

[ Several policy events have occurred in March. Some are designed for system administration. And some to affirm the Spirit of the Elohim going before exilic Congregation to make a way. In both situations, they **are not** reported on herein. Regarding this report, a table of contents will be added tomorrow and posted. Whereas April has calendar dates, not to miss, May represents Pentecost month or the Feast of Weeks. Planning should now start for Pentecost.]

## April 3 Reporting

Over the past two weeks, weather conditions around the world have forced many countries to seek international aid to assist in alleviating the effects of weather-related devastations. In one region of the world, the earthquake's epicenter impacted ten countries. Baseball hailstorms have been reported in many places, and in a few places, falling basketball size hail. In the USA, devastating communities are issuing the notice: **"we need everything."**

Weather conditions summary characterization—apocalyptic.

Nothing on the horizon to indicate a return to regular weather cycles. As such, from now on, we can expect biblical weather conditions to be a present reality in the background as unfolding prophetic events occupy the foreground.

### The War in Ukraine

The War in Ukraine continues to escalate. Generally, the western media portrays Russia as the invader, the aggressor. For many people in the world, the question is who represents right. Naturally, the question is asked what the fighting is about. War has always been a living hell. For this reason, an educated public needs to know the reasons for war. The corresponding answer demands simplicity, not fabricated emotionalism.

A brief overview of the situation herein is for the 144k's enhanced understanding from the perspective of the Executive Body of Israel in Exile's policy guidance. On the one hand, the visible operational issues of the war are apparent, as the warring sides have primary and secondary aims for fighting respective outside interests supporting the continued fighting. On the other hand, the functionality of the war is complicated. For this reason, a comparative analysis of interest is being made for the sake of an objective view, not taking sides—let the facts represent themselves.

### The US-Afghan War

As an introduction to Ukraine's War, the United States of America waged a twenty-year war in Afghanistan in self-defense against al-Qaeda terrorists on September 11, 2001. The official declaration of war states the Taliban gave al-Qaeda a base of operation for attacking America's assets at home and abroad.

After 9/11, did anyone have informational resources to question the security intelligence report? The anti-war movement asserts yes, though not enough strength to override NO. American public opinion put the stamp of approval on Washington's war plans.

The Taliban ruled Afghanistan before the War started and had total power during the American withdrawal from Afghanistan.

### **The Agreement to end the US-Afghan War**

Judging by his early days in office, President Trump reviewed the budgetary history of the War and concluded no basis existed for spending billions of dollars on an intangible war. It should be noted that Trump is a businessman from the private sector. Any successful CEO always looks for ways to reduce costs and continue to deliver quality service or manufactured products. As such, Trump signed the US-Taliban deal or the Doha Agreement.

Speaking in fairness, the Biden administration knew of the terms and conditions of the Doha Agreement. Looking backward in time, Biden supported the Bush administration to wage war.

America left behind an estimated 7 billion dollars worth of equipment, an acknowledgment of misguided military objectives. Under the Agreement, the Biden administration knew of the **last calendar day** for American troops to exit Afghanistan.

Remembering the chaos during Saigon's fall, but much worse. The withdrawal from Afghanistan displayed sloppiness, amateurishness, and an outright national disgrace. In reaction, a rallying call went out nationwide to impeach President Biden. Was the display a precursor of America's military future?

*"He recounted the events leading up to the bombing that left 13 U.S. servicemembers protecting the airport dead, many others injured, and scores of Afghan civilians killed."*

[Marine sergeant injured in the [Aug. 26, 2021 terror attack](#) at the Abbey Gate at the Kabul airport.]

As always, there is money to be made from wars. The Afghanistan War lasted twenty years. During such time, money was spent on supporting corrupted puppet administrations, like in South Viet Nam supporting puppet governments that disintegrated during American withdrawal from Viet Nam.

Once in Afghanistan, a policy shift occurred, like in the Viet Nam War. Pacification Programs aimed at educating females and giving males hope for a brighter future—such a noble aim.

Opium became part of the war. Nothing new, dealing in opium on the supply side or on demand side has been part of the U.S. War strategies in Asia.

### **Otherworldly phenomena**

Of interest to note, within Afghanistan, there are ongoing otherworldly phenomena. National security departments or agencies restrict the flow of information on paranormal phenomena, and artifacts.

### **American Coalition-Iraq War**

Although not stated, the American-Coalition-Iraq War was multi-functional. **One.** To teach the Iraqis never to think of replacing the U.S. Petro-dollar. The War lesson was well received by other countries contemplating replacing the Petro-dollar. **Two.** Stabilizing the U.S. Dollar for domestic price management through low-interest rates. **Three.** Regripping America's control over the worldwide banking industry signaled China to play by international rules or suffer the same fate as Iraq. **Four.** Two-faces of Weapon of Mass Destruction. Generally, everyone knows the term means nuclear weapons or biological-chemical weapons. On the other hand, the Weapon of Mass Destruction was a coded term to search for an ancient artifact or artifacts that would enable the occultist to rule the world. Or prevent others from ruling the world.

Did the USA find the Weapon of Mass Destruction? By looking at the logic within the pattern, the answer is yes. The military took away things in unmarked crates.

