

Memo (0352022)

To: The Congregation of Israel

From: The Executive Body of Israel ^{TJ}

CC: Changes made since 3/8/2022

Date: March 5, 2022

**Re: MARCH 11 COMES AS THE SECOND ANNIVERSARY OF COVID-19
WITH THE EXPECTATION OF ANOTHER MILESTONE.**

The Judahite and the Executive Body of Israel's consociation with Coronavirus has been detailed in previous presentations. I will highlight a few points as a review for a deepening appreciation of God's designed work methods; because they need to be fresh in mind as we move to the next level.

One day, not now, I will do a comprehensive presentation on COVID-19.

As foretold, a pandemic would occur at the end of the Gentiles' Age, which is now a reality. When I examined thousands of years' history, I realized that taking an interdisciplinary course of action fully discloses COVID-19's purposeful objectives. Otherwise, seeking alternative pathways leads the selected from seeing God's mechanism as revealed in real-time participatory circumstances designed to equip the vanguard with specialized instrumental tools for opening prescribed gateways. Thus, not taking the right knowledge pathway precludes the necessary tailored means for advancing the Stone Kingdom.

Disputation of COVID-19's Origin

I will put no effort into rediscovering the origin of COVID-19. However, a few details must be noted for understanding the reasoning for writing this memo.

- a. In December 2019, The Judahite started seeing unexplainable signs of biological warfare.
- b. In the second part of January 2020, COVID-19 was making headline news worldwide.
- c. The world's attention turned to Wuhan, China, as the place of origin. Generally accepted, COVID-19's creation came out of a laboratory, the essential legal fact for seeking legal compensation. Some say China created the virus for a military objective, but somehow the coronavirus escaped from the laboratory. On balance, China says a foreign agent brought COVID to China. Complicating the investigation is that the United States of America funded research at Wuhan.

- d. The signs given to The Judahite in the first part of December 19, 2019, pointed to biological warfare. At the end of December, Archangel Raphael confirmed.
- e. In February 2020, COVID-19 spread across the world like a wildfire. In Italy, death tolls set daily records. As COVID-19 spread around the globe, the reality became very clear to health professionals that they had no cure for COVID-19.
- f. Knowing that COVID-19 came out of a laboratory having either one or multiple objectives, The Judahite petitioned the Magistrate Court of the Second Heaven to allow a spike in cases worldwide and give the 144k managerial control.
- g. The Judahite set March 11, 2020, as the spike date and sent selected countries notification even up to March 9th to reach as many parties as possible.
- h. The World Health Organization (WHO) announced on March 11, 2020, COVID-19 as a global pandemic.
- i. In 2020, about 60% of people from all walks of life in America and industrialized countries did not understand the meaning of a pandemic. Today, in 2022, about 30% of the population still does not understand the definition of a pandemic. Go and look up the meaning of pandemic and do research on countless people holding anti-masking, anti-vaccine, and anti-self-isolation stances, then, one would see the disconnection driven by illogical rights of personal freedom when death is at the door.
- j. **Regardless of social status and educational levels, a particular category of people is naturally suicidal and likes to take others down. Millions of people died; the body count continues; whole families have been wiped out of existence; the death numbers and hospitalization are a fact of life. Notwithstanding, world's power centers have their own schedule, as seen in contradictory policies. Those who are wise look at medical data over the past year and act accordingly and live. COMMON SENSE.**
- k. Despite vaccines, people are still dying. Many people say they are tired of COVID-19. Such an attitude proves a lack of understanding of the word pandemic. Without question, all measures now in place have slowed down one strand of COVID-19's virus. Yes, this is good news! But don't become overjoyed so fast.
- l. Being a part of the embedded architectural design in the latter days, The Judahite invoked a petition for the Omicron Variant of COVID-19 to spread immediately, without delay. The petition aligns with the finding of 8/22/21. Despite COVID-19's devastation, people did not correctly atone and still stood in **contempt of atonement**.
- m. The Court of the Second Heaven granted the petition within minutes. Indeed, Omicron immediately overtook all critical centers of the world when man thought he could defeat a divine plague. Man's silliness knows no bounds. Like in Egypt, the epidemic rendered all the specialists

useless, and they were all swept away by the ten plagues. Likewise, the seven vials will sweep away those who are spiritually wicked, placing faith in promising artificial solutions. On **December 30, 2021**, WHO proclaimed Omicron a tsunami, overwhelming global healthcare systems.

