

May & June Calendar Updates

May 6 Highlights.

Some occurrences come into play on appointed dates are not highlighted. However, the highlighted categories have the aim of enabling substantial reasonings of biblical statutes and declaratory prophecy. Still, regardless of reporting or not reporting on occurrences, the dates should motivate one to have open eyes to capture noteworthy happenings of one's locale and worldwide.

May 6

A few highlights are being touched upon, with more essential insights coming.

The coronation of King Charles III of the United Kingdom caught significant worldwide attention.

King Charles III's arrival is a little late, according to the prophets who refer to the King of Babylon in the latter days. However, over the past seventy years, the Queen of Britain was the ceremonial head of the Babylonian global banking system because no king existed.

Going back to the modern Babylonian global banking system, assigned to Britain, originated in Babylon. Remember, Daniel established the banking or financial 2:20 ratio for the Gentiles. Daniel proved the ratio by generating a staggering amount of wealth for the super-state of Babylon and later for the mighty Persian Empire.

History assigned tribal Manasseh as the repository, holding the financial 2:20 ratio. When the financial ratio reaches its growing maturity in any industry or capital investments on any scale, disintegration occurs due to not being able to manage the balance. Likewise, in individual cases, the Gentiles' fourth and final social system will collapse into the Commonwealth of Israel's economic paradigm because capital grows out of sync or beyond the inability to manage the increased disequilibrium, created by competing interests.

Parties that corroborate this historical assertion are Britain, the tribal Manasseh of India, the Jewish Danite, Karl Marx, and the enslaved tribal Judah, engendering Marx's conceptual body Capital Economics, as stated in Das Kapital (German-Capital). Marx's involvement with the British East Indian Company expanded Britain's global trade financing. His social philosophy led him to support the Paris Commune. Additionally, he instructed President Lincoln of the United States on how to handle the labor relations between black and white workers in the interest of fairness to both races.

So pervasive within capitalism, killing, stealing, and depravity are devices used to maintain the equilibrium 2:20 established by Daniel. The French Bankers directly created the financial and economic conditions for the American Civil War.

Upon this ratio, labor needs fundamental requirements to sustain a worker's life. The worker needs basic things to support their daily life: food, shelter, medicine, environmental security, and reproduction. On the universal level, labor occupies primacy. However, productive work creates tools, equipment, machinery, and knowledge to free itself from unnecessary toil. Thus, labor or the worker is always in a relational challenge to draw out much more that is put into a construct. Hence, 2:20 is the maximum limit for receiving returns on allocated resources investments.

The original ratio was 1:1. Or one part energy labor to one part gold. America came off the gold standard and now uses the Petro-dollar as a substitute. Some argue for returning the gold standard. No, returning is out of the question. However, understanding the law of value, any unit measure can be used, assuming that the measuring unit can be scaled to a universal level, that is, national and international.

Even so, capitalism and imperialism still have a two-part problem. The conflict is within the relationship between capital and labor; on the other hand, how best can the superstructure of society assist in managing the competition among social classes as to what class takes the larger share of the social distribution of surplus value.

Daniel modeled the elements within the superstructure of society when he became the target of a conspiracy within the Medes-Persian Empire. The Chaldeans had it all planned out to usurp the income and wealth from the state and placed the resources into their private hands.

Intentionally or unintentionally, everyone engages in fraud and defrauding. For example, going shopping and making a clothing purchase is an act of fraud. How? One asks. In countless places worldwide, workers are exploited for their labor, not making enough money to support their basic needs adequately. Likewise, in all manufacturing, the rate of profit is under consideration due to variables.

The Super-structure of Society

Whereas London is regarded as the global financial hub, the Babylonian financial network is global and operates independently of any location due to the paradigm of killing, stealing, and inducing moral destruction. Again, the paradigm represents the philosophical practice of capitalism and imperialism.

King Charles III, a ceremonial monarch, has limited power concerning King Xi Jinping of Babylon because China has the financial strength sufficiently to veto any endeavor that threatens China's interest. Thus, King Charles III is of secondary importance, relational to King Xi Jinping's interest.

Not surprisingly, Britain and China intertwining financial roots were graphed into the Babylonian banking system during the period before the Opium War and continued today through HSBC Bank.

King Charles III still shares a close bond with his colonies and former colonies through Britain's neo-colonial trade and investment policies. For example, in the early days of Ghana's First Republic, the Bank of England assisted in forming the Bank of Ghana, a state bank.

The Prophetic Timeline

King Charles III's Coronation drew the world's attention to the ceremonial crowing of Babylon's King and his Queen. As a former colony, Americans attended the Coronation and performed as part of the programmed celebrations.

No question, King James I, the Asherite, would have significantly appreciated May 6 Coronation from the perspective of a milestone in the pending return of the Israelites after four hundred years of jurisdictional restriction.

The American colony was dead and not able to make a profit. When King James I came to power, he turned the settlement into profitability in timing when Judah arrived in 1619 from Angola. American Tobacco was the best in the world.

The Alignment of Kings and the Fall of Babylon

With the prophetic alignment of King Charles III and King Xi Jinjing of Babylon, Jeremiah 25:12 announces the consummation of judgments.

- *And it shall come to pass, when seventy years are accomplished, that I will punish the king of Babylon, and that nation, saith the LORD, for their iniquity, and the land of the Chaldeans; and I will make it desolate forever.*

The appointed time to Close and Open doors. Characterize by Juridical deliberations on offenses Against tribal Judah.