### **What Motivate Leaders to do seemingly Purposeless on grand scales?**

The Shah of Iran celebrated 2500 years of the Persian monarchy as the king of kings in 1971. Since money was of no concern, 465 million dollars was the party's cost. The party is dubbed the most lavished party in history. What a wonderful celebration in remembrance of Cyrus the Great. The Shah sought to resurrect the Persian Empire. Such an extravagant party with the invite of world leaders and the world's most influential people implies the Shah knew about magical artifacts or WMD in his country and region.

### **Russia.**

Considering the West's current image of Russia and the effects of the Cold War, we must use objective policy eyes toward Russia as multi-faceted.

Ukraine was one of the many countries composed of the Union of Soviet Socialists Republics or USSR. After WWII, Stalin established an iron curtain, a jurisdictional barrier between the East and West. From a general perspective, Russia, Britain, and the USA agreed on each country's sphere of global influence since they were the victors. Yet, Stalin actively pushed for creating the United Nations for conflict resolution among nations to prevent another World War.

Russia has never been imperialistic. Russia under Lenin worked out the outlined model for the Soviet Republic. And under Stalin, the USSR reached its evolutionary maturity to protect workers' interest over capital.

Many are quick to point out problems in the USSR's economic model, be they credible or not, they were distractions. However, the architects of the USSR encouraged other countries to reframe from mechanically adopting USSR's administrative model because their respective countries' historical requirements might demand a modified model; otherwise, they risk deforming society's evolutionary growth.

Two interpretative approaches to Marxism. One is scientific Socialism, and the other is traditional Marxism, as seen in the label Communism. For the record, *Communism doesn't exist in the world, a futuristic political proposition.*

For practical purposes, the political character of Marxism has been misapplied and no longer holds a hotly debated status as it once did to determine the way forward. Marx indeed contributed to political economy, as did others. However, the essential Marx, no one else, did a comprehensive analysis of the Law of Value as applied to manufacturing and the circulation of capital in its metamorphic stages of circulation and conversion into liquidity.

Russia and China worked out their versions of Socialism in conformity to their historical character of territorial origin.

### **Judah and the foundation of Capitalism**

Knowing that tribal Judah represented one of the three legs of capital accumulation (capitalism), Russia knew it could not overcome the social system of capitalism. However, over the years, much theoretical talk about socialism surpasses the western's version of capitalism, absent imitating Western colonial practices for capitalizing its social system.

Russia erected the Iron Curtain around Eastern Europe, preventing Western capitalism from crossing the line to subvert socialistic goals. Does the Iron Curtain look like Russia wants to move beyond its territorial boundary? Action speaks.

- President Ronald Regan called for the General Secretary of the Communist Party of the Soviet Union "Mr. Gorbachev, tear down this wall!".

Through the planned economy of five or more years, Russia could cherry-pick adaptations of western style industries that offered programmed compatibility.

After WWII, Russia contributed to the formation of the international labor movement and its growth. In America, the economic philosophy of labor rights got downgraded into a subversive menace to the United States government.

### **The Russian Revolution of 1917 Impacted the Black Labor Movement**

Tribal Judah innately stood diagrammatically in labor relation to capital. And inherently, private capital controls land, natural resources, enslaved people, and the workers living on the company's property as tenants all occupy subordinate roles in the production of goods necessary to sustain

societal life. The capitalist frames his financial philosophy as the right to hold on to all the surplus without regard to the basic health needs of the workers, regardless of being enslaved or wage slavery. The basic needs of housing, nutritious food, and medical care are daily realities necessary for a healthy workforce.

The labor movement tells its own history. Without workers' accumulated experiences and knowledge acting as components of variable capital and constant capital (tools and equipment), money circulation would never grow and expand. Ironically, open and closed union shops served and still serve as the capital's springs in the labor process.

Innately, Judah's slavery put him at odds with capital. This contradiction has persisted through the evolutionary stages of capitalism, the evolved American society. Judah's economic identity is labor—work, the primary reason for bringing Judah to North America.

Yet, Judah's labor rights were mistaken for subversion, the overthrow of America. Before and after the Civil War, Judah's fundamental demand was labor rights protection. Whenever black workers demanded employment or contract rights, they were labeled Communists. The sanitation workers' complaint led to Dr. King's assassination.

The Black Reconstructionist's labor rights movement of 1864 drove the 1963 March on Washington. At that moment in history, the Ten Tribes demanded jobs, housing, education, social services, and the availability of medical care. The political establishment in Washington embraced the legitimate legislative demands while, at the same time, relegating Judah's priority demand for labor rights protection.

The Black Reconstructionist regained its footing in the 1970s. Union organizing started in the Midwest, where, at that time, the location hosted over a third of heavy industries in America. The heart of the auto industry, Detroit, had many plants across the country.

The Black Workers' Congress came of age by understanding the application of mathematics in wage differentials and mathematics about variable and constant capital. Maximizing surplus value is always the capitalist's motivation.

Out of reaction to the Black Workers' Congress, corporate America went abroad to other countries, with China being its privileged location. Being a part of the organizing cadre, in less than a decade, The Judahite saw and talked with a Chinese trade delegation selling industrial products at cut-rate prices. Yes, the same piping was made years ago in the Chicagoland area. What? Yes, variable capital portrayed its own mathematics. Why pay higher wages and high costs for raw materials when there are options?

