) The drug industry quickly searched to find a cure.
- 6.) As known from medical history, the drugs would cause COVID -19 to mutate.
- 7.) The mutations were twice as lethal as COVID-19, causing death three times as faster than COVID-19.

Nothing has changed in the mentality of those who hold the Elohim in contempt since the days of Noah.

Early in the first year, the once large crowds discredited the authenticity of COVID-19 decreased as COVID-19 continued to lead people to their exit door to death. The lesson: people will always stand against objective reality; therefore, there is no need to engage in unproductive discussion. Instead, quickly move away from people who see the rising death tolls and save oneself.

Noah, guided by the LORD, entered the Ark seven days before the rain came. He didn't share this information, perhaps because he saw no basis for it. The salvation for the pre-determined biblical eight was inside the Ark. When the rain started to fall non-stop, the people, no in panic, ran to the Ark, begging to come inside. But it was too late. Those locked in stayed in and those locked out stated out, a stark reminder of the consequences of not heeding early warnings.

Amidst the COVID-19 pandemic, those with foresight prepared for lockdown, whether in groups, families, or as individuals, and thus had limited need for external interactions, were better equipped to avoid the virus and felt a sense of empowerment and control. As a universal lesson, placed value on early preparation and isolation as proactive measures, giving us the power to protect ourselves and our loved ones because when people face a societal crisis, they lose a sense of rationality.

What is striking is that healthcare professionals did not know the definition of a pandemic in actual reality—in real time. Furthermore, they did not understand 19 in the biblical context.

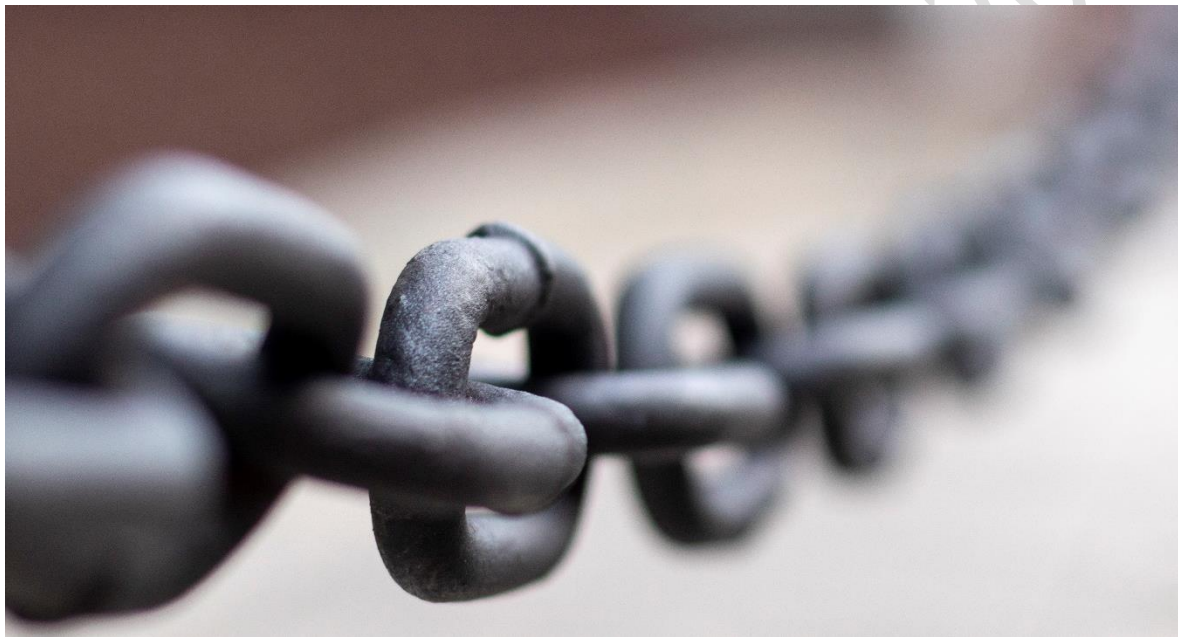

Case Study: 400 years and 2019 Breaking the Chain after 400 years.