- *I know everything you have done. And I have placed before you an open door no one can close. You were not very strong, but you obeyed my word and have not denied my name. Revelation 3:8*

May 6 certified its statement of intent by opening the door for The Judahite to particularize the parties of the proceeding for banking disintegration to satisfy The Judahite's claims. Personalities are not the subjects herein because managing heads of state and heads of financial/banking institutions come and go. Therefore, May 6 addresses the tribunal's subject matter jurisdiction for enforcing judicial rulings over banking institutions in Britain and Ghana.

May 7 qualifies the named parties with others to be added to the list soon.
 May 8 weighed all the evidence and found the scale of justice to be imbalanced in favor of dishonesty.

Calendar Updates

On May 8, 2023, The Judahite received 9 and 12 driven by base 5. All other dates are still valid.

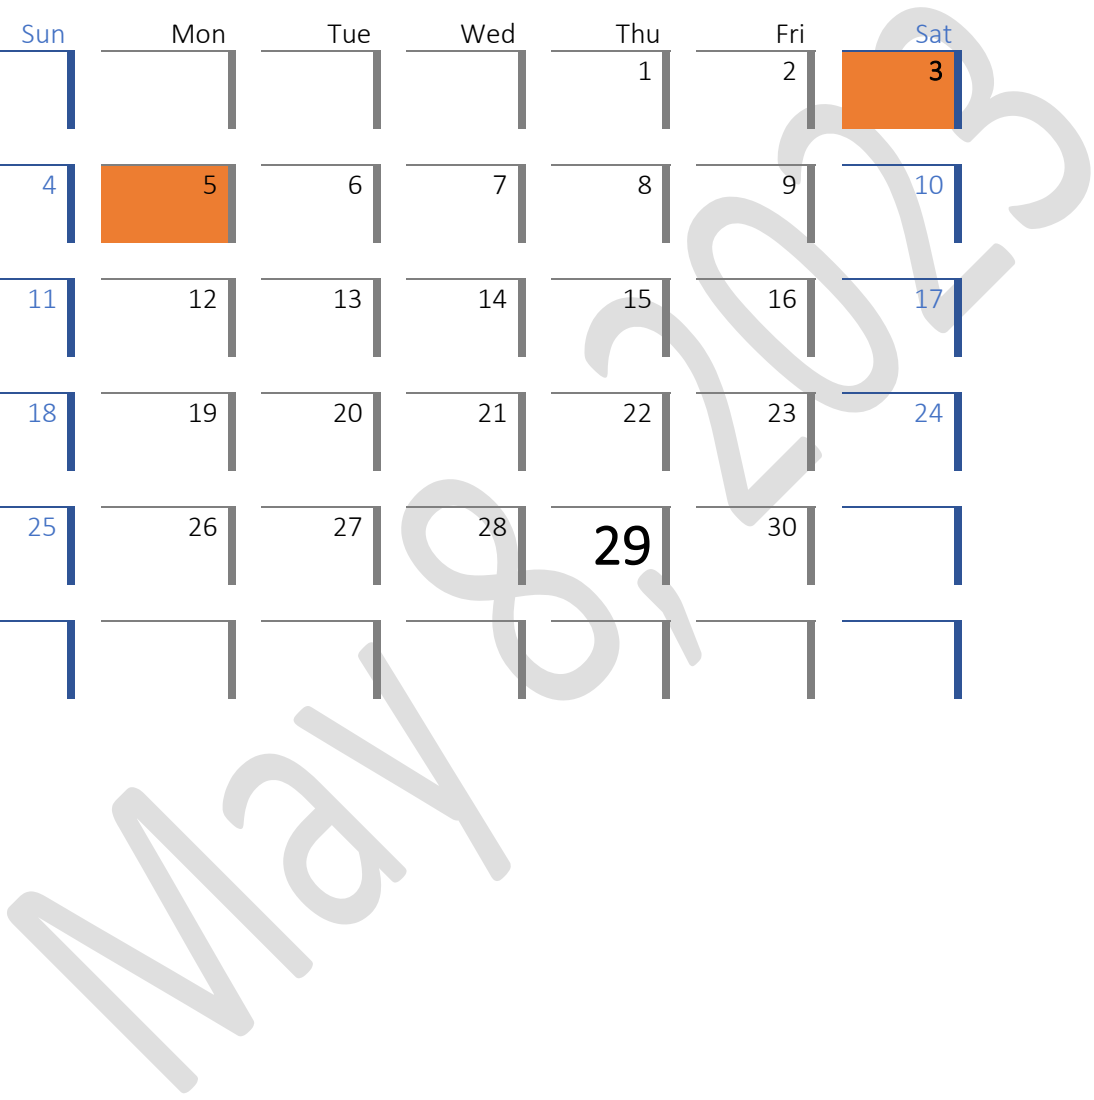

May 2023

Sun	Mon	Tue	Wed	Thu	Fri	Sat
	1	2	3	4	5	6
7	8	9	10	11	12	13
14	15	16	17	18	19	20
21	22	23	24	25	26	27
28	29	30	31			

On May 7,2023, The Judahite received the June date 29.

June 2023

Sun	Mon	Tue	Wed	Thu	Fri	Sat
				1	2	3
4	5	6	7	8	9	10
11	12	13	14	15	16	17
18	19	20	21	22	23	24
25	26	27	28	29	30