### **The Soviet Union Collapsed in August 1991**

Having an abundant of natural resources and a large landmass, the USSR did not need to wage wars to dominate. As a historical note, Russian ships prevented British supply ships to

arrive in the Confederate South during the American Civil War.

After the breakdown and the collapse of interdependency, the United Soviet Republics transformed into a mutual self-serving interest, where financial interest between capital and workers is managed without economic antagonism.

Before the breakdown, Russia's single focus was on increased internal economic growth capacity to drive *technological achievement in steps with America*. While Russia's technical progress has been impressive, and the only country on par with America that can affect the nuclear destruction of hundreds of millions of people in a nuclear exchange, the progress came at a cost.

Russia could not reach critical mass for the necessary economic quantum leap compelled by the immediate circumstance of the USSR collapse. Primarily, Russia lost the Cold War because it could not keep pace with America's military spending. Secondly, we should consider the effects of western's-imposed sanctions.

### **The Complexity of History and the Cold War**

The touchstone of history, the Angel and the Little Book (the New Testament) assigned to the Germans. In Revelation 10:8-11

<sup>10:8</sup> And the voice which I heard from heaven spake unto me again, and said, Go and take the little book which is open in the hand of the angel which standeth upon the sea and upon the earth. <sup>10:9</sup> And I went unto the angel, and said unto him, Give me the little book. And he said unto me, Take it, and eat it up; and it shall make thy belly bitter, but it shall be in thy mouth sweet as honey. <sup>10:10</sup> And I took the little book out of the angel's hand and ate it up; and it was in my mouth sweet as honey: and as soon as I had eaten it, my belly was bitter. <sup>10:11</sup> And he said unto me, thou must prophesy again before many peoples, and nations, and tongues, and kings.

### **Being mindful of spiritual forms of warfare.**

The New Testament represents the Little Book. Martin Luther of Germany was the first to translate the New Testament into German, which led to the Protestant Reformation, the doctrinal rebellion against the Pope and Roman Catholicism.

Martin Luther established the archetype of the burning Spirit of Pentecost Sunday that automatically brings about the conscious need to repent and receive baptism. Martin Luther made the Bible available to the ordinary person to read the Scriptures to effectuate his war with Roman Catholicism.

Dr. Martin Luther King, Jr being on the battlefield of spiritual warfare, adopted Martin Luther's name as the defined spiritual archetype: *"I took the little book out of the angel's hand and ate it up; and it was in my mouth sweet as honey: and as soon as I had eaten it, my belly was bitter."*

Committed to negating the errors of Roman Catholicism by reading the Scriptures, Germany, the home state of Lutherans, received the knowledge of physics to construct rocket technology, allowing humanity to go into space and look at its home planet and the diversity of celestial bodies in the heavens. Today, Germany is the largest printer of English Bibles than any country.

## WWII

For the record, Dan, the Jews of Germany, were treated well and contributed significantly to Germany's economy. The banking class of Dan betrayed the Germans through falsification and misrepresentation to bring the USA into WWII to better realize their agenda.

Germany's WWII defeat resulted in its corps of scientists splitting into one group going to the USA and the other to Russia. The Germans made an analytical decision on who would go to the East, Russia, and the West, USA. Yet they would remain in touch with each other by sharing technical information to their continued research in the science of rocket and military technologies to reconstitute a new Germany.

## The Cold War

As discussed in a previous presentation, the Cold War was about Russia and the USA spying on each to know what each other was doing regarding new technologies.

What accounts for the West's agenda to destabilize Russia? First, the Russians were the first to put a man in space by orbiting planet earth. Thus, logically or illogically, the thinking that space could and should be weaponized. On the other hand, Russia saw the USA's weapon of mass destruction when the A-bomb was dropped on Japan, effectively ending WWII. Given the proven state of science of mass destruction, the Russians took a defensive position in the arm-race.

At some point along the way, Americans gave fake scientific research data to the Russians to invest more and more capital into an open-end arm-race. Comparatively, Russia needed a matured social and economic infrastructure to commercialize applications from offshoots derived from scientific research and development.

Roswell incident, planned by the armies of heaven, gave the Americans the basis for making a quantum leap in societal development.

Think about it; Russia possessed an A+ military and space industry and a D in supply chain distribution and manufacturing of products before the collapse.

## The Results of Russia's collapse

Russia and the Soviet Republics were forced to reorganize. Western investments pour into

Russia. Some State Enterprises were either sold or given to private parties known as the oligarchs. The benefit of the collapse led to Russia developing its energy industry and exporting energy to Germany and other states.

From all indications, the West put in place a plan to switch out Russia's control over Ukraine. In the first place, Russia is not concerned about increased western investments in Ukraine and sees economic investments from the West as no threat.

On the other hand, Russia is fully aware of the West's plans to militarize Ukraine with the aim of a direct threat to Russia. The global elite has in place a containment plan to encircle the western boundary of Russia or to encircle the reconstituted Soviets Union.

Not fully understanding what the Cold War was all about, the Western legislative bodies thought the conflict was about a pending military confrontation between Russia and the USA. The mindset of the West remained the same, despite the collapse of the USSR.

On principle, consider the practical reality. Let's substitute Ukraine for Kentucky and transfer its location to the states. For whatever reasons, the government of Kentucky decided to renounce its disunion with the United States without a referendum from the public. Yet the government is supported by China and expresses a desire to set up a military base.