- n. Frontline medical professionals have seen COVID-19 put a big dent within their ranks. In many places, an effort is now underway of rebuilding, i.e., training and schooling, medical capacity as seen pre-COVID-19.

A Summary.
The global lockdown and masking, a
Continuation of Soundwave25's duality
Bring
A blessing and a Curse at the same time.

An Interdisciplinary approach rounds off the understanding of the Gentile's Age and commencing the era of Israel's Commonwealth.

Scriptures and extra-biblical sources referenced in the Bible tell of the conjunctive period, our time, when great social upheaval would be seen worldwide, and the exilic return to the Land of Promise. On the timeline continuum, the node point denotes the start of the Stone Kingdom, which is another term for Yeshua's theocracy. Under one administrative system, Israel absorbs all Gentile kingdoms.

Still, to be grasped, the Commonwealth will rotate around the edificial new Temple, of which are many nuts and bolts holding the structural frame that surrounds Judah as the essential core.

Nothing on the earth, past, present, and future, emerges without forethought of pre-planning. In the first sentence of Genesis, Yeshua said he gives his life willingly and picks it up again to his accord. Consider the forethoughts of milestones in humanity's civilizations.

a) Often, The Judahite reference Enoch because he gives the operational framework of where and when prescribed events will unfold. Per forethought, milestone events, and locations would be aligned with the cosmic clock of heaven. Before our eyes, we see but cannot see. Enoch's structural wonders were designed to be interpreted to those meant to receive keys through actualized practice, not intellectualism. The pyramids are structural wonders and should not be construed in disconnection from other phenomena within a unified system designed by Enoch. Because of disconnected knowledge, many generations of men and women have used deformed theories and hypotheses to promote gross misinterpretations. The open market is where one would read volumes of literature.

Instructed by the host of heaven, Enoch recorded the explanations given to him. His book is for the sheep of the LORD. Still, he saw the LORD of sheep, the Righteous One, who would give the world his

doctrine before his ascension. In sum, Enoch coordinates earthly milestones events to sync with the heavens, and he tells where the hourly and second hands of the clock are at in each milestone of human history.

b) Jacob gives a conceptual relational database of knowledge between the twelve constellations and his twelve sons, which embodies the theological attributes of thanksgiving. The tribes are a blessing to be a blessing to the Gentiles.

c) Joseph worked off the book of Enoch, the books of Abraham, and the blessings from Jacob/Israel by multi-stratified the twelve tribes of Israel. He placed one of his sons in the East and the other in the West. They both played a vital role in the developmental history of colonialism and capitalism. On the other hand, Judah plays an integral part in the stage of imperialism.

d) The Torah gives us the Feast Days as another step to place the Congregation in sync with the Elohim's cosmic clock.

e) Solomon asked the LORD for a knowledge database to manage his kingdom effectively. Engineering, manufacturing, mining, etc., problems were brought to Solomon for answers from men of different countries in the known world. Solomon accumulated vast wealth for the era of capitalism. Having foreknowledge of Moses' Proclamations, Solomon's wealth and riches jumped started the age of Colonialism leading to capitalism. He knew about the tribal nations of Ephraim in the West and Manasseh of the East. He married an Egyptian Princess and built her a palace in Israel. A prophetic statement that he knew North America would be the new Egypt.

The secret societies found Solomon's intellectual properties and monetary gold to fashion different social systems, including our current system of imperialism.

f) Daniel establishes a parallel relation between the Gentiles' four kingdoms and Judah, enabling us to remain connected. Looking at the Man-image statue of the four Gentiles' social systems, we would not become confused about Judah's locations over thousands of years. Currently, we await the supernatural falling stone to hit the feet of the Gentile's social system to usher in the Stone Kingdom.

Soundwave25 Expresses the Character of the New Temple

History's points of confluency are puzzling when predictive thousands- year markers are unrecognizable.

Conversely

When the time capsule holding thousands of years' prognostic events is revealed by the predestined, the confluency of history flows according to the determiners at the exact coordinates for historical validation in pre-arrangements.