The year 2019 with focus on 19 as a numeric value of prophecy.

The LORD clearly states that he uses cosmic bodies to message people of the earth. He gives specific signs for religious observance and, on the other hand, judgmental signs.

On the prophesied day of July 7, 2019, as foretold in the Abrahamic Covenant, the Jurisdictional restrictions were lifted from Judah and Israel, marking the first step in the transition to the Promised Land.

Having given a detailed accounting of July 7, 2019, in a different presentation, The Judahite briefly states that a van was pulling a car with a 3/4" or a 1-1/4 " chain when before The Judahite, the chain snapped. One end of the chain stood upward in an anti-gravity position.

The anti-gravity position

The chain's anti-gravity holding position signals Enoch's cosmic portals opening to Abraham's star Arcturus in the constellation Boötes.

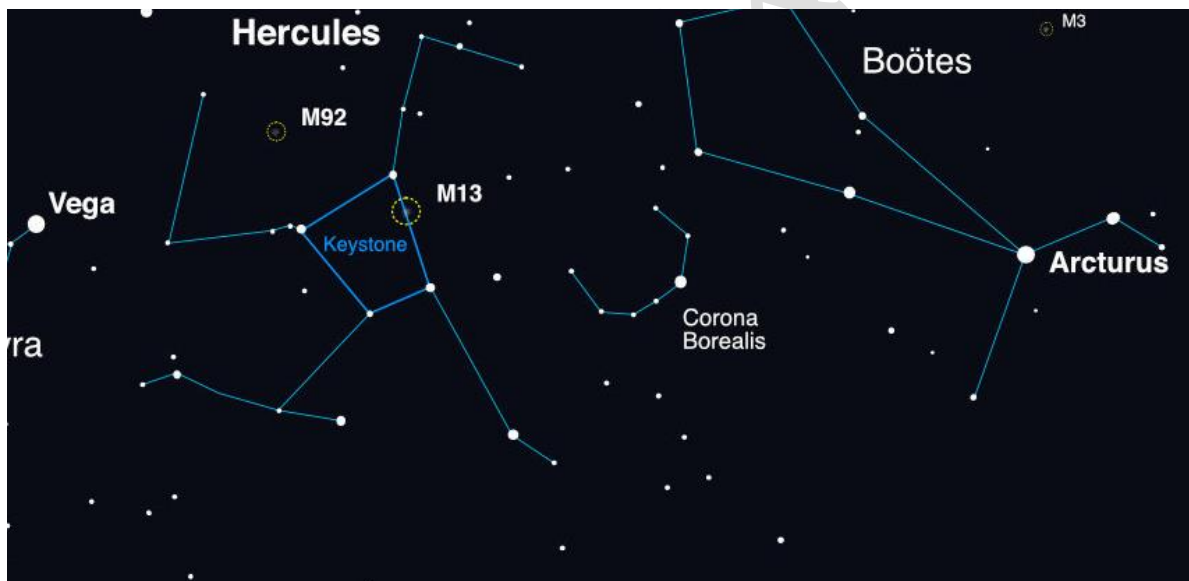

Exploring the profound intricacies of Enoch's Solar and Luna Calendars is a journey of intellectual enlightenment. Through this profound understanding, we can truly grasp the cosmic portal opening to Abraham's star, Arturus. Enoch, in his profound wisdom, unveiled the precise timing of these celestial gateways around our sun. He foresaw the portal in which our sun would emerge, heralding the 400 years LORD of Sheep would remove the jurisdictional encasement from Judah, a moment of immense cosmic significance.