Each state in the US has territorial laws representing the will and consent of its population. Yes, Kentucky has standing to the right of succession from the Union as well as any state. However, national laws are established for the common interest of each state under the protection of a standing army.

As in the case of Kentucky and Ukraine, a conspiratorial clique is operating in the interest of a foreign power. The facts show the well-being of the population in Ukraine was never subject to a Russian threat until the conspirators came to power through the financial support of the West.

### **So, what is the West's hidden agenda?**

First, if the population had a fundamental problem with Russia, it could have been resolved within the first year of the War. Ukraine has received military aid from the West and will continue to do, making a settlement unappealing to both sides.

The answer to the asked question is to extend the conflict. Given the dynamics of war, any side can find reasons to prolong the war. Objectively, private interest groups plan to continue the War because there is money to be made, and the winner takes all.

However, the unintended consequence is setting the conditions for WWIII. The Military theater is now set for WWIII, which will take place on four fronts Ukraine/Britain, the Middle East & Israel, Asia/China, and America.

### **The significance of Russia**

Each generational period brings forth different perspectives of history that conform to the period of their time. Additionally, not all generations bring forth intelligent people who innately thirst for accurate knowledge. It is not easy to get to the bottom of complex issues because the waters of historical circumstances become muddy over time, intentionally and unintentionally. Herein, The Judahite continues to proceed on the Scriptures and signs of heaven for a correct view of Russia. As such, taglines of history will enable us to follow how history arrived at its conclusions.

### **The Apostle Age**

The Apostles did supernatural things to glorify the New Testament and the teaching of salvation through Christ.

### **The Church Age**

Endlessly, non-Apostle traditions appeared in many Christian bodies, and heathenistic and pagan practices emerged continuously as the Church Age evolved. For the stated reasons, John dictated Yeshua's letters to the Seven Churches in Asia Minor that constituted the seven pillars of the Church Age.

Emperor Constantine separated his Empire from pagan Rome, known as the Western Roman Empire. After Imperial Rome faded from history, Constantinople became the capital city of the Rome Empire, known as the Byzantine Empire.

As a constructive benefit of the Seven Church Pillars, the Eastern Orthodox Church became the repository of the Apostles' religious traditions and separated from Rome's culture of paganism.

The groundwork for the Church Age came in the Seven Ecumenical Councils, which gave us the Nicene Creed around which the Church Age united. Over time, divisions surfaced again, but not to the degree of killing those with opposing views and practices according to each interpretation of the Scriptures.

The Church Age embeds the fractional interplay between Esau/Edomites and Israel/the Congregation. When Imperial Rome suffered its final military defeat and faded from history, the Edomites or Idumeans used their church relationship within the structure that Apostle James, Bishop of Jerusalem, fashioned for the early ecclesiastics to organize the Church of Rome, which evolved into the Catholic Holy Roman Church. By default, the Idumeans mimicked the Eastern Christians Orthodox for developing the governance between Church and State. They used the Eastern Christian form of government to fashion the Catholic Holy Roman Empire.

The Roman Catholic Church is like any other Christian denomination to many Christians. Understand the interplay between the Edomites and the Congregation of Israel. Whereas the Edomite's blessings are earthly, the Israelites' are divine and everlasting.

Analyzing the doctrinal differences between the Congregations of the Idumean and Israel is beyond the scope of this presentation. However, the Council of Trent, Vatican I, and Vatican II should be studied as all the Catholic Ecumenical Councils in the context of Genesis 27:18-40.

Genesis 27:18-40 presents an exposition of the interplay between the Holy See/Vatican/the Holy Roman Church/ the Catholic Church on the other hand; on the other hand, the Congregation of Israel/Pentecost Sunday/Birth of the Christian Church/ Eastern Christian Orthodox/Protestant denominations.

### **How historical events forced the Edomite to change its name to Idumean**

The Maccabees or the Hasmonean Dynasty influenced Rome's decision to issue the injunction against the Edomites and different Hamitic tribes to either embrace the Judean religion or submit to death. Like the Hasmonean Dynasty, the Romans wanted to end the Grecian Empire once and for all.

The forced amalgamation is Idumean, a racial mixture of Edomites, Moabites, Ammonites, and Hamites. The Edomites always fought for separation from the Israelites when convenient. For example, the Edomites supported Hellenism against the Judeans.

Later in history, the Idumeans established a base in Rome and actively encouraged Judean Christians to be fed to lions for sports entertainment.

History repeats. Emperor Constantine made the law of death to anyone who opposed the Ecumenical Council's Canons. Overall, the Eastern Orthodox Christian Empire existed longer than other historical empires preceding it, over eleventh hundred years. Yeshua equipped the Byzantine with advanced weaponry to fend off endless attempts by heathens to overthrow Constantinople.

The modern international law of commerce rests on Byzantine's legal tenets. A few of the Ten Tribes of North America traded with Constantinople. History has repeatedly shown there are those, regardless of the region in the world, who seek to destroy higher degrees of civilization because they lack the ability and the means to create and sustain social progress.

### **The Holy Roman Catholic Empire would have remained poor without controlling might of state's military.**

The Idumeans of the Holy Roman Empire realized with each passing century that they would never achieve comparative levels of social and religious development as Constantinople, the

Eastern Christian Orthodox regime. Rome's the prophetic solution came in the prophetic blessing of Isaac.

