

Part Four

In each Part Series, the numbers presented are partial interpretations of the Order from the heavenly court. Though at times, man's numbers coincide with God's numbers. Again, The Judahite makes his separation known in using God's numbers from that of man's numbers.

12 is the number that appeared 11 February 2022—yesterday as part of the 24 January Court Order apparatus. Thus, twelve is a certified number as it validated itself on 12 February 2022 like other particular days in the Series.

12 February came as the Judicial Notice from the heavenly Court that the Man-child and or the Executive Body of Israel break from the enumerated list of parties noted in Jeremiah that will drink from the cup of wrath. 12 draws the line between the Executive Body of Israel from the Gentiles. 12 is a cosmic number representing completeness.

12 is a god number. Consider the twelve sons of Jacob, the twelve apostles, the twelve months of the year, the twelve gates in the New Jerusalem, etc.

There is coherency in prophecy. The Revelation 12 sign supports the attachment to the Court Order. Because many live an incoherent life, they see life from the worldview of taking chances and having luck. Such is a very primitive worldview of life shared by many regardless of class, race, or gender.

Humanity still doesn't understand many things about life. We must understand time dimensions for coherency. Consider, the Elohim gave humanity a measuring stick when he adjudicated the issues involving Adam, Eve, and the Serpent. The Elohim tells of his first coming thousands of years into the future and his second coming thousands of years after his departure. He gives a doctrinal philosophy of his coming as the Redeemer and to gather the Redeemed on his second coming.

Another example of time. Being on a different time dimension, Enoch saw the earth from heaven. He came back from heaven with the assignment to create all the megalithic structures worldwide for humanity to know the seasons and times of their existence. The megalithic systems are orientated toward the constellations enabling society to use the principle of time and space relational to activities on the earth. Particular to our hour, the fourth Gentile's kingdom is now on its way to the junkyard of history—incapable of evolving due to the lowest level of spiritual intelligence.

Moreover, as indexes, Enoch's megalithic systems tell what will happen in each region according to the time dimensions. What is scheduled to take place will take place. For example, the nineteenth dimension will be in synchronicity with the cosmic laws of physics that underline discordance for the Man-child ascension to his rulership role.

Often, we speak of the fourth and fifth dimensions, but nothing about 12 and 17. Enoch tells of these dimensions in his book for humanity to learn and observe. Taking thousands of years to write the Bible, the dimensions are incorporated in the Bible. Yet, society knows next to nothing about these time dimensions.

The pyramids of Egypt are mathematical monuments to Enoch. He contributed to earth's mathematical sciences. Enoch drew the twelve Zodiac signs in the temple of Egypt for anyone to go and see. After performing his tasks within the allowed time before the flood, he departed.

So, 12 February came as the official notice of falling away; the Man-child's independence asserts rulership over the formation of the Stone Kingdom. **In the right place and right time, the Court of Heaven issued its Order.**

A discourse on the Order and the Order's divisions and the Attachment's sub-Order

Interactively in real-time, The Judahite engaged in discourse with the heavenly Court on the judicial operational codes of MENE, TEKEL, & PERES. 24 January's Order and its days of validations have already pre-determined the attachment sub-Orders of blindness, no longer to see, and self-incriminating fire of combustion to consume.

On February 12, The Judahite continued his Disquisition of Justification before the Court. The heavenly Court acknowledges The Judahite's conclusion on the attachment's evolutionary pre-determination consistency with Scripture. A case in point:

- The king sent another officer with fifty men, who went up and said to Elijah, "Man of God, the king orders you to come down at once!"
Again, Elijah replied, "If I am a man of God, may fire come down from heaven and consume you and your fifty men." And the fire of God came down from heaven and consumed the captain and his fifty men. 2 Kings 1: 11-12

For clarity, the Attachment's sub-Order is tailored and doesn't affect other aspects of the Order; both judgments and blessings are still in place.

February 13, 2022

The heavenly Court stamped its seal of which The Judahite saw, having **100% confidence that the attachment's sub-Order will be upheld.**

In a judiciary proceeding, the Court of Heaven accepts the Disquisition of Justification to blind the eyes of those acting in Realtime through self-incrimination. And those in operational opposition to members of the Executive Body of Israel will receive self-combustion consuming fire.

What to expect? The person's intentions activate the countdown to self-destruction. Additionally, the people behind the purposes will also be blinded; eyesight taken away for good! NO more will "the king order" his managers to go to their death because the 24 January Court Order removes Affirmative Defenses. Based on the "String Theory," we should expect to see a cluster of people go down simultaneously. There might be some confusion, without any consequences, because other scheduled judgments might co-occur.