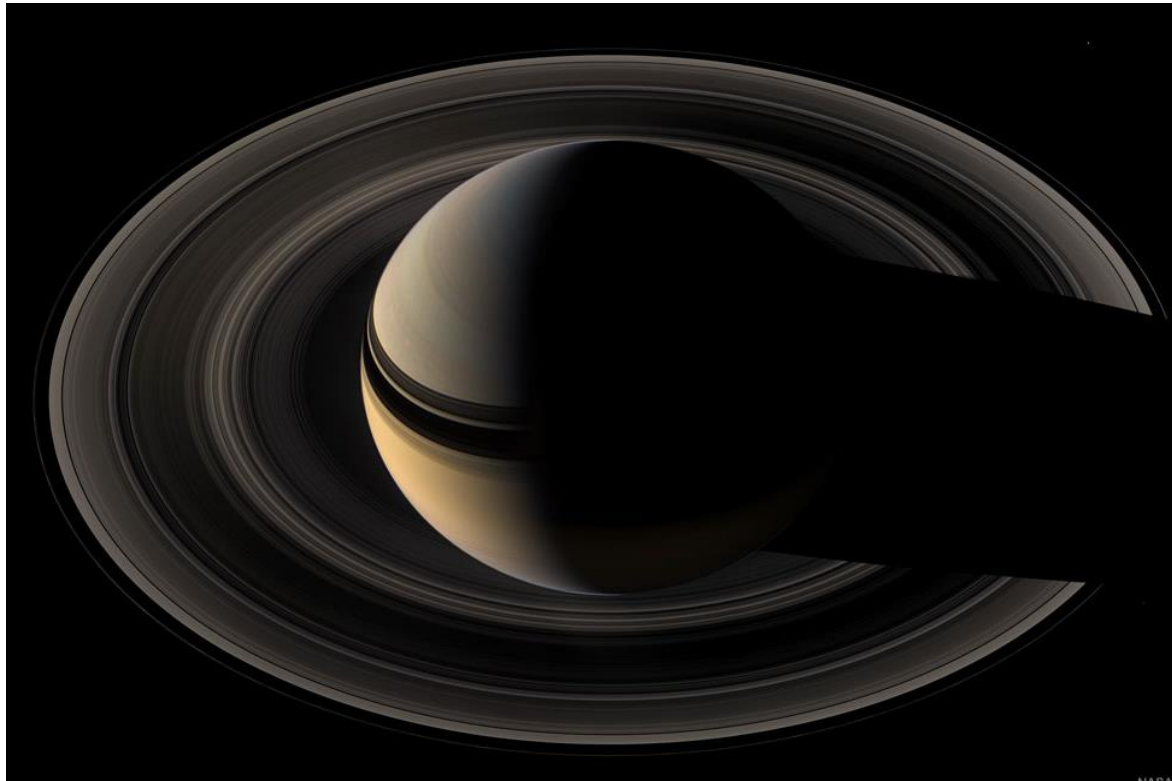

The Earth was in the proper place on July 7, 2019, to synchronize with the opening portals to the constellation Boötes, where Abraham's star Arcturus resides.

On the night of Abraham's birth, a gaseous star "raced across the cosmos and consumed other stars," a metaphor for Abraham's descendants ruling the Earth. Later, the LORD instructed Abraham to walk outside his tent and look up into heaven to show him how numerous his descendants would grow in population count.

The image of Saturn Crescent gives the ideal timing for the portal openings. The sun, the Earth, and Saturn were in their gateways for the cosmic clock to validate 400 years upon snapping the chain of restrictions. .

As soon as the chain snapped before The Judahite, the gateway portals opened to Arcturus, validating the lifting of 400 years of jurisdictional restriction from Judah.

Concluding biblical 19

July 7, 2019, commenced the transitional second phase. For instance, in 2019, Jubilee reintroduced new principles for Jubilee that are still being fashioned.

The Feast of Trumpet is still in progress; civil conflicts are intensifying. Thanks to tribal Naphtali for announcing the current internal and external conflicts regarding the Ten Tribes of Israel and Judah.

- The Feast of Tabernacle is being fashioned anew, as we can eat Leavened Bread.
- The war in the Middle East projects our relocation.
- 144k has been registered.
- 19 is birthing revolutionary changes within the Congregation and in society.