- By your sword you shall live, and you shall serve your brother; but when you break loose, you shall break his yoke from your neck." Genesis 27:40

### **The Great Schism of AD 1054**

As prophesized, it was a matter of time before the Edomite would become strong enough to break free from Jacob's descendants influence.

One of the first signs of this eventuality appeared in AD 1054 when the Church of Rome separated from the Eastern Christian Orthodox Church.

### **The pathway to destiny**

Nicholas V, the Bishop or Pope of Rome, saw the Ottoman Turks capture Constantinople on May 29, 1453. Sultan Mehmed II, 21 years of age, commanded the attacking Ottoman Army that placed a 53 days seize around the city. Historians have shown evidence that the Catholic Roman government assisted in the fall of Constantinople out of self-interest according to biblical prophecy.

### **The Agreement between the East and West**

*"And the time shall come, when thou shalt shake off and loose his yoke from thy neck."*

Finally, the Edomites claimed Western Europe as their land of freedom. The Pope of Rome and the Eastern Christian Orthodox Patriarch came to a jurisdictional agreement no to cross the line that separates the East from the West.

### **Mohammad's covetousness goal to take Constantinople**

As a historical note, in the late six century or early in the seven century, Mohammad stated his desire to conquer Constantinople because of its wealth and high degree of civilization.

Mohammedanism takes desired possession of others using force.

Since Islamic countries came to Constantinople to trade, did they ever think about creating a different trading center?

### **The Fall of Constantinople and the Church of Rome's rising influence.**

In disbelief, why did it happen? For sure, Constantinople had the resources to prevent its fall. Hasten to say, time and time again in history, the fighting camp with the most help should have won the war. One example is the fall of Persia to Alexander the Great. The epic military battle of all time where over 500,000 soldiers were on the battlefield at one time, with Persia outnumbering the Greeks.

From all indications, Constantinople's fighting force came to the painful realization of their fall. Then, efforts were made to ship all the city's treasures to the land of Russia, where the

government and Eastern Orthodox Church would protect it. Because of the enormous wealth in the city, only a tiny fraction was shipped away to the territory known as Khazar, Jewish Empire. Constantinople fall per Yashua's proscription— "you left your first love." Revelation 2:4-6

- <sup>2:4</sup> *Nevertheless I have somewhat against thee, because thou hast left thy first love.* <sup>2:5</sup> **Remember therefore from whence thou art fallen, and repent, and do the first works; or else I will come unto thee quickly, and will remove thy candlestick out of his place, except thou repent.** <sup>2:6</sup> *But this thou hast, that thou hatest the deeds of the Nicolaitans, which I also hate.*

**Seek ye first the kingdom of heaven and the rest would be added. Constantinople served as the template of Yeshua's Letter to Ephesus.**

The Eastern Christian Orthodox Church took missionary work to the next level by converting primitive spoken tongues into written grammatical syntax. Today, the Russian language comes as one of the first milestone of missionary work. Likewise, missionary work included other tongues. Moreover, individual books of the Bible were converted into local tongues.

The classical languages, Greek and Latin, commonly taught and understood in many regions of the world gave students freedom to read the Bible as lay ministers.

- <sup>2:2</sup> I know thy works, and thy labour, and thy patience, and how thou canst not bear them which are evil: and thou hast tried them which say they are apostles, and are not, and hast found them liars: <sup>2:3</sup> And hast borne, and hast patience, and for my name's sake hast laboured, and hast not fainted. <sup>2:4</sup> Nevertheless I have somewhat against thee, because thou hast left thy first love.

Russia, as known today, did not exist during the time of the Byzantine's developmental apex. The Russian history, for the most part, is known as the Khazarian Kingdom. Like all other kingdoms, nations emerge slowly after prolonged tribal wars regardless of defeat or victory. The search for a better way of life pushed the migration movement in search of food and out of necessity to form alliances with other tribes for territorial protection. Climatic conditions and diseases are considered in the mix that drove tribes to different locations and to form alliances independent of their will. So, to varying degrees, the pattern repeats until critical stage of knowledge is obtained to better manage societal growth and well-being, which is seen when territorial groups can trade with other regions.

The Khazarian Kingdom or the Russian Kingdom comes out of this evolutionary pattern.

## A teachable moment

When the Elohim bestows covenant blessings, they are **planetary in scope**, though time moves in gradation according to prescriptions. Timely telescope-stepping in each circular period in history seen as either realization or materialization according to prescriptions. Often is the case, it takes hundreds and thousands of years for prophecy to ripen that correspond to the Israelites' degree of generational maturity.

Understandably, generations lose track of time for different reasons. Still, for those who are taught within their Christian community, they are given signs for high-watched days for us to know the season and to realign with the correctness of the Scriptures. 11:03

**Isaac Blessings' to Jacob and to Esau are programmatic outlines of history.**

<sup>27:39</sup> And Isaac his father answered [Esau] and said unto him, Behold, *thy dwelling shall be the fatness [surpluses of others] of the earth, and of the dew of heaven from above [organized religious bodies];* <sup>27:40</sup> Shall thy blessing be. Thou shalt live by the sword [using arm might with and without governmental consent] and shalt serve thy brother [Jacob/Israel]; and the time shall come, when thou shalt shake off and loose his yoke from thy neck [Vatican vs. Christian Israelites] Genesis 27: 39 &40

## Church and State

*"Your dwelling shall be the fatness of the earth, and of the dew of heaven from above."* Esau or the Idumeans had an established religious base in place when Imperial Rome fell. By default, the Edomite clerics used Imperial Rome's pattern instruments to reorganize Western Europe around Roman Catholicism.