Judah's prophetic history is shown written in stone three thousand years ago at Angkor Thom's Temple complex in Cambodia. Today, we live in the reality of the latter days, making it easy to read history without ambiguity. Judah's Stone Memorial serves to crystalize Judah's spiritual meaning of elevated spiritual dimensions, the onward and upward levels of the **Tree of Life**. Also, the written history in stone and the Stone Kingdom represent the inclusionary ending of Gentile Kingdoms.

With emphasis, Soundwave25 characterizes the New Covenant.
Yeshua's Mission Statement embodies **I can now breathe**.
Lifting jurisdictional restrictions allow the Ten Tribes to model stylistic sanctuary worshipping upon returning to the Land of Promise.

Tribal Naphtali's illustrative announcement "**I can't breathe**" ended the dependency within the pre-arranged Gentile's division of prophecy. On the other hand, Judah's jurisdiction is an oath of promise to restore the Congregation the right to breathe.

In isolating natural mystic idealism about "**I can't breathe**," I give a thumbnail overview of the prophetic infrastructure of Time and Place. Before Dred Scott arrived at Fort Snelling, the critical foundational work was already in place. Then came the reconstituted tribal nation of Issachar. Once reconstituted, members of **tribal Simeon** of the East came to mark off where The Judahite would start his second phase construction conforming to Angkor Thom Temple Complex, which mirrors Joseph's topography complex at Saqqara Egypt. The Judahite had to dedicate himself to studying and re-study the advanced theories from the Eastern tribes of the East. After which, The Judahite continued and completed the prophetic infrastructure development for receiving Soundwave25, which, from a different view, carries a multi-harmonics resonance coded frequency for Judah and the Ten Tribes. Per Revelation, the Ten Tribes will regain governorship of their nations.

Now, let's consider the operational mechanics of SOUNDWAVE 25 without all the political theatrics of the time. **A.** the design **infrastructure pre-defines** all prophetic components. **B.** As a component, The Judahite's practice actualized dual practices in real-time and futuristically. All designed architectural elements accounted for even China and Taiwan. **C.** Tribal Naphtali would be the one to announce the ending of social

oppression per the Abrahamic Covenant. **D.** Pentecost required an offering of thanksgiving. Indeed, a sacrifice of impurities was made. Again, The Judahite always omits the political drama surrounding G. Floyd; by doing so, no artificial construct will ever subtract from the Soundwave25. Moreover, a Naphtali lady died by suffocation as part of the sacrificial offering announcing jurisdictional change for the Ten Tribes. To authenticate the fresh-air movement, tribal members of Naphtali had to illustrate a joint announcement death by suffocation. Likewise, Nat Turner defined his ministry for the Ten Tribes during his living days, and after his death he defined the era for tribal Judah to co-develop with imperialism.

In perspective, each of the three tribal members of Naphtali rode Soundwave25 as a confirming contradictory statement out of death comes life. Yes, the old system spiritually suffocates personified by the death of two witnesses' suffocation.

Soundwave25, Yeshua's Mission Statement, re-introduced its mission at each stated numerated milepost. Moreover, all prophecies prove their authenticity through cross-referencing. Enoch's book serves as an index from which Abraham, Moses, Daniel, YESHUA, North America, and the Land of Promise are referenced. Further, Enoch subscribed to the locations wherein the Congregation of Israel would gain self-consciousness within the paradigm newly constructed Temple.

I can now breathe expresses the new Temple's invigoration, not with bricks and wood, but under a new theological covenant that incorporates new moral codes and principles per the Mission Statement. When truly internalized, the Statement of Mission displays outwardly in all directions with new forms.

Summing up the reasons for writing this memo.

One. COVID-19 appeared in biblical dimensions. Who would have thought the world would be in lockdown mode to slow down the pandemic? Quarantine is a very uncomfortable restraining position. Still, according to the cycling law, TIME must collapse upon itself at the end of its cycle.

Whereas the cycling law records history, people tend to forget their past. As an exemplar, do you remember those who benefited from the Arabs and transatlantic slave trade? COVID-19 remembers. Now, their descendants are forced to taste the uncomfortable restraining conditions mandated to prevent the spread of COVID-19.

Power changes hands. Upon petitioning the Court of the Second Heaven, the 144k played a managerial role in spreading and containing COVID-19.