## Spiritual deprivation

Despite efforts to ignite a spiritualized revolution in Christendom, Holy Rome encouraged the Crusade movement, people of towns and cities walked from Europe to the Holyland to see the landscape, sites, and buildings where biblical actors contributed to the Scriptures.

The intentions of the Crusades were legitimate and yield many beneficial results planned and unplanned for advancing European civilization. Still, Roman Catholicism could not sustain the doctrinal oil in its lantern for an enlighten walking pathway. The Vatican was spiritually bankrupt.

The Idumeans instituted various forms of paganistic rites, like selling indulgence—buying oneself out of purgatory, hell. Knowing that one would be saved by money, people were given the green light to sin.

The Vatican emerged as the "Little Horn" and given 42 months to live according to Revelation 13:5-6 and Daniel 7:8. Pope Pius VI fulfilled the prophecy when he was taken prisoner and died in France.

### **The Spiritual Consciousness of Martin Luther.**

To Luther, he appeared in history by chance. To the Elohim, he came as planned. By chance, Luther read from the New Testament and discovered salvation by grace is given freely. No one can do anything to earn salvation. While good works are very important, and confessing one's sins are necessary requirements, they don't qualify for grace. Luther concluded ***Justification by Faith***. He hit the nail on the head. He was led to do good works by translating the New Testament into German, giving way to the Protestant Reformation. As Europe cut ties with Rome based on spiritual interpretation, the Thirty-year War between the Lutherans and Catholic involved many people who took sides in the War, claiming millions lives to prevent Rome's re-gripping control over Europe.

### **The Council of Tent**

The Protestant Reformation forced the Vatican to convene the Council of Trent to reform its doctrinal views or lack thereof to confront and neutralize Martin Luther and his Ninety-five Theses.

### **The Little Horn's demise**

#### **AND**

### **The re-emergence of the Second Little Horn with the Beast**

Out of reaction to the Islamic presence in Jerusalem and control over the city, the Knights of Europe waged war against the Islamic caliphate to restore Christian control over Jerusalem.

Ignatius Loyola came to Jerusalem expecting to see only a Christian present controlling the city; seeing otherwise, he fell into spiritual depression and knew he had to put his military experience to use by expelling Islam from the city. Church officials looked upon him as an extremist.

When he returned home to Spain, he engaged in a sanctification process requiring many years. As part of the process, he formed the Society of Jesus, known as the Jesuit, to do missionary work around fashioning higher education of learning. Although a Catholic religious order, its charter's scope encompasses clandestine military operations guided by gathered intelligence. While serving the Pope, the Jesuit's charter is independent of the Pope and all forms of organizations. They follow the teaching of Jesus and hold no absolute allegiance to any organized body.

Working in collaboration with Freemasons, Napoleon's General arrested Pope Pius VI and held him as a prisoner because he refused to give up ***temporal power***, giving up political control over governments through monarchs. Having refused, he died in prison, as foretold by Daniel 7:25, fulfilling 1260 days. Napoleon held another Pope prisoner, Pope Pius VII, until he signed the Concordat of 1801, divesting the Vatican of its political control over society monarchs.

### America and the rise of the Second Little Horn and the Second Beast.

- “And I saw another beast coming up out of the earth, and he had two horns, like a lamb, and he spoke as a dragon.” Revelation 13:11

The Edomite/Idumean uses the **reverse disguises**, knowing he can dominate Israel’s children. Genesis 27:22-23.

#### The Spiritual Archetype to Disguise a blessing OR A blessing in disguise

<sup>27:22</sup> And Jacob went near unto Isaac his father; and he felt him, and said, the voice is Jacob's voice, but the hands are the hands of Esau.

<sup>27:23</sup> And he discerned him not, because his hands were hairy, as his brother Esau's hands: so, he blessed him.

Contrary to Esau’s reactionary anger, we must consider his modeled personality. Firstly, Esau valued satisfying his flesh over and against his divine treasure. He sold his birthright to Jacob for food. Later, Jacob cash-in his investment. Secondly, Esau took Hittite wives, Judith and Bashemath, giving grief to Isaac and Rebekah. His parents knew that they were the Serpent’s descendants. A good example is that Esau did not have spiritual eyes; therefore, his birthright never would have amounted to anything.

#### The Edomite Unites with Cleric Dan after 42 months Foretold Revelation

Two popes. The White Pope is characterized by wearing white bishop clothing. The Black Pope, a Jesuit, is distinguished by black cleric dress. The white clothing symbolizes the Vatican Edomite. Yet, mutually legitimizes each other, the Popes have opposing spiritualized agendas.

In 1825, Nat Turner, the Asherite, had a vision about *“white spirits and black spirits engaged in battle and the sun was darkened. And a voice says Such is your luck, such you are called to see, and let it come rough or smooth, you must surely bare it.”*

## About the Jesuits

### Dan I

- A. The founders of the Order were Danites. They established their mission charter from their direct experience. Those who went through the pre-requirements and passed became members. Not all Jesuits wear black clerical clothing, and not all Jesuits are Danites. The Order has transgenerational programs and policies.
- B. In their missionary work, the Jesuits should be considered as the Marines. Their accomplishments are legendary. They are credited as the cornerstone of higher learning in Russia, China, the USA, and many places worldwide. They possessed the gifts of tongues. They could understand many spoken languages and dialects and transform them into written form. Also, they translated necessary materials and taught languages.
- C. The Jesuits always had a distaste for monarchs because they governed without rational degrees of knowledge.
- D. A Jesuit was one of the signers of the Declaration of Independence, signaling the start of the American revolution.
- E. The Dan, the **Jesuit**, always acted timely regarding Judah's role in America's prophecy. For example, they included Judah in the layout of the District of Columbia or Washington, DC. The Jesuit commissioned the Capitol and other construction buildings in the District of Columbia to involve Judah. Set up the pilot training center at Tuskegee to involve Judah.

Dan shall judge his people, as one of the tribes of Israel. Genesis 49:16

Judah built the Jesuit White House. Dan rules the Israelites worldwide from Washington DC, the City of London, and the Vatican.

## Dan II

### **Tribal Dan has Guided Transgenerational Executive Branch Policies of America and other nation-states.**

In the days of the telephone invention, a line ran from the White House to the Maryland Catholic archdiocese.

Additionally, the Jesuits had a direct hand in the American Revolution, American Civil War, and the French Revolution.

## Dan III

Banking and Financial institution.

Tribal Dan is sectionalized into three major divisions. One. The religious or ecclesiastical. Two. Banking and financing. Three. Executive-level legislative policy.

## **Pope Francis, the Jesuit The Danite of the Hour**

Pope Francis consecrated Russia to the Immaculate Heart of Mary on March 25, 2022, and Ukraine. For the first time, the names of Russia and Ukraine were announced on March 25, 2022. The previous two times, the names were omitted.

Pope Francis is the first Jesuit Pope, a mark of distinction from other Popes. Russia is included in the Third Secret of Fatima, signaling the time for Europe's chastisement.

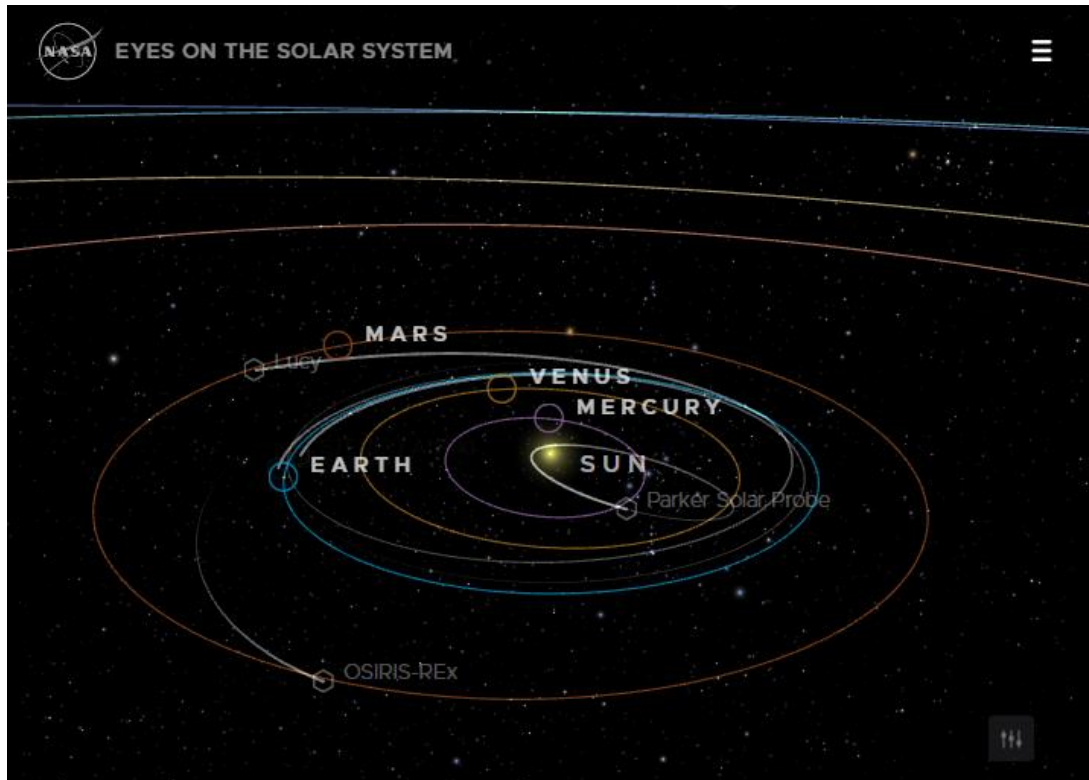

The conclusion of this presentation is straightforward. However, factual circumstances are noted herein as an aid against idealistic notions.

**One.** All earthly events occurring worldwide center around Israel's exilic return to the Lands of Promise. Many processes are in motion toward a new world order under the tenets of the "Stone Kingdom." Before the end of the millennium, the Executive Body of Israel has a four-hundred-year milestone date to reach.