COVID-19 should be viewed relationally to the plagues of Egypt pre-exodus. By using the Egyptian model, the 144k members' executive team over COVID-19 are now better positioned to rearrange social interactions during the coming prophetic waves of judgment. Experience counts.

Many people have already decided on their future; one of the lessons learned over the past two years

states that the 144k and its waves of Firstfruits must operate within its mission's scope and don't try to be for all. Furthermore, the Temple doors of heaven are closed.

Repeating for the record, again, in April 2021, the 144k's managerial control over COVID-19 expired. Granted. In the first week of March 2022, the Court Summoned The Judahite for a summary conclusion of COVID, including COVID-19 and its variants.

Two. Scriptures tell about the birth pangs of the new order as currently seen. I have given a historical reference point of Judah's history written in stone for all to know the unfolding events are not subject to a subjective and personalized determination to change the course of history. Historical social and economic laws must be followed; otherwise, our future is at risk. Angkor Thom removes subjectivity from prophetic history, foretold, and directs attention to the new Temple's spiritualism; architecturally depicted, the Tree of Life has vibrational frequency dimensions as symbolically illustrated. Remarkably seen, the vibrational frequencies caused the pre-selected to move in frequency conformity posted G. Floyd. Decoding Angkor Thom's Temple Complex allows us to see the relative positions of staying at a lower level or ascending to new levels of obtainment thru Yeshua's theocracy, the Tree of Life.

Three. Earth's electricity source. The Judahite received a statutory declaration given by the Court of the Second Heaven through an illustration that rendered The Judahite's **phone battery useless** by a **superior energy source through absorption.**

I have already given an account about the battery a different presentation. Still, I want to underline the **multi-dimensionality** of the String Theory of Physics as seen as being multi-operational that holds interlocking gates yet has an alternate power source that surrounds the device permitting use **ONLY THROUGH** the superior power-source. **NO** need for manufactured electricity. Look. Aaron and Moses stood before the Pharaoh in testament to the Most-High God. Aaron threw down his Staff, and it transformed into a snake. The Pharaoh ordered his magicians to do likewise. Aaron's snake ate the other snakes and then re-configured to his Staff of divine authority. The magicians' snakes were of falsehood that could not withstand the superior power of Truth.

The Pharaoh received an illustrative preview of how his Kingdom would be destroyed through a superior energy force. **Still, he saw but could not comprehend** the **STAFF OF DECLARATORY JUDGMENT ON EGYPT**. When Moses lifted his Staff to depart the Red Sea, the king understood the demise of the Egyptian Empire.

Four. As with all false teachings like Egypt and Babylon, they have proven useless. Likewise, the plug-in electricity that runs to The Judahite's phone and the battery were rendered useless by a superior energy source. Electricity stopped flowing to the battery, and the power cord connected to the electrical outlet current stopped flowing. The lights were on yet, given no signs of electrical current. Man's artificial power source, electricity, was being absorbed. The battery's energy was eaten or drained simultaneously, suggesting no electrical current—a scene from a sci-fi movie.

Yes, electronic devices facilitate wickedness, i.e., kill, steal, and destroy. Being a Serpent's instrument, the devices are infiltrated programming by the teachings of Egypt, Babylonian, and the Second Beast system aimed at crushing the head of Adam's descendants. Religiously, many people carry their electronic devices everywhere.

What to expect? Like the crossing at the Red Sea, the host of heaven will render inoperably all electronics on the earth. However, the Executive Body of Israel will allow limited administrative use of devices through the String Power Theory of heaven. At any place and time on the earth, The Judahite will allow and disallow electronic use, which extends to trains, cars, airplanes, anything that houses electronics. The Executive Body of Israel will phase out the current global electronic infrastructure in the interest of the Stone Kingdom.

Five. Years ago, Archangel Raphael gave The Judahite an educational tutorial in which organic material seen on the floor for days in the same place took legs and a head and walked two feet. Finally, it re-configured into its organic state, just like Aaron Staff transformed into a snake and the divine Staff of authority. Similarly, the super-energy source will absorb manufactured electricity, representing false gods claiming the ability to override the Most-High God's moral standards.

Six. The Judahite will again go before the Court of Heaven on March 9, 2022, on a petition for a quickening.