**Two.** Look. The Edomites or the Vatican Idumeans were given signs of their future to round off Isaac's programmatic purposes of his Hittite's wives. The Three Secrets of Fatima disclose the purposeful outlined disguises of the prophetic **voices** and **bodily hair on man and animal**. The Secrets intend to show Esau's descendants their spiritual errors of having embraced, in part or whole, paganism and heathenism and turn to repentance before the God of Jacob.

**Three.** The Third Secret is about **the Pope consecrating Russia and Ukraine to the Immaculate Heart of Mary**. Russia is now assigned to act under Jeremiah 51:18. **For such an extraordinary assertion**, over seventy thousand people saw the sun moving toward the earth on a collision course, compelling people to run and scream out of fear. Yes, the power of the Elohim is incomprehensible.

**Four.** The sign appeared in 1917, the year of the Russian Revolution that birthed socialism, ending 300 years of monarchical rule.

**Five.** On the exact timeline of history, the Vatican, the Danite Russians, the Jesuits, the Jesuit Pope, and the Executive Body of Israel were given a pre-appointed destiny date delivered by the Man-child.

**Six.** *“July 4, 2014, Pope Francis Declares War on Obama via his private attorney. Pope Francis asserts civil authority over the United States of America and assumed command of the U.S. military.”* The Pope issued notice to *“all members of the Domestic Police Forces, US Marshals Service, the Provost Marshal, Members of the American Bar Association, and American Armed Services. He appointed General Carter F. Ham to lead and command The Grand Army of the Republic and its successors under the guidance of the Joint Chiefs of Staff and with their full support.”*

## Jeremiah's Seventy-year Prophecy is now in its Second Phase. The War Against Babylon.

“Set ye up a standard in the land. Sound the trumpet calling the nations to do battle. consecrate the nations to do battle against Babylonia. Summons these kingdoms to attack her: Ararat, Minni, and Ashkenaz. Appoint a commander to lead the attack. Send engines of war against her; bring the horse as the stinging locust.” Jeremiah 51:27

### Who are Ararat, Minni, and Ashkenaz?

A complicated question and the answers are controversial.

Genesis 10:3, “And the sons of Gomer; Ashkenaz, and Riphath, and Togarmah.” Gomer is Ashkenaz father. Gomer is associated with Germany.

Ararat. Genesis 8:4. “*On the seventeenth day of the seventh month, the ark came to rest on the mountains of Ararat.*”

According to Wikipedia

“Mount Ararat is located in the [Eastern Anatolia Region](#) of Turkey between the provinces of [Ağrı](#) and [Iğdır](#), near the border with [Iran](#), [Armenia](#) and [Nakhchivan exclave](#) of [Azerbaijan](#), between the [Aras](#) and [Murat](#) rivers.”

Mt. Ararat covers Turkey, Iran, Armenia, and Azerbaijan. Ararat is where the three sons of Noah debarked to re-populate the earth. It is natural to assume that Ararat means Turkey; it could. Yet, Ararat covers Turkey, Iran, Armenia, and Azerbaijan. The Judahite recasts the interpretation to include the righteous seed of Noah's sons representing governments worldwide.

Minni is interpreted as Armenia but means Russia. Armenia had a close economic and social relationship with Russia and was part of the Soviet Union at the time of the Collapse. Likewise, Ukraine was part of the Soviet Union at the time of the Union's Collapse.

### A functional overview of Russia and Germany.

Given the outline presented, the logical conclusion **a)** functions as a Danite—having evolved from the Khazars Empire. **b)** Russian Revolution of 1917 appeared under the supporting shadow of the Jesuits. **c)** Russia's Eastern Christian Orthodox Church is part of the Greek synod of the Eastern Christian Orthodox Church. **d)** a symbolic tie-in, Nord Stream 1 and 2 pipelines were blown apart to show the prophetic connection in reverse as to what they will do to the Babylonian.

f) who is the King of Babylon? He is not, soon to be on 6 April 2023, King Charles III of the UK. The President of the City of London is XI Jinping because of China's significant monetary assets. Do not confuse Metropolitan London with the City of London. Vatican Rome, Washington, D.C., and the City of London are city-states.

### **The Central Command Station During the Attack on Babylon**

- "Announce and declare to the nations; lift up a banner and proclaim it; hold nothing back when you say, 'Babylon is captured; Bel is put to shame; Marduk is shattered, her images are disgraced, her idols are broken in pieces.' **Jeremiah 50:2**
- "Lift up the battle standard against Babylon's walls. Strengthen the guard, post watchmen. Set men in position for an ambush. For the LORD will both plan and carry out what he has declared against the inhabitants of Babylon. **Jeremiah 51:12**

### **The Executive Body of Israel in Exile is the battle standard**

According to the calendar dates, the attacks will start on the sanctioned dates by the Second Heaven Magistrate. Thus, the Green Light is now on for all governments supporting the returning exiles as foretold in the Abrahamic Covenant per the Lands of Promise should no longer delay planning strategy and tactics with pre-determined outcomes.

Instructions to Dan according to Genesis 49:17:

- *"Dan shall be a serpent by the way, an adder in the path, that biteth the horse heels, so that his rider shall fall backward."*
- In coordination with Ashkenaz/Germany, Dan will open the **first front** by freezing all assets to be transferred to the Executive Body of Israel.
- Dan will function as the field commander appointed by Central Station.

### **At the Central Command Station,**

More will be said about the three days of darkness in the coming days.
